1,313 Miles of Road Serviced During '48

The Kentucky Department of Highways contracted for 1,313 miles of road construction, surfacing and resurfacing during 1948 at a cost of more than \$16,400,000, Commissioner Garrett L. Withers said today.

"During the year just closed the state has attempted to carry on a progressive highway program as far as has been possible without sacrifice of vital maintenance of the existing highway system," Commissioner Withers said.

"Since none of the new two-cent income from the state gasoline tax was available for construction, emphasis this year has been placed on federal aid primary and secondary roads. This program, linked with the necessary reconstruction caused by the severe winter, brought the contract figure past the \$16,000,000 mark."

A budget of \$9,000,000 was adopted for the fiscal year beginning on April 1, 1949, to provide for maintenance which, according to Maintenance Director M. F. Johnson, was one of the most wide-spread and pressing problems of the year.

"In addition to our own work with our own forces, \$4,800,000 worth of resurfacing contracts were awarded to repair damage caused by the severe weather of last winter," Mr. Johnson said, the greatest of any single year in the history of the department.

A number of construction projects were completed or started. Twelve miles of concrete pavement on US 27 in Harrison and Pendleton counties was completed.

Kenton Utopia Clubs Name 1949 Officers

The program committees of both clubs have outlined programs for 1949, the Crescent Springs club will have as its theme, "The Farm Home." Some of the activities included in the program are county-wide banquet, District Utopia Conference, Utopia Camp and the county 4-H Club exhibit.

The Utopia Club is an organization of older rural youth interested in agriculture and home economics, sponsored by the Extension Service, College of Agriculture, and Home Economics, University of Kentucky.

Walton's 'Man of the Year' To be Named

Walton will have a "Man of the Year," according to the Walton Rotary Club. He will be named in the near future for achievements during 1948.

The Board of Directors of the Rotary Club have been named as a committee to select the "Man of the Year," in Walton, and the choice will be based on his accomplishments during the past year in education, business, civic activities, religion and fraternal activities. He may have accomplished one good act in a number of these phases or a general overall picture of action in all. This "Man of the Year," need not necessarily be a Rotarian, or then it may be—every man in town is an eligible participant.

The committee also wishes to have suggestions from various citizens as to their choice and why. The committee is composed of Bob Brugh, John Wood, Louis Schwab, Walter Vest and Powers Conrad. The picture and story pertaining to the choice will appear in this paper in the near future—Who do you think was the "Man of the Year," in 1948, here in Walton?

Credit Ass'n Names New '49 Officers

The board of directors of the Northern Kentucky Production Credit Association, at their last regular meeting, elected the following officers for 1949: President, A. Threlkeld, Corinth; Vice President, C. Liston Hempling, Constance, and Secretary-Treasurer, Russell L. Lawrence, Williamstown.

Directors of the Association, other than the president and vice president, are Roscoe Jump, Elliston; W. H. Parker, Sanders, and F. G. Martell, Palmouth.

Farmers in Northern Kentucky are honored to have for president of their own credit cooperative, a man nationally known and so vitally interested in agriculture. A prominent farm magazine recently declared him as the 1948 "Man of the Year" for the State of Kentucky, for his distinguished service to agriculture.

New Representative

Farmers of the Northern Kentucky Production Credit Association, through their board of directors, have employed Russell R. Dougherty as Field Representative. He assumed his duties January 1st. This will give the Association two full-time field representatives.

Mr. Dougherty is a resident of Grant County. He is a farmer who has operated his farm successfully and who is well known as a good farmer in this territory.

The growth of the Association in recent years has necessitated additional personnel to render the service to which farmers are entitled. Mr. Dougherty will serve Kenton, Campbell and Pendleton Counties, and also will be available in Grant.

His actual experience in the problems of farmers should enable him to better serve his fellow farmers in their own credit cooperative.

Legion Post To Sponsor Birthday Ball

Johnson-McElroy Post, 277, American Legion, held its first regular meeting in their new home on Beaver Road, Monday night, Jan. 3. There were quite a few topics under discussion, but one of the main topics was having a President's Birthday Ball.

As many of you know, these balls are held all over the country each year and the proceeds go to fight that dreaded disease, Infantile Paralysis. We of the Johnson-McElroy Post think that this is one of the most worthwhile benefits we can support, and we are backing it to the best of our ability.

This ball will be held in the new Legion Home on Beaver Road on Saturday night, January 28, 1949, and all the net proceeds will go to The National Foundation for Infantile Paralysis. Tickets will be on sale the first of next week, so you can contact any Legionaire and get your tickets. Come on out folks, and back this worthy cause, so that some little boy or girl can say, "Look! I can walk again."

Another topic of discussion was that of starting some activity for the teen-agers of Walton and surrounding communities. This has been one of our main goals since the Legion was formed and now that we have a home that goal is in sight.

We think it is necessary to have a place here in Walton where they can go and enjoy themselves without having to get in cars and drive all over the country. We have purchased a ping-pong table and other games will be purchased as we go along. We also plan for them to have a place to dance, and have soft drinks, potato chips, etc. We also want the wholehearted support of the parents, because we want them to come too on these teen-age nights and help us as cheerleaders, and to help plan the activities, as we go along. With this cooperation I feel sure we can make this venture a success and something for which we can be proud.

Anyone having any suggestions on this youth activity program can contact the Advertiser office or John Meador.

Bearcats To Play at New Haven, Friday

Bellevue's Tigers remained undefeated in basketball Tuesday night as they trampled the Walton-Verona Bearcats 72-44. The victors held a 33-7 margin at the end of the first quarter, and a 49-13 lead at half time. The slaughter continued in the second half, with Bellevue reserves seeing plenty of action, and matching Walton's play.

Bill Faber topped Bellevue scorers with 20 points, while Vest was best for the losers with 19 tallies.

Cats Play New Haven, Friday
On Friday night, Jan. 7th, the Cats go to New Haven to tilt with the Tigers. This is a Boone County expected a show to a better ad-conference game, and the locals vantage. However, next Tuesday, Jan. 11th, they will be out of their class again, most likely, when they tangle with the Little Colonels at the Dixie Heights gym.

Crusaders Class to Meet

The Crusaders class of the Walton Christian Church will meet tonight (Thursday) at 8:00 p. m. in the home of Mr. and Mrs. Cecil Osborn. A covered dish luncheon will be served.

Rehabilitation Program Is Outlined

Cost of living increases in the compensation of disabled war veterans, widows, orphans and dependents will be asked of the coming session of Congress by the American Legion and Auxiliary. Mrs. Roland Glenn, Rehabilitation Chairman of Johnson-McElroy Unit of the Auxiliary, said today. The Auxiliary also will support the American Legion's request for pensions of veterans of advanced age. Since these men protected their country in their youth, it is only right that the Government should help provide for them in their old age. The granting of Social Security credit for time spent in the armed forces during World War II is also being asked for veterans and their families.

On Thursday evening, Dec. 30th, a number of Auxiliary members attended a dance and social at the Ft. Thomas Veterans Hospital. All had a very enjoyable evening and came home feeling that it was time very well spent. If anyone could go over there and see for themselves they would certainly agree wholeheartedly.

Four Units of this District are having another dance Jan. 17th and we have been invited to attend. That is the least we can do for these boys. We can't make them well and get them home to their families, but we can certainly devote a little of our time to making life a little more bearable for them while they have to stay in the hospital. It means so little to us and so much to them.—Pub. Chm.

Layman-Leader Honored

Orylle Noel, Florence, head of the Noel Company, insurance and realty firm, Covington, completed 25 years service as teacher, deacon or elder, Dec. 31st, with the Latonia Christian Church, 39th Street and Decoursey Ave., Latonia.

Announcement of Mr. Noel's long service was disclosed by Joseph D. Hill, minister, who reported that the congregation had conducted a "Recognition Service," honoring the layman-leader. Noel has retired as chairman of the Advisory Council of the church.

Arthur Christian, Latonia, has succeeded Noel as chairman of the Council for 1949.

"Steve" Going Into Private Enterprise

Resignation of E. G. Stephenson as vice president and general manager of the Consolidated Telephone Co., Florence, effective January 1st, has been announced by G. B. Foscoe, Wilmette, Ill., president of the company.

Mr. Stephenson some time ago made known his plan to leave the telephone operating field to establish a consulting and construction service for Kentucky Independent telephone companies, particularly the smaller ones, which service he opened January 1.

Mr. Stephenson was succeeded by G. B. Foscoe, Jr., who for three years has been associated with the Southwestern States Telephone Co. in Brownwood, Texas, as traffic superintendent.

Mr. Stephenson began his telephone work in 1922 when he became an apprentice lineman for the Consolidated Telephone Co. In 1930 he transferred to general service and installation work and in 1933 was appointed plant superintendent. In 1935 he was named manager of the company.

In 1938 Mr. Stephenson was placed in charge of the conversion from magneto to common battery operation of the Irvine and Ravenna exchanges of the company, which included construction of a new central office building, installation of new central office equipment, and rehabilitation of the outside plants.

In 1940 he returned to Florence as manager of all the company's properties until the spring of 1947 when he was elected vice president and general manager.

Mr. Stephenson was active in the formation of the Kentucky Independent Telephone Association in 1933 and has served as an officer and director. At present he is vice president and a director of the association.

Mr. Foscoe, Jr., became associated with the telephone industry in July, 1935, following his graduation from Lehigh University, when he joined the staff of Telephone Management Co., Fort Wayne, Ind., a unit of the Garry Group. In September, 1935, he was transferred to Kansas City and was elected secretary-treasurer and a director of several Garry operating companies.

Mr. Foscoe, in February, 1939, joined the Texas Telephone Co., of Sherman, Tex., as assistant general manager. In August, 1945, he accepted the position of manager of the Dyersville district of the Iowa Telephone & Telegraph Co., having general supervision over all the departments of 12 exchanges.

He resigned from that position in February, 1946, to become traffic superintendent of the Southwestern States Telephone Co., in which his duties consisted of all phases of traffic management in the company's 195 exchanges of the states of Texas, Arkansas, Oklahoma and Louisiana.

In Remembrance

Lesson for January 9, 1949

JESUS OF NAZARETH was the Unforgettable Man. All our information about him as he lived in Galilee comes from four small booklets known as the Gospels. There was a little more about him in the letters of Paul and a few additional sayings of his have been preserved in papyrus fragments in Egypt. But the main source of our historical knowledge of Jesus is in these four Gospels. All put together they do not make a big book; but any one of them by itself is a great book.

Who Remembered Him?

IT BOTHERS some people to discover what scholars have always known, that our Gospels as we have them are based on earlier writings and spoken traditions. But this gives us an even better reason for trusting the reliability of these records. They were not made up for the first time a generation or more after Jesus' resurrection. They go back to the lifetime of thousands who personally knew Jesus.

The farther back scholars can trace the origin of the Gospels, the more historically reliable they are proved to be. Some of the information worked into our Gospels came from personal reminiscences; this is the case with large parts of Matthew and John. In the case of Mark, the early story in the church was that as a young companion of Peter on missionary journeys, Mark jotted down the stories which Peter told about Jesus.

At any rate the Gospel of Mark contains just the sort of things that a man like Peter would be likely to remember. Luke himself, a missionary doctor and great friend of Paul, never knew Jesus personally, but lived for two years in Palestine and gathered the materials for his Gospel while there were still hundreds of people there who remembered Jesus well.

What They Remembered
 JOHN tells us that it would be impossible to write down all that was then known of Jesus' life. Out of the 400 days (at least) during which Jesus' public ministry lasted, not over 40 are recorded, even in part.

Yet what these men did recall and record is enough to reveal a matchless Person. A 5th Gospel might enlarge our knowledge of Jesus; but it would not greatly change it. Jesus never wrote a book, not even a letter so far as we know; yet such words of his as were remembered have influenced the world.

Jesus' entire public ministry lasted a shorter time than it takes to go through college; yet what he did had a deeper effect on the world than the work of any university graduate in history. Jesus started no corporation, no formal organization; yet out of his fellowship have grown the greatest institutions in the world.

Why They Remembered

THE STORY of Jesus was remembered and recorded by his followers partly because they could not help it. They could not forget him and did not want to forget him. One thing is true of all those who lovingly cherished these memories of the Master: they loved and adored him.

No unbeliever ever wrote a Gospel. Pilate wrote no life of Christ. Even if Judas had lived, he could not have written one. Our Gospels were written by men of faith, for the purpose of calling out faith in others. "These things were written that ye may believe that Jesus is the Son of God." (John 20:31).

In one sense of the word we could write a better Gospel now, for today 19 centuries of Christian experience are behind us, and those centuries are full of the doings of Christ through his church. The four Gospels tell us of what Jesus did in Galilee. But now we can tell the story of what Christ has done in Africa and Greenland and Australia and America. Reading the Gospels is interesting; it is important; but the reading has not 'till the bull's-eye if it leaves you, but the more you read the more informed you will be.

STAFFORDSBURG

Having to pick out the most important things which have happened during the holiday weeks is not an easy matter. To take care of the neighborhood visiting we will say that for the most part the "Smiths" had supper with the "Browns" and then the "Browns" called on the "Smiths." Most everyone had cards from everyone else and gifts were exchanged quite often. Which all goes to make a friendly community spirit. The Christmas program, while not very fancy, was well attended. The beautiful tree was enjoyed by all. Our pastor was well remembered, but best of all, was to

have Mrs. Wheary able to be at the first worship service of the year. We were also glad to see her looking so well after her recent severe illness. Rev. Patton, our new District Superintendent, preached for us a wonderful message on the "Hitherto and Henceforth of the Bible." We had a nice number at Sunday School, which is encouraging to all. The Sunday School rooms are doing very well considering the bad weather and unavoidable delays.

Mrs. Thos. Borkers, who has been ill for several weeks, is better but we are sorry that Mr. Borkers fell and injured his ankle. Mrs. J. B. Richardson is now going all around the house in a wheel chair and is also enjoying the company of Mr. and Mrs. Geo. Finnell,

who have moved back to our neighborhood from Hamilton, Ohio.

Mr. and Mrs. L. J. Rapp had as guests for a week, Mr. and Mrs. Jesse Rapp of Magee, Ark.

Miss Hope Keeney spent a week here visiting relatives and friends. To one and all a Happy New Year.

Hall Bros. of Powell county harvested an average of 100 bushels of Ky. 102 hybrid corn to the acre on 135 acres.

NOW IS TIME TO STUDY FARM RECORD BOOKS

Now is the time to study your farm business for the past year to find both its strong points and weak points, according to Bill Davis, County Agent. Information about these strong and weak points should be helpful in planning your farm business for the coming year.

The value of a plan for operating your farm depends upon accurate information you have of your farm business. To improve your farm program, you need to know:

- 1—How much farm income you had and from what enterprises.
 - 2—How much total farm operating expenses you had and the improvement items making up those expenses.
 - 3—Livestock production per animal.
 - 4—Crop yields per acre.
 - 5—Any change in your net worth.
- The best and most accurate way to get the above information to guide you in making an improved farm plan, is to keep a record of your farm business. The Farm Department of the University of Kentucky has prepared a very simple farm record book. The book is easy to keep and use. It would require less than two minutes a day for the average family to keep the book; that would be only about one day per year. I doubt there is any other way to use a day's time more profitably than in keeping a record of farm business. If you want the Ky. Farm Record Book, come to my office for your copy.

After tilling two acres of land, Steven Pitts of Menifee county doubled his corn yield.

SHORT STORY
Bingo --
The Winner
By
LOUIS CUNNINGHAM

ROCKY FELL, alias Phelan, alias Finn, turned the green coupe in at the sign that said "Meals—Overnight Cabins—Home Cooking." This out-of-the-way tourist camp, deep in Canada's New Brunswick, looked like a natural for Rocky, wanted in a dozen states, with \$5,000 for the one who turned him in. Fat chance! They probably were still looking for a blue sedan with Illinois plates.

This number, for instance, came from Arizona. The old bird who owned it never would squawk. A guy was a sucker on a lonely road to offer a stranger a lift.

"You're a pal, mister," said Rocky. He stuck a gun in the old boy's ribs. "Drive down the side road and behave yourself and everything will be lovely." The man, his face grey-green, drove

down a narrow track and at the end was an abandoned quarry with lots of water. Rocky drove the coupe back alone. He had the money and passport. He was Phillip Sumter.

It was easy for Rocky to forget him and a dozen like him. He was looking forward to some home-cooking and a soft bed. He turned the corner of the drive and saw a white house with many gables—Robin's Nest. Sure looked comfy. Cabins here and there among the willows.

"Ok—air. A secret task taking to an old lady in this chicken on the steps. Rocky felt the gun under his armpit. Nothing to worry about."

When Rocky stopped the car, the old lady came briskly down. The Mountie went into the house. "Good day, sir. Welcome. I'm the proprietress—one of them. Miss Abby Stubbs. My sister Rachel and I run Robin's Nest. You'd like dinner, a cabin—"

"Sure," grinned Rocky. "Sure Miss Abby—I want the works. Chicken and hot biscuits and coffee—"

"Very good sir. Here's the key of No. 4, the cabin by the pond. Dinner will be ready when you are, Mr. Sumter."

"Sumter—P. H. Sumter." Rocky's gray eyes never left the smiling old blue ones.

"We're so glad to have you, Mr. Sumter. You have no idea," Miss Abby actually dimpled.

"Sweet," said Rocky. Just the same, after he had washed up he did not go directly to the front but strolled around to the rear.

"I SAW HIM first," Dear, Sweet I old Miss Abby's voice. "I spoke to him first. It's the money car—it's the one that pays."

"Abby Stubbs! I noticed first I saw I did. You never even got

"You're trying to cheat me."

him to register. That's what you were supposed to do—"

"You're trying to cheat me. I know you, Rachel!"

"We'll call it a tie. We'll split the money—" Harpies—both of them! Rocky straightened up.

"I have the proof," crowed Miss Abby. "I was talking to Corporal Renault. He stopped for dinner. I

told him, and he's waiting and when Mr. Sumter comes in—Well, I'm not going to wait; I'm going to get the corporal now."

That was why Rocky pulled the gun on Corporal Renault when they met at the corner of the house. "Not so easy, copper," Rocky snarled, and started at the two trembling old sisters behind the Mountie's broad back. "Those old dames can fight some more over the \$5,000 prize. I'm not caught yet. Damn you—"

That Mountie was a funny cop. He didn't look boyish any more, though he still was smiling. And he didn't back up. He kept right on coming. The gun roared but its muzzle was knocked up and a fist caught Rocky in the middle. He was still on the lawn when he came to and there was a familiar feel about his wrists. Bracelets.

"Well, it's a peach, I guess," said Rocky. "I—anyway, these old ladies will have to split the dough with you, copper."

Miss Abby and Miss Rachel," said the Mountie, "had a little pool. They put a dollar in it for every car with a different state license plate. They were up to 47 when you came in with Arizona. Arizona was Bingo. That's how Miss Abby came to be claiming the money—\$48. It seems there's a bit more coming."

Thomas A. Edison had a friend, Ernst E. Calkins, a well-known man, who, like the inventor, refused to let deafness become an affliction.

As one deaf man to another, Calkins once asked Edison: "Why is it that you, of all men, have not tried some electrical device for making hearing easier?"

"Too busy," the inventor replied. "A lot of time is wasted in listening."

And then, with a grin, he added: "If I had one of those things, my wife would want to talk to me all the time."

A Sinkful
"How long has your wife been away?" asked the barber, a bit wistfully.

"Oh, about two sets of dishes," replied the seasoned summer widower.

A Strapping Youth
John Smithers was explaining why he always got up for a lady standing in a bus. Said he:

"Ever since I was a kid I've had a lot of respect for a woman with a strap in her hand."

Problem in Finance
The absent-minded customer started out of the restaurant without paying his check and the sweet young thing at the cashier desk said: "Hey, Doc. Just how do you want to finance this?"

Dust Me Off!
Little Dickie's mother, trying to talk him into a bath, urged, "Surely you want to be a clean little boy, don't you?"

"Yes," tearfully agreed Dick, "but couldn't you just dust me?"

LAFF LINES

One Problem Unsolved
A BLONDE young lady swaged into the parlor of a local fortune teller to inquire into his future.
"You will," droned the mystic "very shortly meet a tall dark man who will sweep you off your feet. He will shower you with gifts and take you to breathtaking night spots and just the two of you will drink a toast to everlasting love!"
"Has he got a lot of money?" asked the girl excitedly.
"He is president of a large concern and heir to a million dollar estate!"
"Gosh," stammered the girl. "Now just tell me one more thing."
"What is it, dear?" asked the soothsayer, as he visualized many pieces of silver crossing his palm.
"How do I get rid of my husband and the three kids?"

TEAMWORK

Prospective Employer: "I can use a man with your personality, strength and leadership. I'd like to have you on my team."
Grad: "That sounds good, sir. What kind of business are you in?"
P. E.: "Borax business—I have a 20 mile team."

Season Has Started
It was a bright day, and Eddie was looking out of the classroom window longingly. The geography teacher wanted to get his attention.

"Eddie, where's Cleveland?" she asked.
"Cleveland's in New York today," came the prompt answer, "and Bob Feller's pitching."

A TREAT FOR PAT
Pat was determined to pass by his favorite tavern on his way home. As he approached, he became somewhat shaky but, steeling himself, he passed on.
Then after going about 50 yards, he turned and said to himself: "Well done, Pat, my boy. Come back and I'll treat you."

Current Guests
A woman guest, possessor of an electric iron, approached the clerk at a hotel.
"Have you AC or DC current here?" she asked.
"I'll find out," said the clerk. In a moment he was back, "Sorry, madam," he said, "but neither is registered."

Style Show
Husband (at television set): "What do you know, dear, it's Ladies' Day at the ball game."
Voice from the Kitchen: "I'll be right in—I want to see what they're wearing."

OUT OF CONTROL

Aunt Irma: "Albert, aren't you sometimes afraid you'll lose control of the car?"
Albert: "Constantly, Aunt Irma. I'm three installments behind already."

COLD WEATHER TIPS FOR DAIRYMEN

With cold weather approaching, many dairymen make the mistake of allowing milk to cool without the use of refrigeration, according to Bill Davis, County Agent. Milk and cream will not cool fast enough in the cold air. Plenty of cold water or an electric cooler must be used. During winter months cows spend more and more time in the barn. The addition of drinking cups will

help hold up production. Dairymen will do well to use plenty of phosphate on barn floors during the next few months. The use of phosphate will improve the manure and stretch bedding straw.

Clipping is always a good sanitary practice. Long hair on the udder, flanks and underline collect dirt and make udder preparation harder. Clipping saves 10% of time when preparing udders for milking.

His Growing Years

Lesson for January 16, 1949

DOUBTLESS God can do anything he wants to do. He could have sent Jesus to earth on a moon beam; he could have had him for the first 30 years of his life on a lonely peak in the Andes, far from any human dwelling; he could have sent him into the world full-grown, without ever having to go through the grind of growing and learning as the rest of us do. But God did not plan it that way. If the manhood of Jesus was to be real, and not a hollow facsimile, he had to come up the hard way. Angels do not grow, they just are; but human beings grow. The great difference between Jesus and ordinary mortals is not that they grow and he did not; the difference is that he grew straight.

Dr. Foreman

No 'Good Chance'

THE world around us makes its impression on us; it makes no impression on dolls. They go on smiling their built-in, painted-on smiles, but we have to learn through tears. And so did Jesus. The heavenly Father saw to it that his experiences were not always easy one. He was born in a stable, of parents who were very poor, living the first few years of his life as a displaced person in a foreign country, with a price on his baby head.

He grew up in a village "off the main line," among companions not one of whom ever became famous, working through long years at a simple and not too well-paid trade. During Jesus' first 30 years his neighbors never guessed that the most extraordinary person of history was living in their village.

We sometimes wish that we had an easier time of it, and that God had seen fit to cast our lot in some big city with a rich family, instead of where we are. We feel we could be better people if we "had a chance." Yet every reader of these lines has a far better chance than Jesus. It did not take perfect surroundings to shape a perfect life.

Holy Family

WE CALL Joseph and Mary and the rest the "Holy Family," but they were not known that way in Nazareth. They were just Joseph the carpenter, and his Mary. Then there were the boys and girls; Mark (6:3) tells the boys' names, but no one ever remembered to put down the sisters' names. Even then it was no small family. Jesus, as the oldest of seven, would have many responsibilities. After Joseph's death he would be the chief breadwinner. Seeing that the rent was paid, that there was grain in the house for Mary to grind into meal, finding money for clothes for seven growing children—this could not have been easy for Jesus the young carpenter.

They were not an easy family to live with, these boys and girls. When Jesus later began his work of teaching and healing, we hear that even his brothers did not believe in him. But in spite of the brothers, there was always Mary. Mother-like, she loved her first-born as no other could or did.

There are some who worship her as "Queen of Heaven," but it is enough for us to remember that she was queen of the home where Jesus the child grew to be Jesus the man. Not this side of heaven can we know how much we owe, as Christians, to this one woman, whose mind and spirit were woven into the thought and spirit of her Son.

Home Memories

INDEED, Jesus' whole boyhood was woven into his manhood. Among life's most precious memories are those of our growing years. Later on, we can see how Jesus' mind was bright with memories of home. The parables of the patched garment, of the heaven hidden in the meal, of the poor woman hunting with a lamp for her one lost coin, of the hungry neighbor at midnight, of the son who said "I go" but did not go—these and many others may well be echoes of Jesus' boyhood home. Deeper than these are Jesus' habits of prayer, his fondness for calling God "Father," his familiarity with Scripture even in death's agony—here surely are patterns learned in childhood's growing years.

Felled by a Cow

ONCE there was a girl who was very near-sighted and her boy friend eternally kidded her about it. So one night she planned to show him that she was not as near-sighted as he thought. Taking a needle from her sewing basket, she carefully stuck it in the huge pine tree standing next to the porch. That night as they were sitting on the porch swing she said, "Why, honey, isn't that a needle there in the tree?"

"Needle! What needle?" said he. "Just a minute, I'll get it for you," she replied. She rushed down the steps and tripped over a cow.

Financial Genius

"Stop wasting your time on that bum, Mabel. He hasn't had a job for months."

"Yeah, but he's got a system. It's all planned."

"Whadda ya mean, a system?"

"He's got it figured out so that his unemployment compensation will run right into his social security."

MAKES A DIFFERENCE

The mountain woman had come across the creek from her little cabin to tell a sympathetic neighbor about her man's goings-on. "He whupped me this mornin'," she complained.

The big-boned neighbor woman turned upon her indignantly. "Don't you never say he whupped you," she ordered. "Jes' say 'we hit'."

Use Some Brass

Harrison was proud of his golf game and had brought his mother-in-law along to watch him play with a friend.

"I'm particularly anxious to make a terrific drive just now," Harrison told his friend. "There's my mother-in-law over there, and I—"

"Don't be a fool," said his friend. "You'll never hit her at 200 yards."

Poor Alibi

Her (at prom)—"Wait right here for me, Bill, while I go powder my nose."

Her (three dances later)—"Been waiting long?"

Him—"No, but I've been looking all over for you to give you your compact."

Insomnia

"I feel tired. Haven't been sleeping well lately."

"Have you tried counting sheep?"

"Yep. But that just makes me mad. Things are so high these days, those sheep are 25 per cent cotton."

WINNING WORDS

Visitor: "How did your horse happen to win the race?"

Jockey: "Well, I just kept whispering in his ear. Roses are red, violets are blue; horses that lose are made into glue."

We are glad to report the sick folk of our neighborhood somewhat improved.

We were also very much encouraged Sunday to see so many out to Sunday school at Staffordsburg. It is a good way to start out the New Year. We hope each one will come back next Sunday and try to persuade your friends and neighbors to come with you. Remember, regular church services Sunday, both morning and evening, by our regular pastor, Rev. Wheary. We would like to see more of our church members present. All come and let's try to have a full house. All are welcome.

Mr. and Mrs. L. J. Rapp entertained several of their friends and neighbors Saturday evening.

Gilbert Damon, Wayne Riley and their girl friends motored to Greenup, Ohio, Sunday on a pleasure trip.

Misses Rose Mary Binder and Wavlyn Riley spent Saturday in Cincinnati.

In Caldwell county, 848 boys and girls are enrolled in 38 4-H clubs.

OLD 'CORN KINGS' LOSE TO MODERNS

The old corn kings who have been champions by following Dad's methods have been snowed under by contestants in the corn derby contest in Taylor county, stated the Farm Agent, C. V. Bryan. Less plowing, use of level land and treating the same as for tobacco have resulted in a 5 to 10 percent increase in production, he said.

Mrs. Ben Houchens of Barren county has installed electric equipment in her kitchen, a water system and a bathroom.

Open Letter From A Maytag Dutch Oven Range User

Florence, Kentucky
November 12, 1948

Wm. Hagedorn Maytag Service
856 Dixie Highway
Erlanger, Kentucky

Dear Mr. Hagedorn,

This is to inform you we are more than pleased with our Maytag Dutch Oven Stove.

Such items as saving in fuel, thoroughness in baking and easiness to keep clean, are all the manufacturer and dealer say their product represents.

All of our friends, neighbors and relatives who have seen our range, think it is the answer to the need of every kitchen. Once they used mine they would be convinced this is true.

I think one of the reasons that more people do not have a Maytag Dutch Oven in their homes could be, they don't see it every day among all the other types of stoves—side by side. Most folks buying a stove forget to take into consideration its looks, economy in operation, performance, durability and the convenience of having repair work done or obtaining parts through the services of a reliable local dealer.

Why couldn't people compare the most used piece of equipment in their home in the same light as they would in purchasing the home itself? Perhaps if they did this, their investment would be made where value is sure to be received and feel as we do about our Maytag Dutch Oven Range.

Yours sincerely,
Mrs. R. H. Surface

Dutch Oven Gas Range

Cooks either automatically, or as a conventional gas range. Also gives you the never-equalled flavor and excellence of famed Dutch Oven cooking

As a conventional range, you'll find many important modern improvements, such as the speedy, heat-focusing, gas-saving Spiral Flame burners. And you'll like the ease of cleaning; range top and burner bowls are stamped from one piece of gleaming white porcelain.

Large oven cooks automatically, or by usual methods. Dutch Oven method cooks a whole meal automatically, while you're away. Heavy insulation holds heat in—keeps kitchen cool. Only Maytag Dutch Oven Gas Range automatically turns off the gas and keeps right on cooking.

Home Furnishings Project Studied by Kenton Homemakers

"Selecting, wiring and remodeling lamps," was the subject of the demonstration presented to leaders of the Home Furnishings Project of the 21 home demonstration clubs of Kenton county, by Miss Vivian Currutt, Specialist in Home Furnishings of the College of Agriculture and Home Economics, Extension Service, University of Kentucky. Miss Currutt was assisted by Miss Zelma E. Byerly, Home Demonstration Agent. The demonstration was held at the Federal Building, Covington, on January 13th.

Miss Currutt told leaders that if fixtures and lamps are carefully chosen and effectively used, they not only provide better seeing conditions, but they also bring out the beauty in furnishings, enrich the color and pattern of fabrics and add much to the style of the rooms in which they are used.

Specifications for various types of lamps and where to use them was demonstrated.

New Haven PTA Sponsors Magic Show

On Tuesday night, Jan. 4th at 8 o'clock, the New Haven P. T. A. was again in regular session when the president, Mrs. Warren Miller, called the meeting to order. In spite of the inclement weather, some 15 members answered roll call.

After the reading of the minutes, reports and all old business had been dealt with, plans for completing the membership drive for the year were discussed. This drive is to culminate in an open house at New Haven on the night of Tuesday, February 1st. All parents and friends of the school are extended a most hearty invitation to visit the school, especially the room in which they are most vitally interested. Each teacher will be present in his or her room to welcome all visitors at the particular time.

It was voted to reward the room reporting the greatest number registered visitors with a book or books for its individual library.

Parents, let's make an effort on this special date, February 1st, to visit New Haven school and become a member of the P. T. A., the organization which is always promoting the growth, progress and development of our school and a more friendly relation between parents and teachers.

On Friday, January 28 at 8 o'clock the P. T. A. will sponsor a Magiclan show, something no one wants to miss. Plan to attend. Tickets will be on sale by the New Haven school children prior to the night of the 28th.—Pub. Chm.

Legion Teen-Age Activity Gets Started

Johnson-McElroy Post, No. 277, American Legion, held its regular meeting Monday night, Jan. 17th in the new Legion Home, and were honored with the presence of "Doc" Gilliland, Sixth District Commander. Mr. Gilliland gave a short talk on membership and urged that every eligible man in this area become a Legionnaire. He also paid the local Post a very fine compliment in saying it was one of the best in the Sixth District.

There were quite a few matters under discussion, but the teen-age club was one of the chief topics. The club will hold their first gathering in the Legion Home on Thursday night, January 20th. This will be the grand opening for the club and a good turnout is expected. The hours are from 7 to 10 p. m., so all the kids from thirteen through nineteen years are invited to attend. There will be a host and hostess from the Legion present at every meeting, to help plan the activities and act as chaperones. Parents are cordially invited to attend all of the functions and give suggestions on activities and entertainment to be held.

And another thing—don't forget the President's Ball to be held on Saturday, January 29th at the Legion Home. Tickets are going rapidly so if you plan to attend, be sure and get one soon, before they are all gone—only 100 are being sold. Dues are now payable for 1949, so if you haven't paid yours yet, see the Post Adjutant before you become delinquent.—Pub. Chm.

We stand on our own two feet

The Southern Railway is a self-supporting, pri-
vately-owned-and-operated mass transportation
system that pays all its costs of doing business out
of its own pocket.

We operate on our own steel highway, built and
maintained with our own dollars. Our taxes, like
your taxes, go to help support schools, hospitals,
police and fire departments... and to build and
maintain highways, airports and waterways.

We're glad to get along without a penny of sub-
sidy from the taxes that come out of your pocket.
Old-fashioned? Maybe. But it's a sound American
tradition that we like, and want to continue...
because we're convinced that it's best for America
that its industries, as well as its individuals, stand
on their own two feet.

No Greater Prophet

Lesson for January 23, 1949

"OF ALL the characters in history, which one do you admire most?" We know how Jesus answered that interested question.

He had a great array of personages from whom to make his selection.

But he took as the Great Man of all time, up to his own generation, no heroic figure from the past, no king, general, scholar or prophet. The greatest man, for Jesus—or at least one so great that he could think of none greater—was one of his own contemporaries, a cousin of his who was in jail at the time when Jesus said of him, "Among those born of women none is greater than John." Known to us as John the Baptist, that is, John the Baptizer, we seldom realize either his greatness or the close connection between his life and that of Jesus.

John of the Jordan

WE DO not know how much Jesus himself owed to John. We do know that John was the man who first called the public's attention to Jesus. John it was who gave some of Jesus' most important disciples their first training; John who introduced to Jesus, and turned over to him, some of his own followers. It may be significant too that Jesus' first preaching was identical with that of John (compare Matthew 3:2 and 4:17).

Some Christian scholars have gone so far as to suppose that it was John's preaching that stirred the young carpenter from Nazareth to leave his shop and begin his great work as teacher.

Whether this is so or not, we do know that it was the baptizing by John which led to the baptism of Jesus, and that Jesus' baptism was the turning-point between Jesus' private life and his short and stormy public career. It is quite clear that if there had been no John the Baptizer, the story of Jesus would have been very different from what it actually was.

Only a Voice

JOHN'S own picture of himself is not a picture at all. When they asked him to say what he was, and he expected him to declare that he was the Messiah, the long-looked-for King, John said only, "I am the voice of one crying in the wilderness."

John, so far as we know, never accepted glimmer invitations, he was never under the roof of any friend, and he had no roof of his own. People even called him demon-possessed, he was so far removed from ordinary life.

But Jesus was always in people's homes. That is one reason why the greatness of John fades before the greatness of Jesus, for a Voice makes a poor companion. Jesus had the human sympathy that John lacked, and John well knew this. "He must increase, but I must decrease," he said.

Repentance: Seed and Fruit

NEVERTHELESS the Voice spoke truth. John must have been a powerful preacher, for his meetings were held miles from the nearest town, so that to reach him from Jerusalem one would have to travel through wild country infested with bandits. Few modern preachers, without benefit of advertising, music or choir, without even a tent, would dare to start a revival meeting 15 rough miles out of town. But John did—and the people came in crowds. We do not have the full report of his preaching that we have of the preaching of Jesus, but we do know that he broke the hard crust of his listeners' conscience.

He made them see how unfit they were for the Kingdom of God for which they prayed; he broke down their pride till they went down to the Jordan and were baptized under the open sky, in public confession of their sins.

When men asked him, What shall we do? John did not have the fuller, higher message that Jesus later had. But he did make plain two things about the good life, the life that pleases God: it cannot even begin without repentance and confession of sin, but it does not end there. Repentance is not a simple grating milestone on life's way; it is a seed which if it is real will bear fruit.

EARLY ORDERING OF FERTILIZER ADVISED

Early ordering of farm fertilizers is suggested by the Agricultural Experiment Station at Lexington. While supply will be larger than in 1948, they still will be short, in comparison with the demand, it is stated.

Use of fertilizers has greatly increased in recent years. Kentucky farmers used 164,590 tons in 1940, and 586,000 tons in 1948.

A shift to the use of more higher analysis fertilizer is noted by the Experiment Station. One company operating in Kentucky no longer sells 3-9-6. "A decrease in the use of 3-9-6 and also 2-12-6 means cheaper plant food," says the station's statement.

"Stronger demand for higher analysis fertilizers would be a factor in increasing the proportion of these on the market. Early purchasers of fertilizer will be much more likely to get the grades they want, especially higher analysis grades, than will late purchasers."

A Carnation company plant recently opened at Glasgow gives the farmers of Barren and other counties a new milk market.

In a rat-killing campaign in Montgomery county, 510 pounds of poison bait were distributed to 480 families.

SHORT STORY

The Man For The Part

By STEPHEN CORBETT

I KNEW the moment that I saw him that he was the type. Just the man for the part of Steve the old hillbilly in the second act.

As he trudged the street toward me I noted with satisfaction his matted grey whiskers, long, untrimmed hair, and the look of defiant misery in his eyes. He was the part to the life.

The part had given me considerable difficulty in filling. You see the whole plot revolves around this Steve although he appears but a few minutes in the second act. Steve must be a very real person or the point of the play is lost. I'd turned down dozens of applicants, even Tommy Kingston, the best character man of them all. "I hated to refuse Kingston, on account of past associations. Besides he needed the work. But this last bit of casting was very important to the success of what I believed to be a sure-fire hit. Kingston had argued that the ludicrous use of make-up would supply me with a Steve that even the author would recognize. But I'd told him I was too old a hand not to know the limitations of grease paint. My man must be true to life.

I was sure I'd found him. When the old man was a few paces from me I said: "Pardon me, but would you like to earn some money?" He stopped and stared at me in amazement. For a moment he couldn't speak, then words tumbled from his lips in desperate, guttural tones.

"Yes," he said, "I want money. Work, any kind of work so long as it is honest. I'm strong, sir. I do not tire easily and if there—"

"This will require no muscular exertion," I interrupted. "I want you for a play I'm producing."

"A play?" he repeated, puzzled. "I believe you're just the man for one of the parts. My office is nearby. If you'll come with me I'll try you out."

He seemed nervous when we entered my office. I suppose his realization that the hopeless search for work might be over made him tremble that way. Reaction, psychologists term it. When he was seated in the big arm chair opposite my desk I gave him a drink, a rare concession. He gulped it down.

I THUMBED through the script and showed him the part he was to read. I'd expected to hear him go through it once, then to show him how to put more into it. But I found myself on the edge of my chair watching him intently. The man was living Steve, getting the utmost out of every phrase, giving each word its proper value.

He was just the type for the part of the old hillbilly.

He finished reading and turned to me, anxiously: "Did I—do all right?"

"All right! Man you were perfect. The part is yours," and I meant it.

The occasion called for a celebration. After weeks of searching hotels, park benches and flop houses I'd found Steve. We drank to his success.

There were contract forms handy on my desk. I filled in a few spaces till I came to "salary." "The part pays \$100 dollars a week," I told him. "Please sign here."

He hesitated. "Was this old fellow, half-starved, jobless, going to be difficult? He said, 'It is this way. This acting I do better than anyone else!'"

I nodded impatiently. "Then should I not get more than you would ordinarily pay?"

I was getting sore even though there was a kind of logic to his argument. "Good heavens, man, this is just a bit part. A hundred dollars is high pay for such."

He remained obstinate. Maintaining that an artist such as he should receive more than a lesser person. I regretted now the brandy I'd given him. Taken on an empty stomach it had undoubtedly gone to his head. He agreed to accept \$50. He signed and it occurred to me for the first time that I didn't know his name. I picked up his contract. Then I reached for the brandy bottle. I really needed it this time for the signature written in a familiar, round hand was "Thomas Kingston."

STRAWBERRIES MAY NEED WINTER MULCH
Any time the temperature reaches 10 degrees, with no snow on the ground, unmulched strawberries suffer damage, according to W. W. Magill of the College of Agriculture and Home Economics, University of Kentucky. Should the temperature go to 10 degrees below zero, damage may be severe, if there is no snow on the ground.

Application of straw at the rate of

a ton and a half to the acre is suggested by Mr. Magill. Distributed evenly over the patch, this thin layer of straw need not be removed in the spring. Left on, it conserves moisture, prevents the soil from washing, keeps down weed growth and helps to keep the berries clean.

Two hundred farm men and women in Wolfe county attended two meetings where poultry improvement was discussed.

It is thought that the 1949 tobacco crop will return approximately \$1,500,000 to Ballard county farmers.

Where vetch was turned under on eight farms in Hancock county, the farmers reported yield of more than 100 bushels of corn to the acre.

Henry county homemakers wired for electric use 20 kerosene lamps at a leaders training meeting.

In Spencer county, 25% of the corn was fertilized, bringing the county average yield to between 50 and 60 bushels an acre.

Eighteen entries in the Greenup corn derby averaged 96 bushels per acre, as compared with 89 bushels in 1947.

Small grain and winter legumes were planted on practically all the farms in Adair county.

Albert Blanton, a coal operator in Johnson county, has bought a farm and built a \$13,000 dairy barn and a house in the past two years.

Farmers in Carroll county are decreasing the cost of their feed by using a cooperative portable feed grinder.

Trimble county strawberry growers have placed an order for 160,000 plants, 100,000 being Tennessee Beauties.

Alfalfa which produced 4½ tons of hay an acre for Wm. Scoville of Laurel county is showing signs of "playing out."

CHEVROLET INTRODUCES NEW 1949 MODELS

Official Showing at Dixie Chevrolet Sales

A product of three years' development work and more than a million miles of engineering research, the 1949 Chevrolet goes on display in dealer showrooms here Saturday.

The latest model has been completely restyled. It is lower, wider and more distinctive than any previous series. Not only does the design introduce superior beauty to the lowest-priced ranks, but numerous body and chassis improvements promise to add to Chevrolet's reputation for comfort, safety and convenience.

In both styling and performance, the 1949 series continues the "big car" aspects that have always been traditional with Chevrolet. The design is fresh and substantial-looking without approaching the extreme. Greater comfort is reported demonstrable by "ruler and by ride." The rugged six-cylinder, valve-in-head engine remains fundamentally the same, but refinements will increase appreciably the car's handling ease and owner satisfaction.

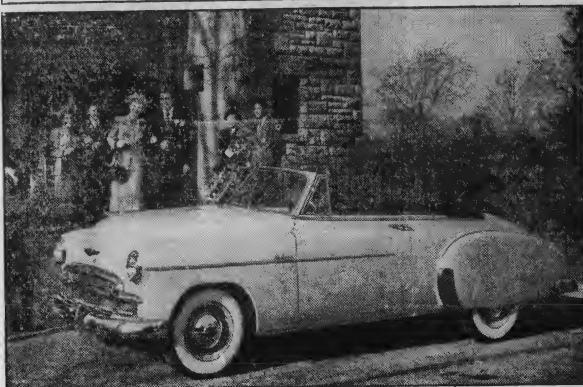

"In the engineering of our most important model in several years, we considered first the qualities that have consistently given Chevrolet the leadership in the industry," said a company statement. "We did not make changes simply for the sake of change. Every innovation through the chassis and body was exhaustively tested and proved. We exercised great care to assure ourselves that each department met Chevrolet standards."

The first impression of the new cars is one of smart styling, structural strength and generous dimensions. The entire passenger compartment has been moved forward, lengthened, broadened and lowered, affording a pleasing balance in proportions. Rearwardly the front fenders have been absorbed into the body, their vertical planes built flush with the doors. Crowns of the fenders have also been raised to fit more snugly into the hood and low, clean ensemble of the grille. To add grace and protect body surfaces a partial rear fender has been retained.

From the passenger's standpoint perhaps the chief improvement in bodies is the immense increase in glass area. All windows have been deepened and widened. The windshield takes full advantage of the broader bodies, curving inward at the narrow pillars to improve sideway as well as forward vision. On comparable models the gain in visibility over 1948 has been as much as 30 per cent.

Besides its influence on over-all balance in design, repositioning of the passenger compartment claims still other benefits. Rear seat passengers are now cradled in the comfort zone between the front and rear axles. (Formerly passengers rode over the rear axle). Lowering of the compartment has reduced the center of gravity of the car, resulting in greater stability on curves and at higher speeds. Further, the lowered floor and wider doors per-

Low, Sweeping Lines Enhance Beauty of New Convertible

In addition to sedans, station wagons and closed coupes, is most effective. An automatic top is but one of the many conveniences in the new car. Increased riding comfort through a new spring suspension also features the line.

mit easier entrance and exit by passenger.

Another important factor in better roadability is the adoption at the front and rear of direct double-acting shock absorbers, a type that proved itself in wartime service. Front suspension, which continues to feature the coil spring "Knee-Action" Chevrolet pioneered 15 years ago, has been made sturdier.

A new steering geometry will be found significant by drivers. The master arm is now located in the center of the chassis front end, equalizing the effort of right and left turns. This type of steering, available previously only in higher-priced cars, reduces "wheel fight," any tendency of the car to "wander" and adds to tire life.

The gearshift is new. Recent developments in shift linkage caused engineers to substitute the manual shift for the former vacuum-assisted mechanism. The lever remains on the steering column, but has been lengthened to equalize the effort of shifts.

Although the six-cylinder valve-in-head engine is basically unchanged, several refinements have enhanced smoothness and service accessibility. The carburetor is improved and contains a "fast-idle" device. The exhaust system has been "unitized" for improved sealing. A better hydraulic system and weight redistribution improves the braking. Wheels are smaller and carry low-pressure tires.

The atmosphere of luxury in the 1949 Chevrolet interiors has been heightened by simplified seat construction, new fabrics and tasteful moldings, panelling and trim. The hardware is shaped close to the doors to prevent snagging of garments. Ventipane handles have been eliminated by the adoption of push-pull window wings. New as-

well is the method of door latching. Exterior door handles are solid with the release and lock mechanism built into a thumb button which extends from the trunk of the handle.

Also notable is a new means of ventilation. With the cowl vent omitted, fresh air is now drawn into the passenger compartment through ducts located between the front fender skirts and the radiator. These ducts lead to tubes ending at the dash. Air is metered by butterfly

valves positioned by annually operated knobs on the instrument panel.

In addition to the ventilation controls, the driver will find unusual features. The steering wheel is thinner and somewhat lowered to supplement the safe vision made possible by larger windows. Dials are grouped in a circular cluster on the face of the jumbo speedometer. Starting is by a button on the instrument panel. A nearby knob

controls the windshield wiper, vacuum-powered and now especially designed to hug the curvature of the glass. The emergency brake is a straight pull lever mounted below the dash at the right of the steering column.

While all of the other details of the 1949 Chevrolet cannot be covered in a limited description, worthy of mention are: larger trunks and

equipped with automatic lock; rear compartment dome light doubled in candlepower; a concealed gasoline filler pipe, the tank now being located on the left hand side of the car; parking lamps built into the grille; a ball-bearing mounted front seat adjustment.

Reddy Kilowatt Steps Up to Meet the Public

An energetic young fellow, full of pep and personality, made his bow as an employee of Community Public Service Co., last week.

His name is Reddy Kilowatt and he makes his home in the hundreds of electric outlets in this community. He's the fellow who springs forth to do your bidding whenever you snap a switch or plug in an appliance. He is always on the job, he never tires and he has the patience to wait for days and nights behind your outlets, just in case you might need the smallest amount of service.

Of course, Reddy has been around all the time, but he made his first local appearance in this newspaper last week. You saw his stepping out from his electric outlet home and introducing himself in an advertisement of the Company. He is the symbol of electric service and you'll be seeing a lot of him in the local power company's advertising from now on.

Reddy Kilowatt is the brain child of A. B. Collins, former commercial manager of Alabama Power Co., who conceived him as a means of personalizing and visualizing the invisible kilowatt-hour. In putting Reddy on the payroll, Community is joining numerous other power companies in the U. S. and 14 foreign countries who are making use of his versatile services.

A homey little character, commonplace ppappp loppd place as an old shoe, Reddy Kilowatt talks in everyday language about everyday things. Not a fixed trademark always appearing in the same post, he moves, laughs, works, expresses emotion. His body purposefully takes the lightning flash form associated with electricity in everyone's mind. His nose is a light bulb, his ears are convenience outlets and he moves swiftly and works safely in his rubber gloves and rubber shoes. Although he is slender he is one-third stronger than a horse. (A kilowatt equals 1,000 watts; a horse-power, 746 watts).

He appears in any dress and in any situation. He can be a chef, a lineman, salesman, school teacher, factory worker, farmer or any other personality, but always he is Reddy Kilowatt, electric servant. Unfailingly cheerful and active, he is popular with grown-ups and children alike.

Reddy's chief job will be to give the kilowatt-hour a personality and to represent electricity as the tireless servant that it really is. His messages will be interesting and informative, designed to help local users get the maximum benefit from their electric service. So look for Reddy Kilowatt in this newspaper and elsewhere from now on. He's a willing and obedient servant—always ready at the snap of a switch!

REDDY, AT YOUR FINGERTIPS!

I'll work for you the whole day through
Toast your toast; cook, roast, or stew
Wash your clothes; and press them, too.
I'll beat, I'll clean; make ice for you.
I'll help in factories, stores and schools
And help the youngsters learn the rules
For farmers I've got lots of tricks
Like milking cows or hatching chicks.
And, Boss, I bet you're glad to know
I work long hours for wages low
So call me early; keep me late

In my REDDYBOX home I'll always wait.

Farm Drinking Water Should Be Tested

Free Service Is Offered

Samples of drinking water from approximately fifty cisterns and wells of Boone County were tested at the Public Service Laboratories last year. Reports sent from the laboratories at the Kentucky Agricultural Experiment Station, shows that about one-sixth of the samples were contaminated.

Water for domestic use should be from sources which have been shown by bacteriological examination to be pure and free from harmful or objectionable contamination. If forced to use water showing such contamination or from sources of unknown purity, then all water should be boiled or treated with chlorinated lime to render same harmless before use. In such cases rigid precautions should be taken to guard against the use of any raw or untreated water.

Contaminated water supplies may be rendered harmless by the following methods of treatment:

CISTERNS—The average size cistern may be treated by mixing chlorinated lime in a pail with sufficient water to form a thin paste; add with water and allow to stand until coarse particles have settled, then pour liquid into the cistern and allow to stand 24 hours before using. Use chlorinated lime at the rate of 1 oz. for each 5,000 gallons of water in the cistern, and repeat in a week or 10 days if a distinct odor of the powder to each 50-gallon barrel of water. Only clear water is suitable for such use. "Chloride of lime" is difficult to mix with water. A good method is to take the required amount, place in a quart Mason jar and fill two-thirds full with water. Screw on cover and shake violently for two or three minutes, then pour contents into barrel of water. Mix thoroughly and allow stand over night before use. Each day supply of water should be prepared the evening before it is intended for use. "Chloride of lime" is inexpensive and may be purchased from any drug store. Only fresh stock should be used, as it deteriorates with age.

Any one wanting to have their drinking water tested is urged to contact the Public Service Laboratories, Kentucky Agricultural Experiment Station, University of Kentucky, Lexington, for a water container, or the county extension office.

MISSIONARY MEETING

The Woman's Missionary Society of the Walton Christian Church will meet Thursday, Feb. 3 at Stephens Restaurant. A covered dish luncheon will be served at noon. Mrs. Robert Moore is program chairman.

If You Are For the Am. Legion--Join

All the strength the Legion and Auxiliary can possibly get together is going to be necessary to carry out the purpose of the organization during the coming year. These purposes have vital meaning to every individual veteran and veteran's family. If they fail to achieve their 1949 goal, the veterans and their families will be the ones to suffer.

Joining the Legion and Auxiliary is not just something to do, depending on how you feel at the moment. You can join and lend your strength to the organization or stay out and weaken the Legion in its fight against the things for or against the Legion stands today. That's the decision you make when you decide to join or not join the American Legion or Auxiliary. The American Legion and Auxiliary believe in stand for and are working for:

- (1) Adequate care and compensation for disabled veterans, widows, orphans and dependents;
- (2) Greater security from war by means of a really adequate defense program;
- (3) Protection of the freedom of the individual in America from the spreading wave of collectivist regimentation and police state rule which is sweeping so much of the world.

Are you for these things or against them? If you are eligible and for them, you should be in the Legion or Auxiliary and working for them. There is no time to be standing on the sidelines.

In your local Post or Auxiliary there is a place for you to work actively for the Legion's goals. Take that place and add strength to the Legion in this critical year.

Willing Workers to Meet

The Willing Workers Class of the Walton Christian Church will meet at the Phoenix Hotel this (Thursday) evening, with Mr. and Mrs. Louis Schwab acting as hosts. The hour is 7:00 p. m.

127 Fouls In Two Games

It seems the Bearcats have hit a "slide" or something. Since the first of the year they have played a half-dozen games, winning only two of them, and there's no soft spots in the schedule this time of year, so it appears the Blue and White are in for some more uncomfortable evenings, ere the season ends.

On Tuesday night of this week, the Cats were hosts to the Simon Kenton Pioneers and dropped a 50-38 decision to the visitors. Walton pulled out in front during the first period to lead 16-9. At the half, the count was knotted 22-22, and the game was a tie at the end of the 3rd quarter, 33-33. However, in the last period the Pioneers pulled away to win 50-38. Scoring honors went to Armstrong, who accounted for 13 tallies, with Coppage adding 11 to the cause. Maddox and Vest divided honors for Walton with 11 points each. It was a "foul" game, as no less than 62 personal fouls were called by the referees. In the preliminary game, Simon Kenton won 50-31.

Last Friday night on the Walton floor, the Cats lost an over-time contest to Hebron, 51-49, thus being the first set-back for the locals in the Boone County Conference. At the end of the first quarter, Walton led 12-10, and at the half were still in front, 26-22. Hebron took over in the third period, and led 34-32 at the end of the quarter. Mike Stryker made good one of a pair of free throws to knot the score at 45-43 at the game ended. A record of some sort must have been set, as the officials called 65 personal fouls during the contest. Vest was high man for the losers with 17 points. Hebron's attack was led by Carver, who scored 14 points, followed by McGlasson, with 11. Walton's second team won the preliminary contest, 23-14.

On January 14th, the Cats were on the long end of a 65-42 score, as they led all the way to defeat St. Henry. Quarter scores were 7-6, 22-15, 36-26 and 65-42. Vest had a field day for Walton, tossing through 23 points, followed by Maddox and Rice with 13 each. Welchmann with 17 tallies was best for the losers. St. Henry's reserves won the first game 39-32.

Dixie Heights' Little Colonels showed the Walton Cats, Wednesday 11th as they trampled them 60-40. Redwine topped all scorers with 27 points. Vest was high was Walton with 13. The Dixie reserves handed the Walton seconds a 38-22 shattering in the opener.

Cats Play at Florence, Friday

On Friday night of this week, the Cats go to Florence for a Boone County Conference tilt with the Knights, and it's hard to tell just what might happen.

Play at Newport, Feb. 1
The locals will have their work cut out for them February 1 when they go to Newport to battle the Wildcats.

'Yet Without Sin'

Lesson for January 30, 1949

YOU will never feel the current if you never swim upstream. If you are a drifter through life you can hardly know what the word "temptation" means. And Jesus was no drifter. If ever a powerful purpose, devotion to God, a noble mind and a pure heart could set a man free from all temptations, Jesus would have been that man. But he had his temptations all the same. After the great day of his baptism, when the Holy Spirit as plainly as a bird from the sky alighting on his shoulder, we are told that he was "full of the Holy Spirit." Surely no temptation could reach him now! Yet the spirit led him to the wilderness where Satan waited for him.

Dr. Foreman

The Devil Is Smart
SATAN is a persistent devil. He never takes no for an answer, he will be back again with the same temptation in another package. It was so with Jesus. We must not think that Jesus was tempted to low and ugly sins. People are tempted on the level where they live.

After the Baptism, if not before, he was fully awake to the fact that he was God's beloved Son, that it was his responsibility to begin the "Kingdom of God," he knew he had a position and a power that no one else on earth had ever had. The problem was: How should he use this position and this power?

Each of the three temptations in the wilderness had something to do with that problem. Two of the temptations, at least, were not to do anything wrong in itself. Each time Jesus was tempted to choose something less than the best. And choosing less than the best, when the best can be had, is sin.

There is nothing magical in a Scripture quotation. The point is not that Jesus had memorized these verses so that he could quote them; anybody could do that even without believing a word of them.

What Jesus did was to make those truths his own, they were part of his mind, actually his own convictions. Do you really want to rise proof against temptations? Do as Jesus did: make God's ideas your own. The sharpest lie will blunt itself against the keen edge of Truth.

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Reprinted by WNU Press.)

All Temptation Sounds Good

"TURN stones into bread," the tempter said. And why not? People were hungry all around; Jesus grew up in a land where most people were lucky to get one square meal a day, let alone three. Jesus would be the Divine leader of the Kingdom, the Founder of the New Age. Why not make it the Age of Plenty? Why not abolish hunger from the earth? It could be done, it sounds good.

So does that other temptation—"Throw yourself down, the angels will see that you are not hurt." Perhaps many worshippers of the Temple expected that the Messiah, God's King to be, would fly down out of a cloud.

Then that temptation which seems at first reading so ridiculous—fall down and worship Satan. It was not so ridiculous as it appears. What did Jesus want but to be King of Kings and Lord of Lords? What difference does it make how we attain our ambitions, if we only reach them? All other world-conquerors had achieved their pinnacles of power by "worshipping Satan," that is by using violence and trickery.

But Jesus, being full of the Holy Spirit, knew that not everything that sounds good, is good.

He saw clearly that not even he could bring in the Kingdom of God simply by feeding people, or astonishing them with aerial stunts, and still less by using those ancient methods of the world-conquerors, the tools of Satan, violence and lies.

Defense Weapon

JESUS met his great enemy and beat him down with a single weapon. Every time, Jesus comes out with a quotation from the Bible, incidentally always from Deuteronomy, evidently a favorite book with him. We have the same weapon at our disposal today, and more besides.

There is nothing magical in a Scripture quotation. The point is not that Jesus had memorized these verses so that he could quote them; anybody could do that even without believing a word of them.

What Jesus did was to make those truths his own, they were part of his mind, actually his own convictions. Do you really want to rise proof against temptations? Do as Jesus did: make God's ideas your own. The sharpest lie will blunt itself against the keen edge of Truth.

COST OF DRAINAGE PAID IN ONE YEAR

Two thousand and eight hundred feet of the laid on a 15-acre field paid for itself and returned a profit the first year to Z. A. Bowman of Jackson county. Last spring, Mr. Bowman with the aid of Farm Agt. K. C. Mills and Earl G. Welch, of the College of Agriculture and Home Economics, University of Kentucky, laid the tile. Then the field was planted to corn. The crop yielded 75 bushels to the acre where corn wouldn't grow before, said Bowman.

Roy Guess of Crittenden county has ordered 2,500 locust seedlings for planting in March.

**WHEAT COVER HELPS
CHECK SOIL EROSION**

Erosion losses from land in winter wheat are only about a quarter as much as on the same land standing over winter in corn stubble, according to Lyle B. Leonard of the College of Agriculture and Home Economics, University of Kentucky. An Ohio report stated that corn stubble land lost nearly 10 tons of soil an acre each winter, while fields in wheat lost only 2.4 tons.

Cornstalks left on land help to protect it, Leonard said, especially if they are rolled or disked down. A cornstalk mulch will not only save soil but also rainfall, by keeping the soil from completely sealing, he added.

The Henderson Settlement school at Frakes, Bell county, has started a herd of purebred Brown Swiss cattle.

**SHORT STORY
Tale
Of A Mouse
By
M. J. COLLINS**

STAN JACKSON owned the service station beside the pine grove a few miles outside the town. It was a good location and Stan made a fair living. He was a happy-go-lucky sort and everyone liked him, but he had one great fault. He loved to talk. Once he got started it was hard to head him off. Mice were his pet subject at that moment, and he claimed if everyone started to catch them systematically, the country would be saved a million every year.

This was Saturday and he'd been busy all day, and so had the cash register.

"What's going on now?" Highway Patrolman Clancy asked as he stepped in. Stan looked up the corner where he was bent over fixing something. "I'm trying to catch a mouse," he answered, "and having a time of it, too."

"Trying to save a million dollars, I'll bet," Clancy laughed. "Listen, Stan," Clancy turned serious. "There've been a lot of service stations robbed lately. Don't leave too much cash around."

"Oh, they'd never bother with a place like this," Stan's mind wasn't on Clancy's warning. "Now if I could only catch that mouse," Clancy fled.

The next few hours were busy ones for Stan. The farmers, in town for the evening, were his main customers, but now they were gone and he could close.

Hardly had he settled down when there was a "snap."

"Ah," he cried. "I've got you this time!" Jumping to his feet, he rushed back to the corner. He pushed the box aside, but the mouse was gone, and so was the cheese. Perplexed, Stan scratched his head. "This mouse had put it over him for almost a week."

"I'll get you yet!" he muttered shaking a fist.

THE CAR grinding to a stop woke him up. Hardly before he was out of the chair, the door opened and a man stepped in.

"Good evening," Stan said. The man looked hard and grim. "Stand where you are!" The voice sent chills up and down Stan's spine. "Put up your hands."

An automatic's snout was pointed where Stan had always considered his heart was. Right now it was pounding in his mouth. His hands shot up with all possible speed. A flashy girl came in and stood beside the man.

"Wise guy," the man sneered. "Yeah, wise guy," the girl said. Stan's eyes stole toward the cash register. There was almost \$200 in it.

If Clancy were only here. Stan's ears were straining for the sound of the motorcycle.

"Here," the man said curtly, "hold the gun on him." She took

The man looked hard and grim. It while he emptied the register. The sight of his vanishing money made Stan see red.

"Don't try it, esp!" the woman said coldly, motioning him back. A pair of small, beady eyes stared out of a hole in the wall. The mouse started to run across the floor. The girl screamed and, dropping the gun, scrambled up on a chair.

Cursing, the man turned. All the fury in Stan's fist crashed into his face. He went crashing into the wall and slumped.

In the excitement the sound of the motorcycle had gone unnoticed. Clancy stepped inside, surveyed the scene and quietly asked, "What goes on?"

Stan sighed with relief. "You're just in time."

"I think so," Clancy said, dryly, taking the gun out of the shaking hand. "This might go off and damage someone... even you."

After the two had been taken away, Stan served Clancy coffee in the rear. Clancy asked, "How did you get the drop on them?"

"Well," Stan replied, "he handed the gun to the girl. Me-oh, wait!" he cried, rubbing his front. In a few seconds he was back. "Look at this," he cried, holding up the trap. The mouse was pinned by the tail.

"Ah! Success!" Clancy chuckled. "The mouse proved my argument," Stan beamed. "It saved the country \$200."

Named State Vice President Of Homemakers.

Mrs. R. P. Matchett of Lakeside Park, was elected vice president of the Kentucky Federation of Homemakers at the annual meeting of the Federation held in connection with Farm and Home Week at the University of Kentucky, Lexington, January 24-28. Mrs. Matchett will serve two years.

A style revue, directed by Mrs. Louise Huston, New York stylist, and news of equipment was given by Miss Ida Hagman, UK home management specialist, were other features on the program.

Vet Farm Training

The field meeting or on the farm group meetings as it is called in the institutional on farm training for veterans, is an important part of the overall program. These group meetings are held once each month for about ten months of the year. All the veterans do not, however, attend the same field meeting, because the various members have different interests, and it is necessary in most instances to hold two or more meetings each month. In doing this, the veteran selects the meeting he is most interested in. These on farm group meetings are carried out with the aid of the several agricultural agencies in the county. The Soil Conservation Service, and Extension Service have

been a great aid in this work. Outstanding local farmers have also aided in this work. Our own department of vocational agriculture promotes this training also.

The accompanying pictures serve to illustrate the variety of agriculture. Reading from right to left (top row)—Importance of good seed bed, contouring, poultry culling and housing are studied; (second row)—Types of hybrid corn (vets plant 100% hybrid), time out during a meeting, and testing watermelons; (bottom row)—Soil testing (each field on this veteran's farm was tested), dairy feeding, management and breeding studied on the farm of Robert Youell.

Kenton Co. Garden Club Entertained

The Kenton County Garden Club was entertained recently in the home of Mrs. Willard Shropshire of Independence. The hostess was ably assisted by Mrs. W. R. Brown, her mother, Mrs. Mary Taul of Winchester, Ky., and Mrs. Hubert Bald.

The highlight of the meeting was a talk and exhibition of antique enamels, with special emphasis on Russian handwork. This was given by Mr. David Aronoff of the Aronoff Galleries, assisted by Mrs. Aronoff.

A delicious luncheon was served to the following members and guests: Mrs. Bruce Allen, Mrs. John Bishop, Mrs. John Butler, Mrs. William Damon, Mrs. L. M. Gabriel, Mrs. Iva Hume, Mrs. Malcolm Oliver, Mrs. H. L. Pitcher, Mrs. Spurgeon Rich, Mrs. John Shaw, Mrs. Howard Stephens, Mrs. Haden Ware, Mrs. Orle Ware, Mrs. Lloyd Watson, Mrs. O. J. Williams, Mrs. George Palmer, Mrs. Daisy Richardson, and Mrs. E. J. Holladay.

Bearcats Lose To Newport; Whip Knights

The Walton-Verona Bearcat basketballers went to Florence last Friday night for a Boone County Conference game and had to come from behind in the final quarter to win the fray 44-41. The Knights held at 13-10 at the first quarter, 21-16 at the half, and 34-30 at the end of the third period. Dike Vest led the Walton offensive with 18 points, and John Maddox added 13. Rowland was top man for Florence with 14 points.

The Walton-Verona reserves won the preliminary game 28-25.

The Cats tackled a Wildcat in the latter's lair Tuesday night, and but for a bad start, might have come out on top. The locals played Newport and the first quarter proved fatal as the home team led, at the end of eight minutes of play, 16-3. For the rest of the game, Walton outplayed their foe, but could not overcome the first-frame disadvantage. Newport led 29-19 at the half and 33-28 at the close of the third quarter. High scorer for the evening was Dike Vest, who bagged 16 points, and Maddox added 12 to the losers' cause.

Newport also won the prelim contest, 33-22.

Burlington comes to Walton for a Conference tilt Friday night, Feb. 4th, and the preliminary game will start at 7:30 p. m. A win for the locals would clinch the Boone County Conference crown.

This May Be Your Last Paper!

The Postal laws are very strict in regard to having our mailing list "paid-in-advance," so we must warn any who have an expiration date of 1948 that they may not get their paper some of these weeks and it won't be because we want to take them off either. We also want to take this opportunity to thank the hundreds who have paid their subscription the past few weeks. If you have paid recently, look up at the top and see if we have credited your time properly. If you haven't paid, you had also better take a look. Thanks!

SEEDMEN SINCE 1863

This is a diesel ... a modern locomotive that means better service to you.
Leaders of two unions think it's a feather-bed ... a "make-work" program that means less service to you.

• Leaders of unions representing railroad engineers and firemen seek to force railroads to add extra, needless men on diesel locomotives. This is sheer waste—a "make-work" program which would mean fewer improvements and higher costs—for YOU!

Railroads use modern diesel locomotives because they are one of the means of giving faster, better service to you.

Two men compose the crew of a diesel. They occupy a clean, comfortable cab at the front. The engineer handles the throttle. The fireman sits and watches the track ahead. With no coal to shovel, he has practically nothing else to do.

No Benefit To You

Now the leaders of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen want to use the diesel locomotive as a means of forcing a feather-bedding scheme on the railroads. The extra men they propose to add to the diesel crews are not needed. There is no work for them.

The union leaders are fighting among themselves about which union should furnish these extra, needless men. The Brotherhood of Locomotive Engineers have even threatened a strike. You may not be interested in this dispute of these two unions, but you would be vitally concerned if these groups succeed in putting through this feather-bedding scheme, because it would mean a slowing up of the improvement program of the railroads—of which the diesel is the outstanding symbol. Diesel crews are among the highest paid

railroad employees—real aristocrats of labor! Their pay is high by any standard. Granting of these demands, therefore, would mean that the railroads would be paying out millions in unearned wages to those in the very highest pay brackets.

We'd Like To Spend This Money On You

You know how much the diesel has meant to you in increased speed, comfort and convenience. The railroads have many more of them on order for even greater improvement in service to you. But needless drains of money, such as this present demand of the unions for needless men on diesels, reduce the ability of the railroads to spend money on better service for you.

Proud as the railroads are of the diesel, it is only a small part of their improvement program. Since the War, literally billions of dollars have been spent on improvement of

tracks and stations, on new passenger and freight cars, as well as on diesel locomotives, and on the many other less conspicuous details of railroading that contribute to improved service.

Feather-Bedding Means Less Service To You But brazen feather-bedding schemes like the one now proposed would, if successful, divert large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their operation prohibitive. These demands are against YOUR interests—as well as those of the railroads. They are schemes to "make work". Neither you nor the railroads should be forced to pay such a penalty for progress.

That's why the railroads are resisting these "make-work" demands to the last ditch—and why they are telling you about them.

Teaching Religion
Lesson for February 6, 1949

SOME PEOPLE, strange to say, don't believe in Sunday schools. Most North American Protestants do, because Jesus did. The word may not be found in the New Testament, but the thing is there. If Jesus did not believe that religion could be taught, then he was guilty of wasting much of his time, for he worked at teaching in season and out of season. He was a product of the Sunday school, in a sense. During his childhood he would go to the synagogue school week days and especially on Sabbaths; we know that by the time he was grown it was his "custom" to attend synagogue services.

And in every Jewish community the synagogue was the place where for two hundred years and more, children and youth and older people had been taught the Word of God.

If Christians today are faithful to Christ's example, we also will keep at the job of teaching our religion to every child within our reach.

Body and Soul
READERS of the gospels will note that when Jesus went home from the synagogue on the Sabbath, his day's work was not done. He would spend hours, sometimes till far into the night, healing people brought to him for cure. Jesus ministered to mind and soul. Jesus was interested in personalities, whole people, not half-people. Our minds have to be fed, but we live in bodies, and bodies have no little to do with personalities. Jesus was not content with teaching sick people; he made sick people well. So the church today, if it is faithful to Christ's principles, will consider people as complete personalities.

The Common People
WE FIND that Jesus did not insist on university audiences. Indeed, he never spoke to a university audience. There were great universities in those days, but it was not necessary for any one to be a graduate of one of them in order to enter Jesus' school, or to understand what he taught. He taught the plain people plainly. Again the church of today takes a leaf out of Jesus' book. Most of our Sunday schools, for instance, have graded lessons; the little tots do not study from the same quarterlies the grown people use.

In all our teachings we try to use the pupils' language and to put our Christian ideas in the thoughts that the pupils can understand.

At the best seminaries, young ministers-to-be are carefully taught how to put the best Christian doctrines in ways that the simplest over people's heads is not teaching.

God and Education
JESUS did not try to teach people carpentry, or arithmetic, or geography. No doubt he could have done so. But he had something more important on his mind, something which he should teach. He taught religion, or in other words he taught the truth about God, and about man, and about right relations between God and man. So the teaching church, whether in the Sunday school or in the books written by its scholars or in its schools and colleges, when it follows Christ's example, is always teaching religion first and foremost. We do not believe that religion is a secondary issue, something you can "take or leave."

Religion On Two Feet
JESUS did more than talk. He lived. His whole life and character were saying more loudly and plainly what his words said.

So the Christian church today, when it is faithful to Christ, must translate into actual living the faith she teaches in Sunday school lessons, in catechisms and books and sermons.

What we do, as Christians, speaks louder than what we say. Every Sunday school teacher needs to remember that what is said on Sunday is important, but what the teacher does on Monday is more impressive by far. The reason why Jesus was more effective than John the Baptist was that John, after all, was a Voice, while Jesus was a Friend.

STAFFORDSBURG

The biggest news this week is the first real snow of the season. It surely looks beautiful, so soft and white and is a real blessing to the crops and fields. It is a sign too of the purity which can fill our lives, when we yield to the power of Christ in cleansing us.

We are glad to report that Chas. Losey is somewhat improved.

We had a good number out to both Sunday School and preaching services but hope everyone will get used to the cold weather and be out next week. The offering of \$20 goes to the Orphans Home.

The Homemakers Club was very well represented at the Farm-Home Convention, though we had no voting delegate. Among those who attended were Mrs. L. J. Rapp, Mrs. Denver Binder, Mrs. Blanche Rich, Mr. and Mrs. George Klein, Joe Richardson, Lyburn Richardson and Donald Keeney.

on Tuesday of this week with Mrs. Lee Faulkner.

Mrs. T. Borkers who has been ill much of the winter is improved and looking forward to better weather when she may be able to get out to church services once again. When one has been faithful for so long, they are greatly missed by everyone.

Come to Sunday School. Our new rooms are nearing completion. Let us work to increase our numbers.

Piner Homemakers

Mrs. Malcolm Oliver was hostess to the Piner Homemakers Club in her home at Piner, January 26, with Mrs. Chester Mullins as co-hostess. In the absence of the president, the meeting was called to order by Mrs. W. C. Woods, vice president. Roll call was answered by each member telling a personal problem. The treasurer's report was given, and a report of the Advisory Council meeting, by Mrs. W. R. Brown. A lecture on Fire Prevention was given by the citizenship chairman, Mrs. W. C. Woods. A lesson on Wiring Kerosene Lamps was given by Mrs. Chester Mullins and Mrs. W. C. Woods. A reading on farm entrances and naming of farm or home was given by Mrs. C. C. Gross.

SHORT STORY

The Master Mind

By
G. K. Heintzman

SAM SHAPIRO was down to his last two bits. As he walked away from the poolhall he tilted his hat down over one eye and muttered unkind words about all poolplayers and their descendants down to the third generation. Into Sam's fertile mind came the 64-dollar question: How was he going to hoist the two bits into a decent roll?

Sam didn't know exactly. Yet somehow he had always managed to stay in the dough, right from the days when he used to shoot marbles with the boys until later in life when he graduated to the poolroom. Sam attributed his success to his great ideas. He also held the firm opinion that everything in this world was a racket.

Sam pushed up his hat and scratched his noggin. Idea No. 1 was to drop over to Joe's lunch room and meditate on ways and means. Idea No. 2 was to put whatever he ate on the cuff.

Sam smiled. He took the quarter from his pocket and began flipping it in the air. Just as he passed the Banker's Trust building he missed a catch and the coin fell. Before he could recover it a strange hand darted out from one side and picked it up. Sam turned quickly and saw a pleasant-faced beggar with a tin cup, sitting on the bank steps. "You missed the cup, sir," the beggar said smilingly, "but I don't mind reaching—not for a quarter."

SAM'S EYES popped. He stared at the quarter. Only a fool would try to snatch two-bits from a beggar's tin cup on a busy street. He wished it was dark.

Sam scratched his noggin but all was quiet. The beggar's cheery voice spoke again. "You seem to be thinking, son," he said. "Will you tell me your name?"

"Sam Shapiro," Sam shopped. He hadn't thought of an angle on how to get his quarter back. He was mad.

"Sam Shapiro is a nice name." There was a strange quality about the beggar's voice. But Sam was not one to appraise matters like that. He even failed to notice that the beggar had produced a check book and fountain pen and had started to write. He tore off a check made out to Sam Shapiro \$100. He handed it to Sam. "Don't ask me the reason, son," he said. "Just walk into the bank and cash it. It's good."

Sam took a squint at the check and his eye riveted on the signature. He saw idea no. 3 right there in that signature. Everybody knew that E. Wilson Dodds was presi-

dent of Banker's Trust. And already Sam could see Mr. Dodds' face when he informed him that a screwball beggar was outside handing out checks with Mr. Dodds' signature. It should be good for a five-spot at least.

INSIDE the bank, Sam stepped up to a cage marked "Paying Teller" and held out the check significantly. "I'd like to see Mr. Dodds about this."

Mr. Dodds is out," said the teller. He took the check with a courteous smile. "It won't be necessary to see Mr. Dodds about this," he said. "If you can identify yourself I'll cash it for you."

Sam gasped. He couldn't figure out the game. Nevertheless they weren't going to catch him napping. "I'm not trying to cash this check, pal," he said. "I'm only trying to inform you that there is a screwball outside writing checks with Mr. Dodds' signature on them."

The teller laughed out loud. "It's quite all right, sir. That was Mr. Dodds! He often wondered if there was such a thing as charity in this modern world. So today he put on that disguise and decided to give \$100 to the first 10 people to have pity on him. . . . And let me congratulate you, sir. You are the first person to cash a check."

MAKES LAND GROW

TON-AN-ACRE LEAF

When Sam Tuttle of Estill county in 1938 produced only 735 pounds of tobacco on one acre of the 145-acre farm he had just bought, it seemed a long way to the ton-to-the-acre class. Yet 10 years later he reached that goal and, in addition, has one

of the best pasture and hay crops in his community. Farm Agent Fred Brackman tells how he did it:

Deciding to use another plot for tobacco, Mr. Tuttle selected a level piece of ground and planted soybeans. In August, when he turned that crop under, it had made less than 10 inches of growth. He then spread two tons of lime and 1,000 pounds of phosphate per acre and seeded vetch and wheat. In the spring, five tons of manure were applied and the land put in tobacco. It produced only 700 pounds to the acre.

Undaunted, Mr. Tuttle each year used more manure, turned under cover crops and applied about 1,000 pounds of complete fertilizer an acre. In 1948 he became a member of the ton-to-the-acre club. He is using a similar program of building up the soil on the rest of his farm.

Uncle Sam Says

Ten years can make a big difference. That youngster, now in pigtails, will be grown up and ready for college in 10 years. Or you may be ready to tackle that pet project of yours, a new home, retirement, or starting a small business. Yes, 10 years can make a difference in many things. Money, for instance. If you go about it right you can make today's money grow right along with those plans for the future. Figure, today, how much you'll need in 10 years. Then put aside the amount in U. S. Savings Bonds each week, enough to equal the total you have in mind, always remembering that for every three dollars you invest today, you will receive four dollars in 10 years. If you are on a payroll, join the Payroll Savings Plan where you work. If you are self-employed, enroll for the Bond-a-Month Plan at your own bank.

Safety First

An officer approached a drunk who was trying to get the key into his car door lock. "Look here," he said, "you don't mean to tell me that you intend to drive that car?" "Sure," replied the drunk. "Can't you see I'm in no condition to walk!"

Cooperation

"Every Sunday you go fishing," she complained, "and you know I don't like fish." "Well," said he, "I catch as few as possible, don't I?"

FORGOTTEN MALE

"Gerald and his wife have separated, and all over a letter she found in his pocket." "Forgot to mail it, I suppose?" "No—forgot to burn it."

Heavy Drinker

"And is the prince incognito?" asked the reporter, referring to a titled guest. "Well, no, sir," replied the hotel porter. "I don't know as I'd say that. But he's certainly had a few."

They Both Chatter

Son: "What's the difference between a gun and a machine gun?" Dad: "The same as if I said something and your mother replied, my boy."

Special Delivery

A church woman approached a Scotsman and said: "Won't you give me sixpence for the Lord?" "How old are ye, lassie?" he asked.

"I'm 23," she replied. "Well, I'm nearly 73 and it's verra likely I'll see the Lord afore ye, so I'll give it tae Him myself."

FARMERS CAUTIONED TO STUDY FEED TAGS

A statement by the Kentucky Agricultural Experiment Station at Lexington cautions farmers to examine tags on feeds, particularly 16 percent dairy feeds.

Through its feed control program the Experiment Station said it was doing everything possible to protect farmers and honest manufacturers. When a feed is found improperly labeled, it is insisted that a correct label be used or the feed removed from sale. The statement continues:

"Most inferior ingredients and 'filler' material require that the yellow tag be attached to such feed. Such ingredients as oat hulls, flax by-product, ground screenings refuse, stem meals, cottonseed hulls and similar materials should be labeled. A yellow tag feed designates a feed that is made up in part of materials of little or no feeding value.

"If a farmer considers price alone he may find himself with one of these yellow tag feeds, or examination will reveal that he has a white tag feed that should have carried a yellow tag. The price of these feeds is usually well under the price of better feeds. Yellow tag feeds may contain up to 25 pounds of filler materials which cannot compare with the feeding value of the remaining 75 pounds in the bag. In the long run farmers will get more for their money by sticking to feeds that do not contain these cheap ingredients, even though the cost of better feeds is higher.

IT PAYS TO SHOP AT CONRAD'S HARDWARE WALTON, KY.

"Study the tag on the bag. Select feeds made up of ingredients known to have good feeding value. It will also pay to do business with a company having a good record for meeting tag guarantees. Study the reports released quarterly, giving the results of feed analysis. Copies are available through county agents or may be had by writing to the Experiment Station at Lexington."

For the past three years, John Hendricks of Breckinridge county averaged 2,442 pounds of tobacco per acre on 2.4 acres, income per acre averaging \$1,073.90. Approximately 200 beef calves have been bought by Christian county 4-H club members for feeding projects.

For the third successive year, the Louellen 4-H Club in Harlan county was named the outstanding club in the county.

Will You Support Your American Legion Post?

Johnson-McElroy Post, 277, American Legion held their regular meeting at their home on Beaver Road, Monday night, Feb. 7th, with 27 members and three visitors from our neighboring post in Ludlow, present. Many questions as to current events were brought before the members and were, after discussion, either passed or rejected. However, the question uppermost in the minds of all present was that of the Teen-Age Canteen, currently being sponsored by the American Legion. Some of the citizens of "Our Town" already know the facts about the question, some are in doubt and others are not interested enough in the "younger generation" to care about them or what happens to them. Members of the Legion are definitely interested in these future citizens and want to see that they are helped along the right path to become those excellent future citizens—grocers, lawyers, doctors, carpenters, etc.

The first of our ideas to promote a step in this direction was the formation of a Teen-Age Canteen, with the help of teachers in our school of a Teen-Age Canteen. This Teen-Age Canteen is governed solely by officers elected by the teen-agers themselves. They have endeavored to set up their own by-laws, rules and conditions for meeting and forming their club. This was talked over with representatives of the Legion, the school and members of the club. The Legion is to give the teen-agers the use of our Home one night a week for their activities. All this went very well with EVERYONE for awhile, until we made our application for retail beverage license. Your Legion Post here in town is up to its neck in debt, as you all should have a fair idea. To get out of debt, we are not going to start a "roadhouse," "joint" or what-have-you. That building is a LEGION HOME. However, we will have to have dances,

Homemakers Stress Church Attendance

The citizenship committee of the Boone County Homemakers met recently and adopted goals for the year.

The committee stressed the importance of testing all drinking water, also recommended that all homemakers become better acquainted with their county needs and conditions and that more road markers and traffic signs be erected in the county.

All homemakers should make known to all, the opportunities for improving and maintaining health, such as: Clinics, Mobile Units, Blood Banks, Safe Water Supply, Home Produced Food Supply, and Better Sanitation.

The committee recommended that the members should realize the importance of religious training and recreation in the home, and that every member start church attendance in February.—Pub. Chm.

Dorcas Class Meets

The Dorcas Class of the Baptist Sunday School met at the church Thursday, Feb. 3rd, and after a social hour and covered dish luncheon the members assembled for business and program.

Mrs. Julia Pennington, program leader, won the help of Mrs. Norman, Mrs. Soden, Mrs. Cook, Mrs. Jones, Mrs. Garrett, Mrs. Myers, Mrs. Conrad, Mrs. Knox and Miss Mollie Chapman, presented an excellent program on the topic, "The Church." Mrs. Pennington then conducted an interesting Bible quiz. The meeting closed with the singing of a hymn and a prayer of dismissal.

In addition to members mentioned above, Anna Johnson, Sara Sleat, Blanche Franks and Relda Powers were also present. We wish all members could avail themselves of the opportunity of attending these monthly meetings and visitors are gladly welcomed. So come!—Pub. Chm.

Homemakers to Meet

The Walton Homemakers' Club will meet Friday, Feb. 11th at the Rouse Apartment for their regular monthly meeting, at 11:00 a. m. All members are requested to attend. A covered dish luncheon will be served at noon.

parties, socials and other activity in order to, some day, pay off our debt and really be able to call it our own. This retail beverage license will give us the right to sell beer. It does NOT mean we will want to sell beer to the teen-agers. Anyone who would like to read the minutes of our regular meeting, the Teen-Age Canteen, and find for themselves that it stipulates in the minutes that there will not even be any beer on ice the evening the teen-agers are to use the hall. Further than that, we have gone even so far as to exclude members of our own post from being in their building that night, other than the couple acting as chaperones, and one member who will serve the teen-agers their soft drinks and take proper care of the building.

We of the Legion think we are doing the right thing in giving the teen-agers the opportunity we have offered them. Anyone interested is cordially invited to attend the night the "kids" own the home. We would appreciate your coming, because it would prove to us and to the teen-agers that you are really interested in their betterment. We are always open to constructive criticism and really appreciate anything anyone has to offer.

Next Monday night, Feb. 14th, our City Council will pass on whether we will get our license or not. If you will "Support Your American Legion Post," you will voice your opinion by being present. Your American Legion Post is trying awfully hard to become an asset to our community, NOT A LIABILITY. It is made up of old and young men alike, men who have served you before and will serve you again if the need arises. SUPPORT THEM NOW, you have done it before.

Help the American Heart Association all you can.—Pub. Chm.

District Basketball Tourney To Be Held at Simon Kenton High School, March 1, 2, 3, 4, 5

Piner P. T. A. Meets

The Piner P. T. A. held its regular January meeting with Mrs. Woodie Worthington presiding. After a short business session, the program was presented by the students of the school, which consisted of popular songs by three sixth grade girls and Willard Benson and Barbara Benson singing two songs, accompanied by the guitar.

In the program, the losing side in the membership drive entertained the winners with home made cake and ice cream and fruit punch. Everyone enjoyed a very good time. At this time we have 95 members enrolled in our P. T. A.

The next meeting is to be held Thursday evening, February 17th. A basketball game will be played between the sixth grade at Piner and the seventh grade at Simon Kenton, who were in Piner last year. Be sure and come and support your school.—Pub. Chm.

Mrs. Roberts Entertains Homemakers

The Verona Homemakers' Club met at the home of Mrs. J. T. Roberts, February 4th, with fifteen members present.

Mrs. Mayo Hayden presided at the business session in the morning. After standing committee reports, Miss Mary Hood Gillaspie made some important announcements and gave an interesting review on Spring style trends.

Hayden gave only a part of a very entertaining and instructive report of her visit to Farm and Home Week in Lexington, last week. She will continue her report at March meeting.

A delightful luncheon was served at noon, with the hostess' artistic ability much in evidence in her beautifully decorated table, with decorated Valentine cake, hearts, etc.

In the afternoon, a lesson on transferring patterns to burlap material for making hooked rugs, was nicely given by Mrs. I. A. Harris and Mrs. Stanley Fooks.

The club will meet with Mrs. Stanley Fooks on March 4th for the next regular monthly meeting.

Happy Helpers Meet

The Happy Helpers Class of the Walton Methodist Church met on Tuesday, Feb. 8th in the home of Mr. and Mrs. Scott Lancaster. After the program, in charge of the president, Mrs. Clifford Pruett, a short and the host and hostess, Mr. and Mrs. Lancaster.

The March meeting will be held in the home of Miss Emma Jane Miller, with Mrs. Clifford Pruett as co-hostess.

The speaker for the closing message will be Rev. Chase Jennings, Superintendent of Missions in Northern Kentucky.

A beautiful cup will be given to the church having the largest attendance. Who will be the first to carry it home?—Pub. Chm.

Sunday School Meeting

Sunday schools of the Baptist Churches of Boone County will meet at the East Bend Baptist Church on Monday, February 14th at 7:45 p. m. This is the group meeting of the Sunday School Association of North Bend. The subject of the conference will be "How to Improve Our Sunday Schools."

The speaker for the closing message will be Rev. Chase Jennings, Superintendent of Missions in Northern Kentucky.

A beautiful cup will be given to the church having the largest attendance. Who will be the first to carry it home?—Pub. Chm.

Cats Lose to Eagles, and Trim St. Henry

Ted Sanford, Kentucky High School Basketball Commissioner, has announced that the 34th District Basketball Tournament will be held at Simon Kenton High School on March 1, 2, 3, 4, and 5. The local vote for a site had resulted in a tie between Simon Kenton and Walton, which necessitated a decision by Mr. Sanford.

Participating schools are Simon Kenton, Walton, New Haven, Florence, St. Henry, Erlanger, Lloyd, Burlington and Hebron. Officials for the meet are to be Boyd Mahan and Leroy Witschger.

Last Friday night at the Walton gym the Beacrats lost their Boone County Conference lead when the Burlington Eagles defeated them, in a close and hard-fought game, 60-58.

These two teams are now tied in the loop race with 7 wins and 2 losses each. The teams battled on pretty even terms throughout the contest, but late in the final period McBee hit on a pair of free throws to tie the count at 59-59, and as the seconds were run out, Cave hit another charity toss to win the game. McBee was top scorer for the winners, while Walton's attack was taken care of by Vest and Maddox, who potted 41 points for the locals.

New Haven, we believe, is the common foe of both Burlington and Walton, as each quintette has to play the Tigers.

Trailing 3-22 at the half, the Walton-Verona Beacrats rallied in the last two quarters to defeat St. Henry 54-46 Monday night at the Lloyd High School gym, Erlanger. The Crusaders held Vest, the Cat's usual top pointman, to 7 points, but Johnny Maddox broke loose to account for 33 markers, setting a new high individual score for St. Henry.

The St. Henry reserves defeated Walton's reserves 37-22 in the first game of the evening.

Two Games Here During Week

On Friday, February 11th, the Beacrats will entertain the Newport Wildcats at the Walton gym, and on Tuesday, February 15th, the New Haven Tigers come here for a Boone County Conference tilt, the last of the season for the locals.

Infant Puckett

Alice Jean Puckett, infant daughter of Mr. and Mrs. Harvey Puckett of Elliston, died in St. Elizabeth Hospital, Covington, February 3rd. Besides her parents, the nine-month-old baby is survived by two brothers and seven sisters.

Funeral services were held in the Pleasant View Baptist Church, on Sunday, Feb. 6th at 2:00 p. m., with Rev. J. W. Koon, Erlanger, officiating. Burial in Pleasant View cemetery.

Hamilton funeral home of Verona had charge of arrangements.

February 11 marks the birthday of Thomas Alva Edison, the man who first brought me to light as a servant of mankind.

Thanks to his invention of the incandescent lamp, I bring sight-saving light to homes, farms and industries everywhere.

His pioneer steam power plant, built in 1882, has grown into the vast electrical industry of today, multiplying my ability to serve you a millionfold.

Today, I am doing more work for more people at lower hourly wages than ever before.

Many of the services I perform were unknown when Edison died in 1931. But they all stem from his genius. My hat's off to him as the father of electric service and great benefactor of mankind.

Inevitable Critics

Lesson for February 13, 1949

ONCE UPON a time, so the old story goes, there was a chameleon, a lizard that can change its color to match whatever it stands on. They put him on a black cloth and he turned black; on a red tablecloth and he turned red; on a green billiard table and he turned green. Then some mean person set him down on a Christmas necktie—and the poor little thing exploded. Dr. Foreman

This is a parable of the person who tries to please everybody. It can't be done—and it ought not to be tried. "Woe unto you," said Jesus, "when all men speak well of you."

Jesus Christ himself did not please every one. Not even a perfect personality can be 100 per cent popular. Not that Jesus enjoyed rubbing people the wrong way. There was nothing perverse about him. He was deeply sincerely friendly, and to lose any friendships must have been even more painful for him than for us who are so selfish. Nevertheless he did make enemies, he had his critics; and his followers may expect no better.

It was just that sort of thing that Jesus ran into, more than once. His enemies misunderstood, or at least misrepresented, his motives.

They claimed that he was "blasphemous," that is, that he was deliberately making light of God's law. The truth was that he was acting by God's highest law—the law of love. Helping people in need was more important than keeping the letter of the Sabbath law. Jesus' example may help us here.

Stepping Out of Bounds
 WHEN Jesus healed the man with the palsy, it was not the cure his critics found fault with, it was his first saying, "Your sins are forgiven." "Who can forgive sins but God alone?" they said. In short, the Pharisees thought—some of them perhaps sincerely—that Jesus was stepping out of bounds, pretending to do something that he had no right to attempt and no power to accomplish.

Now Jesus did have both the right and the power to say what he said to that sick and sinful man. And he made no apologies for going beyond the limits his critics set for him.

So we too may sometimes be accused of "biting off too much," of going beyond our powers or capacities. Our critics may be right, you know, though Jesus' critics never were. But how often they are wrong! If Lincoln had listened to his critics he never would have left his backwoods law office; they did not think him fit to be president. If the Wright boys had listened to their neighbors, they never would have flown an airplane, for who would have thought a couple of bicycle mechanics could do what so many scientists said was impossible?

The Company You Keep
 JESUS' friends got him into trouble, as Mark shows us. For one thing, some were the "wrong sort" like Matthew the tax-collector. Then his friends had an unconventional kind of religion; they actually seemed happy about it instead of gloomy like some of John's disciples. And to make matters worse, his friends "broke" the Sabbath laws much as Jesus did. All in all, Jesus' critics complained that Jesus' friends were a bad lot, and they judged him by the company he kept. But Jesus knew his friends better than his enemies did.

He never gave up or loosened a single friendship on his critics' account. Some of his friends gave him up, but he never gave them up.

So the Christian, if he has anything like Jesus' gift for making friends, may find himself criticized for their sakes.

(Copyright by the International Council of Religious Education on behalf of Jesus' friends as Jesus did. All in all, Jesus' critics complained that Jesus' friends were a bad lot, and they judged him by the company he kept. But Jesus knew his friends better than his enemies did.)

NO WILT FOUND IN NEW KIND OF LEAF

The new variety of burley tobacco, F-17A-46, has proved to be satisfactory with several farmers in Hart county, reports Farm Agent F. W. Wallace. He tells of Harry Stinson, who, in a field badly infested with wilt, set out two and a half acres of F-17A-46. On either side in the same field, he planted Ky. 41A. The latter crop was badly damaged by wilt, while the F-17A was free of it. Mr. Stinson harvested more than a ton to the acre of that variety, six baskets bringing him \$63 a hundred pounds.

SAFETY ADVISED WHEN USING ELECTRICAL APPLIANCES

"Put both hands to work" is one of the simple rules for saving time and labor on household jobs which has been stressed recently in studies of efficiency in house work, according to Mary Hood Gillaspie, Home Demonstration Agent in Boone County. For example, woodwork can be washed faster if one hand washes while the other dries, and such routine tasks as table setting and putting away dishes go faster and easier with both hands at work.

But when it comes to using electrical equipment, the Rural Electrification Administration of the U. S. Department of Agriculture advises against using both hands for different tasks at the same time. For safety when handling any electric appliance or when changing a fuse, avoid touching anything else. If the appliance happens to be worn or otherwise defective, causing a short circuit, there is always danger of shock. But there is less chance of severe shock if one hand is free—or is not touching anything else. Electricity seeks the shortest and easiest route to make its circuit to the ground, and should be prevented from making that circuit through the body from one hand to the other.

Here are examples of two-handed hazards: One hand is running a vacuum cleaner and the other moves a metal lamp out of the way. If either of these appliances happen

to have a loose wire or other defect, the current may run through the body. In the bathroom and kitchen special care must be taken because electricity travels through water. When turning on an electric light with one hand, take care not to touch water or the metal water faucet with the other. Be sure the hands are dry when handling any electric equipment, and make sure that the floor is dry too. Cement floors often appear dry when they hold enough moisture to be shock hazards. Never touch a radio, portable electric heater, other electric appliance or even to turn on lights when in the bathtub or when washing dishes or clothes.

Uncle Sam Says

Some of my nephews and nieces want to save regularly and actually do so. Others mean to save but don't always get around to it. These latter are the ones who only think about a budget. The best way to save is to do it on a regular basis, every payday. And the best investment is U. S. Savings Bonds. If you're on a payroll, enroll for the Payroll Savings Plan where you work, or, if self-employed, sign up for the Bond-a-Month Plan at your bank. Either way, you're building future security in the soundest way possible. And your money increases, four dollars for three in 10 years' time. U. S. Treasury Department

"I certainly wouldn't want to farm with a borrowed tractor. I like to work with MY OWN tools.

"That's the reason why . . . when I need financing for land, improvements, or any long-term farm need . . . I get a Federal Land Bank loan through MY OWN National Farm Loan Association.

"You see, my own association . . . and every other cooperative National Farm Loan Association in the country . . . ARE OWNED BY FARMERS! So . . . I'm using MY OWN tools even in financing!

Red Cross Fund-Drive Chr. Named

G. R. Scott, chairman of the Boone County Chapter, American Red Cross, announces the appointment of Dean Bloss as chairman of the annual fund drive which begins on March 1st. Mr. Bloss is director of the Boone County school bands, and is widely known throughout the county. For the past year, Mr. and Mrs. Bloss have served as co-chairman of Junior Red Cross in Boone County, doing a fine job. Before Christmas they secured 100% membership of all county schools in the Junior Red Cross and sent approximately 100 gift boxes containing items such as soap, toothpaste, wash cloths, towels, combs and various toys to needy children overseas.

Mr. Bloss states that peace and welfare of the world depends upon the mutual understanding of life and philosophy of this and the coming generation and that the Red Cross is doing an excellent job in endeavoring to make this understanding possible.

Mr. Bloss will soon announce his precinct chairman and it is hoped that the citizens of Boone County will give loyal support to this good cause, which is at your side day and night, ready to assist you when called upon.

Headquarters of the Boone County Red Cross is located in Florence, and in addition to regular office hours, a 24-hour emergency service is maintained.

NOTICE TO PATRONS OF AMERICAN LEGION

The Legion deems it advisable at this time to postpone to a later date the "Old Time Square Dance," that was scheduled for your enjoyment this coming Saturday evening, Feb. 19, 1949. We apologize for doing this on such short notice, but developments beyond our control complicate this action. Watch this paper for a later announcement.—Pub. Chm.

Legion News Of Interest To All--

On Wednesday evening, Feb. 23, 1949, there will be held in the Legion Home on Beaver Road, a special meeting of American Legion Post, 277. All prospective members, old and new are cordially invited to attend this meeting. We will have a special speaker this evening, in the form of our Assistant State Adjutant. The purpose of this meeting is membership. The larger number of members in this active post, the stronger we will become, the more easily we will be able to overcome obstacles in our path to fulfill our pledge to Democracy, the more easily we will be able to fit our ideals into our government, the community, state and nation.

The American Legion was formed on the battlefields of France in 1919. The ideals of the men behind the American Legion then is the same as it is now—to do the most good for humanity in the best possible way conceived. Those ideals are just as strong now as they were in 1919, perhaps stronger. There are now not only men of the first AEF in the American Legion, but new men from the great armies of Gen. "Ike" and "Mac," with ideals just as high and principles just as much above reproach as there were when the American Legion was first instituted.

People, it has been said, forget awfully fast the good things man has done, they do not forget though so fast, the bad things man has done. There is some good in the worst of us, and some bad in the best of us. We of the American Legion do not want a pat on the back or sympathy. We are asking for a chance to show what we can do to help others of this community, as we have done before; make this a better community in which to live and work and enjoy life to the fullest extent of its own meaning.

That is every American's heritage.—Pub. Chm.

SIMON KENTON P.T.A.

The Simon Kenton P. T. A. celebrated Founders Day in the school auditorium on Monday evening, Feb. 7th. The room was beautifully decorated for the occasion. The meeting was called to order by the president, Mrs. Harry Rubbe. Robert Roden, band leader, and three of his pupils, Charlene Mills, Jean Gibson and Jimmie Free, presented a clarinet quartette. One hundred dollars was voted to go to the band leader for purchasing instruments. Supt. J. A. Caywood, gave a very interesting talk on "Founders' Day." After the business session, Fred Macklin, of the John R. Coppin Company, put on a style show, which was enjoyed by everyone present. Refreshments were served.—Pub. Chm.

WALTON P.T.A. TO MEET

The Walton P. T. A. will have a speaker, Rev. Geo. W. Hoffman, pastor of the Walton Methodist church, at the regular meeting on Friday afternoon at 3 o'clock, in the school auditorium. Mrs. Howard Nicholson will preside over the business session, after which there will be a tea in observance of Founders Day.

4-H Tractor Maintenance School Planned

Mr. Krumpelman attended the 4-H tractor maintenance school for 4-H leaders, held recently at the University of Kentucky. Some of the subjects to be taken up at these meetings will be: Cleaning and inspection of the tractor; tractor lubrication and equipment; care and maintenance of tractor tires, by W. H. Hibbs, Firestone Tire and Rubber Co., Cincinnati.

Tractor dealers in Kenton county will help with the program. Farm safety will be stressed throughout the school. Standard Oil of Kentucky is sponsoring the school.

Celebrates Birthday

Mrs. George Knox pleasantly entertained Tuesday evening, Mrs. Ora Fry, Mrs. Gertrude Gardt, Mrs. Carrie Rouse, Mrs. Mary, Stephenson, Misses Mollie and Anna Chapman, Mrs. Vera Wright, Donna Joy Wright and Mr. Knox, the occasion being Mrs. Knox's birthday. After the playing of games a delightful lunch was served. All left wishing Mrs. Knox many more happy birthdays.

Interesting Conference Held Sat'day

One of the most interesting Y-Teen conferences was held February 12th from 10:45 to 3:00 at the Covington YMCA, when the Holmes High School Y-Teen Club was hostess to 115 Y-Teens from Northern Kentucky clubs.

With Hebron High's lively song leader leading the favorite Y-Teen songs, the meeting was off to a good start. The morning worship program was led by the Florence club. During a brief business session, Miss Elma Taylor presented a constitution for the Northern Kentucky Y-Teen Inter-Club Council.

After a "box lunch," members of the Simon Kenton clubs led the afternoon worship program, then Mrs. Barton Johnson, wife of the Madison Avenue Christian Church pastor, spoke on "If I Were Young." Mrs. Johnson's personality and enthusiasm make her an outstanding speaker for young people. Movies, "You and Your Family" and "Dinner Party," were shown later in the afternoon.

At the close of the conference, girls were already making plans to attend the spring conference at Brooksville and to break Brooksville's record attendance of 38 delegates.

Fourteen members, with two of the sponsors, Miss Elma Taylor and Miss Lillian Davis, attended from the Simon Kenton clubs. Six members from the Walton club and their president, Rosa Lee Denby, were present.

BIRTHDAY PARTY

Delbert F. Northcutt, one of Walton's most popular young men, was giving a very pleasant surprise party in honor of his 19th birthday, on Saturday night, Feb. 12th in the home of Mr. and Mrs. Walter M. Vest and daughters on Edwards Avenue. A delightful supper was enjoyed by number of guests. Delbert received many nice gifts and good wishes for many more happy birthdays.

Those present were Zella Simpson, Rosalie Denby, Donna Kendall, Layne Cheesmen, Bob Chandler, Maynard Meadows, Margie Carpenter, Margie Zapp, Betty Northcutt, Dike Vest, Betty Malone, Joe Stephenson, Peggy Mae Vest and Rose Marie Vest.

SUGGESTIONS ON BROODING CHICKS

The following suggestions on the brooding of chicks are from the College of Agriculture and Home Economics, University of Kentucky.

Keep the fire burning in the brooder stove two or three days before putting in the chicks. Regulate heat to 90 degrees at edge of canopy. Don't overheat.

Feed chicks when they are put into the house. If not fed they may eat litter and develop digestive troubles.

Use only feeds of good quality in chick rations.

All over enough feeder space to avoid overcrowding—an inch for each chick during the first 3 or 4 weeks and 2 inches thereafter.

Clean feeders daily when liquid milk is fed.

If milk can't be had, then dried buttermilk or dried skim milk may be used, and the chicks given clean water to drink.

If commercial mash is fed, it is

not necessary to feed milk. Give chicks water to drink.

Use litter 2 to 4 inches deep at the start and add to it from time to time until it is 8 inches deep. Keep it dry by stirring with a fork.

Clean litter and clean feed help to prevent disease.

Provide ventilation. Don't make the mistake of having the house closed too tight.

Put in low roosts when the chicks are 3 or 4 weeks old.

Provide plenty of feed, shade and water in the summer.

They Add Up to a Brighter Future for the South

"Look Ahead—Look South!"

Last year the Southern Railway System repeated this invitation to industries over 43 million times in advertisements in the nation's leading magazines.

Why are we "telling the world" about the South year after year? Because every new factory that sets-up-shop here means more jobs...more business for local merchants...more dollars to spread across the South and into our homes...and more traffic for the Southern.

Along our lines, in the past several years, new industries have "come South" at the rate of more than one a day! And they keep coming!

When the bookkeepers of the future total their accounts, we believe they'll find that our efforts and enthusiasm have added up to greater things for all of us...to more opportunity for our youngsters...to a brighter future for the Southland.

Ernest G. Norris
President

SOUTHERN RAILWAY SYSTEM

They Grow Like Jack's Beanstalk

It's the greatest cotton-growing area in the world. The South has the most fertile soil, the best climate, and the most experienced labor. The result is a crop that grows like Jack's Beanstalk. The South is the only place in the world where cotton grows so big and so fast.

The Pelican Bird in the SOUTH

There's a pelican bird in the South. It's the symbol of the South's industry and progress. The pelican bird is known for its self-sacrifice and its ability to feed its young. The South is the only place in the world where the pelican bird can be found.

The "spell" of the South

It's the spell of the South. It's the spell of the South's industry and progress. The South is the only place in the world where the spell of the South can be found.

Industrial Bandwagon

Since the greatest industrial area in the world is in the South, it's no wonder that the South is the only place in the world where the industrial bandwagon can be found.

ELECTRIC EQUIPMENT NEEDS PROPER WIRING

Be sure your house is adequately
wired before you connect with heavy
electrical equipment, such as a
water heater, automatic washer or
range, Miss Ida C. Hagman, home
management specialist, UK College
of Agriculture and Home Economics
cautioned women attending the
Farm Home Convention at Lexing-
ton. Old houses sometimes must be
entirely rewired. Fifty percent

of farm families in Kentucky now
have electricity, she stated.

Eleven Immortals

Lesson for February 20, 1949

JESUS BELIEVED in prayer, but
he did not usually spend all night
at it. When he did, we may be sure
he had something of the greatest im-
portance on his mind. One of these
occasions was the night before he
selected the twelve men he
called Apostles. He had thousands of
disciples, crowds followed him wherever
he went. But it was important to have a
few with whom he
could live as an im-
mortal friend. So from the im-
mense number of followers, Jesus
selected twelve closest friends. Be-
fore that fateful morning no one
outside their villages had ever heard
of them. But now their names are
known—and eleven of them are hon-
ored—around the world.

Jesus Multiplies Himself

A GOOD executive, Jesus multi-
plied his own personality. A re-
cent book has shown how Harry
Hopkins during World War II lived
in the White House as Roosevelt's
personal companion, having given
up his own ambitions and living
only to carry out the ideas of his
chief. Without Roosevelt, Hopkins
would have been little more than
an inferior politician; and without
Hopkins, many of Roosevelt's plans
could not have been carried out. He
enabled the president to be in two
places at once. So it was with Jesus,
as Mark tells us. Jesus wanted
those twelve to be with him, and
then to send them out.

He wanted these friends to
know him as the crowds, and
his enemies, never could know
him. He wanted them to be able
to absorb his ideas and ideals.

By continual contact, day by day
and month by month, they would
inevitably become more like him.
Because of that, he could (and later
did) send them out to do his work
in places he could not reach. The
word Jesus used for them was not
his own invention; "apostle" was
the word used all over the civilized
world in those days for an ambas-
sador, a personal representative of
royalty. All Christians are in the
"apostolic succession." If a Christ-
ian can truly say, "I live, yet not I,
but Christ liveth in me," then he is,
as these men were, Christ's per-
sonal representative.

Raw Material

THE ASTONISHING thing about
Jesus' choice of these twelve
is his faith in them. Of course they
had faith in him—who would not?
But who would have faith in them?
There was not a single "outstand-
ing" man in the lot. Not one had
what we would call a college edu-
cation, not a man of them had held
public office or was rich or famous
for anything at all. The officers of
any modern church might shake
their heads over them.

There was Peter, an ordinary
fisherman, much given to profan-
ity; there was Matthew, a crooked
business man if ever there was one,
for no publican could be honest and
keep from starving; there was
Philip, as stupid a man as ever
asked a foolish question; there were
James and John, loud-mouthed
(Jesus nicknamed them the "Thunder
Boys—"Sons of Thunder"),
greedy fellows who could not be
satisfied till they had elbow room
ahead of everybody else; there
was Thomas the born pessimist, the
defeatist . . . What could have got
into Jesus' mind to select such men?

—And Judas Iscariot
THE SECRET of Jesus' choice was
this: He selected his men not
for what they were or had been, but
for what they could become, filled
with his spirit, transformed by his
friendship. It is so today, as always.
The Kingdom of God needs men and
women, but the raw human material
found in or out of the churches
is too shabby and weak to build
anything like the kingdom of God.
"Twelve Immortals"—? Nay, but
one is the immortal betrayer and
suicide. Why? The reason was in
Judas, not in Jesus.

The truth is that Christ will
not force himself on any one,
not even on an Apostle. Christ
needs men, now, as he needed
men then, to carry on his work
in this world.

But he wants volunteers, never
forced labor. The Christ of Glory
can be served by the humble; but
the free Christ can be served only
by free men with open hearts.
Judas may keep his heart shut if
he will; Christ never forces his way
in.

cil of Religious Education on behalf of

Boost Corn Yields 25 Bushels Per Acre With Organic Matter Plus Legume-Grass Sod

Bushel-Boosting Corn Growth Comes From Good Soil Structure, Plenty of Organic Matter, Plant Nutrients and Moisture.

CHICAGO—Corn yields can be boosted 25 bushels per acre, if farmers will build soil structure with a good legume-grass sod a year or two before corn planting, declared the Middle West Soil Improvement Committee in a statement citing recommendations by Dr. D. R. Dodd, extension agronomist of Ohio State University. "Soil structure spells the difference between high and low corn yields on many farms," it says. "Dr. Dodd point out that most Ohio farmers can get 30 bushels of corn per acre with no sod, or with root sod. Other growers harvest 15-

bushel crops on similar soil that produced a good hay crop for one or two seasons before corn.

"Soil plowed out of well-fed grasses and deep-rooted legumes has life in it. The organic matter added by the rotting legume roots and tops builds the soil structure and gives it mellowness and tilth. "The way to get a good sod is to feed the soil. Then it can feed the legumes and grasses. Lime, as indicated by soil tests, is vital. And for good top growth and full root development, plenty of fertilizer carrying nitrogen, phosphorus, potash as needed is essential."

Farmers in Rowan county who grew F 17A tobacco were pleased with both the weight and quality of their crops.

Cledith Rowe, Magoffin county 4-H'er, produced 167.2 bushels of hybrid corn on his acre-plot, topping county records.

A WORD OF PRAISE FOR THE WALTON FIRE DEPT.

We wish to express gratitude and praise for the speedy response to our fire alarm of last Saturday. To be exact, the Fire Dept. was on hand within five minutes after the alarm. Not only was it on hand, but the fellows really went into action like veteran fire fighters. As a result, our garage was saved and perhaps the main building, as well as prob-

ably our neighbor's buildings, as the wind was quite severe.

We also appreciate the cooperation of Police Chief Simmons in the handling of traffic during this time.

We have always supported the Fire Department in every fund-raising move and will continue to do so. Likewise, we wish to remind all citizens of Walton and vicinity of the importance of this Fire Dept. Ye Olde Friendly Frogstool Inn.

I LIKE TO WORK

"I certainly wouldn't want to farm with a borrowed tractor. I like to work with MY OWN tools.

"That's the reason why . . . when I need financing for land, improvements, or any long-term farm need . . . I get a Federal Land Bank loan through MY OWN National Farm Loan Association.

"You see, my own association . . . and every other cooperative National Farm Loan Association in the country . . . ARE OWNED BY FARMERS! So . . . I'm using MY OWN tools even in financing!

Soil Conservation from Across the Fence

By Julian M. Dyer

The unseasonal rains of January have served at least one purpose in Kenton County. It has showed the great difference between holding the fertile soil where it belongs and seeing it waste away in muddy streams to leave new bulges or to

make old ones deeper on the steep croplands above.

The interesting part of the story is that in spite of the heavy rains, some farms have refused to give up this stream of soil, but held it in place to feed the present and future owner, while other farms or even other fields just across the fence are scarred and gashed by new and old gullies or have lost inches of surface soil by sheet erosion.

Let's stop and speak to a few neighbors as we drive over the county, just as the writer did last week while the rains were still pouring. The first stop is that of C. C. Northcutt of Atwood, who has been doing conservation farming as a co-operator of the Kenton Soil Conservation District for five years. He has a steep hill pasture, just above a flat bottom crop field. Mr. Northcutt stated last week, "This field would have been completely ruined this winter if I hadn't protected it by diversion terraces from the hill pasture back in 1946." He recalled that, "Some larger gullies cutting across this field from the hill land were two feet wide and nearly as deep, but these terraces have held up in spite of the heavy runoff without damage." His ridge cropland as we walked over it substantiated his further claims that it too "Was well anchored since we got it terraced in 1947 and 1948 and seeded one field to alfalfa and the other

cropped on the contour to tobacco." He assured me before I left he had another field to be laid out for terraces this spring. He builds his own terraces with his two bottom tractor plow.

The next stop was E. F. Neumeister's of Bracht, who had never tried terracing and contour tillage until 1948 when he terraced 4 acres and planted to corn. When asked what he thought of terracing on cropland, he replied, "I want all my cropland

laid out as soon as possible and terraced." He also does his own terracing by tractor.

After leaving Mr. Neumeister, our next stop is at the farm of Alois Obermeyer near Nicholson. He began conservation farming 3 years ago by terracing a 5-acre field which was eroding severely into his big new lake. This was seeded that spring to alfalfa but the terraces have "done a fine job of saving the field," said beginning the has terraced. Since that beginning he has terraced all his crop land (20 acres) which he states "are holding nicely and practically no soil erosion or washing away, except in one small place where a mole hole caused a break." John Shaw is our next stop at Whites Tower. He was one of Kenton County's first co-operators, building terraces in 1942 and has now 26 acres terraced for contour cropping.

When asked how he liked terracing and curved rows, stated "I don't exactly like them, but I do like what they do for me. They do away with gullies and allow me to hold and build up the fertility of my soil." Chas. Cummings, old Decoursey road, owner-operator of his home place and operator of the Dave Shor farm nearby, was enthusiastic in his praise of conservation farming especially on the Shor farm which was bought 4½ years ago as an old abandoned farm impoverished and gullied. The first year proved unsuccessful in his efforts to grow a pasture mixture, it was so depleted. He then applied lime and phosphate and terraced 50 acres of the 75-acre farm and he explained "we could never have gotten our good pasture stands without first reducing the run-off water by terracing, so we could keep the fertilizer and grass seed from washing away."

He too requested new lines for additional terraces in the spring. The next and last stop was that at Joe Blau's, also on old Decoursey road. Joe has been building terraces and getting his partition fences and row crops relocated to the

contour ever since he came home from World War II. He lays out a new field every season as the soil will permit. His comment last week was, "We want every field terraced before we quit, so our run-off water will always be clear instead of muddy as it goes into the creek."

A word to the wise—with only one technician in the Soil Conservation District and with so many new requests for layout work, please bear in mind we can't hope to take care of all the calls for this spring, before planting time unless we can

lay out and mark the terrace lines well in advance. Then when the soil is dry enough to construct terraces or lay out the contour rows, every cooperator can start operations without waiting for technical help.

Legion News Of Interest To All...

Last Wednesday evening, Feb. 16, your correspondent visited the City of Carrollton, Ky. A visit was made in order to attend the celebration dinner given American Legion Post 41 on their membership campaign. They have, in the past three months, gained four hundred and fifty members to their Post. While we were there we heard speeches made praising the American Legion for the good they have done for their Community, State, and Nation.

Such notables as State Senator Kidwell; Department of Kentucky Police Chief and State Commander Guthrie Crowe; the man who, for the past twenty-five years has been State Department Adjutant, the "Mister American Legion of Kentucky," and member of our legislature, Tom Hayden; visiting dignitaries from other Posts; County and City officials. They all gave their whole-hearted support to "THEIR LEGION POST." THEY were proud of their boys.

Your correspondent was, while listening to these learned men speak and praise the Legion, thinking of his own Legion Post, which he has helped from the start to build, and of the difficulty which it is having struggling along against some minority of public opinion, simply because they will not give their "Boys," an opportunity to show the good they can do for their own community.

He was thinking also in terms even greater than this. The church, for instance, On Thanksgiving Day a year ago, our Christian Church burned, was razed to the ground. If some of "the boys" hadn't taken time out of their lives—some for as long as four years—to think that church might have progressed as far to replacing itself as it has today? Those boys gave up their freedom so you could remain free. Now it is up to you, the people of "Our Town" to give them back their freedom to help you again. It is such a small thing to ask for a home that is free of debt; free to act in an American way. Now it is your turn to show your appreciation by giving us the opportunity to prove to the doubtful minority that we want to be and act and do as all free Americans have the privilege of doing—Pub. Chm.

Soil Conservation From Across the Fence

By Julian M. Dyer,

Soil Conservationist
(For assistance in Planning
Better Pasture, call Inde-
pendence 6322 before 7 a. m.
or after 7 p. m., or call the
office, Independence 5117).

February has proven the proper
time for seeding new pastures or
reseeding old ones. John Coyle,
from Cincinnati, who is rejuvenat-
ing his newly acquired farm near
Crescent Springs, had an ambition
to have a good bluegrass pasture
and Chris Lelstner, of Covington,
Route 3, felt he wanted a good Korean
lespedeza pasture. The writer
also likes bluegrass as well as Korean
improved pastures over with these
two men, it was decided to use both
bluegrass and Korean in mixture
with orchard grass, red top grass,
alsike clover and sweet clover in
order to allow more months of graz-
ing for livestock and to give a com-
plete ground cover to avoid the top
soil losses by erosion.

Oris Forehan, of Little Cruise
Creek, a veteran, who recently be-
came a cooperator of the Soil Con-

servation district, has decided not to
plow up his thinner areas of his old
pasture in order to get a better one
but to seed a good grass mixture in
the month of February and let the
winter freezing and thawing cover
the seed at a time when the spring
rains will provide ample moisture to
start the young seedlings off well.

Even old abandoned bullied areas
can be brought back into productive
pastures by the lime-phosphate-
manure-mulch-grass mixture pro-
cess. Charlie Grift treated some

very large areas of such abandoned
land two years ago and he has
practically a complete coverage now
where not a green sprig of anything
had grown for years. Mr. Grift stated
he is now planning to clear large
brushy areas on his steep hill past-
ure and get a good grass mixture
there.

Dr. E. N. Beatty of Erlanger is al-
so planning to convert an extensive
brushy area to rejuvenated pasture
with meadow Fescue and Ladino
clover mixture. These newer vari-
eties, however, must have a thor-
ough seedbed prepared and seeded
in April or September for best re-
sults with heavy applications of
manure and other fertilizers.

E. L. Webster of Green Road has
been growing four acres of Ky. 31
Fescue for a couple of years very
successfully and selling seed local-
ly. He has his own combine for
seed harvest.

Joe and Cyril Blau of old Decour-
sey Pike have had an acre of Ladino
clover for two years and they are
well pleased with results.
Many of our farmers plan to seed
the Fescue and Ladino in combina-
tion for pasture, which should
greatly supplement their present
grass.

It is estimated that more than 200
farmers in Elliott county produced
a ton or more of tobacco to the acre
last year.

MANY FARMERS NEED IMPROVED FENCING

Many Kentucky farms need more
fencing or the rearrangement of
fences, think economists at the Col-
lege of Agriculture and Home Eco-
nomics, University of Kentucky.
This is especially true where farm-
ers are turning to more pasture and
livestock.

On some farms, surveys showed
that instead of more fencing, the
fences already on the farm could
be rearranged to advantage. Instead
of square fields, it was thought
best that fences follow natural con-
tours, with attention to fertility and
water supply. In fact, on 90 percent
of the farms studied, the rods of
fence were in excess of the need,
when the fences were properly

Simon Kenton Upsets Bellevue Tigers 51-46

Simon Kenton's Pioneers all but decided the championship in the Northern Kentucky Athletic Conference race last Friday night when they dropped Bellevue into second place with a stinging 51-46 defeat.

The Pioneers had to come from behind in the final quarter on the home floor to add the Tigers to their list of "big ones."

After Bellevue held a 13-11 lead at the quarter and a 25-23 advantage at the half, Gene Coppage paced the Pioneers with 8 points in the third period to put his team in a 36-36 tie.

Limiting the Tigers to 10 markers in the final frame, Coppage teamed with Heeger to pour in 15 tallies to take the decision.

Coppage accounted for 25 of the winners' points. Hundermeyer dropped in 22 points for Bellevue.

The Simon Kenton Pioneers, a improved team from last year, have won 15 out of 24 games. The constant improvement of the team has enabled them to maintain a good standing in the N. K. A. C. and a very high standing in all games played in Northern Kentucky.

Below is a list of the games played since the Newport game:

Simon Kenton 42—Brooksville 45
Simon Kenton 47—Elkhorn 27
Simon Kenton 52—Florence 29
Simon Kenton 32—Covington 44
Simon Kenton 37—Beechwood 39
Simon Kenton 47—Ludlow 27
Simon Kenton 39—Bellevue 53
Simon Kenton 32—Dayton 50
Simon Kenton 50—Walton 38
Simon Kenton 52—Elmhurst 34
Simon Kenton 43—Cynthiana 45
Simon Kenton 46—Dixie Heights 45
Simon Kenton 42—Brooksville 37
Simon Kenton 31—Beechwood 48
Simon Kenton 31—Campbell Co. 34

The most important game of the season was rung up February 4th at Dixie Heights, when the Pioneers defeated the Little Colonels 46-45 on the losers floor. The Little Colonels were ahead up to the end of the 3rd quarter. With 2 minutes left to play in the 4th quarter, Dixie was leading by 4 points; Hermes made a fast trip, Armstrong made a field goal, was fouled on the play, and was credited with the winning point.

INDEPENDENCE R. 1

The many friends of Pat Sweeney were sorry to learn of his death, which occurred at St. Elizabeth Hospital last Monday evening. Mr. Sweeney was well known, as he had lived in the community of Staffordsburg most of his life. He was nearing 84 years of age. He had made his home with his brother, Joe Sweeney, and family for the past three or four years.

We are glad to report Chas. Losey is improving and is sitting up some. We wish him a speedy recovery.

Mrs. R. J. Cavanaugh writes back from California that she is enjoying the sunshine and beautiful flowers. Mrs. J. A. Keeney spent a couple of days with her sisters at Independence this past week, helping care for her mother, who is not so well as usual.

Mrs. J. J. Barnett spent Tuesday with her sister-in-law in Covington. Several from the Staffordsburg Church attended services at Visalia Sunday afternoon.

We were very glad to of had a goodly number out to Sunday School and also at church services at Staffordsburg, Sunday. Hope all will keep on coming and also pray for our pastor and his people, that we will reap a better harvest this year than ever before.

GRASSES CAN BE SOWN IN SPRING

While fall seeding of grasses is preferred, good stands are usually obtained from late winter or early

spring sowing, according to the Kentucky Agricultural Experiment Station.

Good stands of all grasses except bluegrass may often be had by sowing in oats, provided the oats are

sown in late March or early April and not seeded too heavily.

Some legumes and grasses should not be sown until danger of heavy frost is past. Alfalfa is one of these crops.

By DR. KENNETH J. FOREMAN

SCRIPTURE: Matthew 5:3-7, 13-48:38

Ideal World

Lesson for February 27, 1949

ANY MAN with a revolutionary new idea has to try to explain it. Jesus was no exception. As a young teacher of religion, he had to answer the question which older teachers were bound to put to him: If your teaching is new, how can it be true? And if it is true, what can be a new about it? This was a fair question. The Sermon on the Mount is Jesus' answer to it. Dr. Foreman

main theme of that sermon is the kingdom of God, an ancient phrase but with new meanings as Jesus used it. We can say "The Ideal World" and mean just the same thing.

The Right People

JESUS EMPHASIZES, above all, the kind of people who belong to God's Ideal World. This would be surprising to some modern planners. Communists think that if you can once get a world in which every one has enough to eat and drink and wear, a world where nobody is poor (or everybody is as poor as everybody else, which is all the same thing), you will have the perfect world. Jesus would know this is nonsense. You do not get the perfect world by improving the soil, or the system of government, or the economic system; you do not get it by passing laws of any kind. This does not mean that such things are unimportant—far from it.

But the fact is that even after you got your perfect social system, with perfect politics and perfect distribution of wealth, even a perfect climate and soil, you would still be nowhere near the Ideal World unless you have improved your people.

Is This You

WHAT WE call the "beatitudes" (Matt. 5:7-12) is Jesus' eight-point program for the citizen of the Ideal World. The right people are happy people, to begin with. (The word translated "Blessed" is a regular Greek word for "happy.") But the main difference between different kinds of people is not that some want to be happy while others do not.

Jesus' ideal people are humble, not proud; they see their sins and are sorry for them; they are "meek"—that is, they are not in a hurry to demand their own rights; they do not merely admire goodness, they are positively hungry for it; they are merciful, not careless or cruel; they are pure in heart and not only in speech and act; they are not mere peace-wishers or peace-lovers (who isn't?) but peace-makers; they are people who are brave enough to do what is right.

Salt

DO YOU really want an ideal world? The best way to begin is to learn how to be a citizen of such a world. Jesus uses two interesting simple words to describe the kind of people he means. You are salt, he said—you are light. Salt and light are old-fashioned things but they have never gone out of date.

So there is no substitute for a really good Christian. Living, here and now, like citizens of the Ideal World to come, Christians are both salt and light.

Salt because they give a taste to otherwise flat or bitter life. Salt because they keep human society from going rotten. . . .

Light

AND LIGHT! Like salt, light ought not to be too noticeable. A glaring light is bad on the eyes, as too much salt is bad on the tongue. So a Christian is not supposed to rub his goodness in on other people, so to speak. He is as indispensable as salt in bread—and should be as inconspicuous. But light, like salt, if it is any good has to be applied directly. A strong light concealed in a steel tube does no good. Swishing the glass end of the salt-cellar around in the soup gives it no flavor. The salt must get into the soup, the light must touch what we see.

So the Christian, God's ideal citizen-in-training, can do the world no good by running away from the world.

If a Christian is going to leave this world better than he found it, even a little bit farther on toward the Ideal World,—he must come into touch with the world, not to imitate it but to change it.

F. F. A. ACTIVITY

The F. F. A. has finally undertaken an activity which we have been planning for many years. This activity was the purchase of a Farmall Cub tractor, to be used by the boys in the chapter on their farming programs. It will also be used by the chapter to raise a truck garden. Since the purchase of the tractor we have rented 1.8 acres of tobacco, which will be tended by the boys, and the profits will go to help pay for the tractor and equipment.

The main object of buying a tractor was the educational value that the boys will gain in learning how to use a tractor.

One of the activities of the recreation committee was to sponsor a dance, this activity was carried out successfully by the cooperation of the entire chapter who participated in planning and attending the dance. The dance was held February 18th after the Bellevue game.

An activity of the Supervised Farming Committee which was greatly enjoyed by the entire chapter was a field trip to Kahn's Meat Packing plant in Cincinnati. This trip was of value to the boys because it helped to teach them the proper way of slaughtering animals and showing them the desired meat cuts.

Due to the small class of Seniors this year we may have two state

Repair the brooder house. Eliminate drafts and make house easy to heat by plugging up cracks, repairing windows, etc. Thoroughly clean and disinfect entire interior and all equipment. Use Dr. Salsbury's Far-O-San or Germex for disinfecting.

Cover floor with clean, deep, absorbent litter. Start brooder stove a day or two in advance to see that it is working properly and to heat the house for chicks' arrival. Erect a hover guard around the stove to keep chicks near source of heat. Move this guard a little each day and remove after a week. Give feed on egg flats for first day or two.

For faster growth, mix Dr. Salsbury's Ren-O-Sal in the chicks' drinking water at rate of 2 tablets per gallon. Allow ¼ square foot of floor space per chick.

Provide ample watering and feeding space. After a few weeks, install larger feeders and waterers.

Feed chick-starter, filling hoppers about ¾ full. Start scratch-grain feeding at about 5 weeks.

Change gradually from chick-starter to growing mash at 6 to 7 weeks.

Fine grit and oyster shell may be given after first few days. Let chicks out of house occasionally after first 2 or 3 weeks, weather permitting.

Separate pullets and cockerels as early as possible. Rake and turn litter several times weekly.

Keep house clean. Disinfect at regular intervals.

Board Rejects Legion Beer Application Florence, Burlington, Walton, N. Haven Lose

Council Vote Is 3-2 Against Legionaires

The application for license to sell beer in the American Legion home in Walton was refused Monday night by the Walton Town Board by a three-to-two vote.

Several weeks ago, the local chapter of the American Legion indicated their intention to apply for license to sell beer at their premises on Beaver Road in the city of Walton. About the same time, the American Legion also indicated that they wanted to sponsor a "teen-age" club at their home. Much opposition developed when the two intentions of the American Legion became known to the general public.

At the regular meeting of the Walton Town Board, held Monday evening, February 14, two large delegations were in attendance. One delegation was composed primarily of members of the Legion and their wives. The other delegation consisted of citizens of the town and surrounding neighborhood, who were opposed to beer being sold at the American Legion Home.

The Board, at this regular meeting, was not represented by the city attorney, and one member was absent. The absence of the member and attorney, together with the fact that the meeting place in the City Hall would not accommodate all those who wished to be heard, prompted a motion to continue the regular meeting to the evening of Monday, Feb. 28, and to hold the continued meeting at the school auditorium.

When the continued meeting was called to order at the school auditorium, there were, perhaps, 200 visitors present, including members of the Legion and other people that were interested in the question of issuing a beer license. All members of the Board were present, as was the city attorney.

After calling the meeting to order, the Mayor advised the visitors that the Board was then ready to hear any statements from any interested parties, concerning the matter at hand. The American Legion properly presented an application for the beer license and advised that one person would speak in their behalf.

The opposition was led by the ministers of the Baptist and Methodist Churches. Also presented by the opposition was a petition signed by numerous citizens, living in the vicinity of the American Legion Home.

The question of whether the Board could legally refuse to issue a license, if the application was in the proper form and statements therein were true, was discussed. The opposition based their argument primarily on the belief that the American Legion Home is located in a residential area, and that the petition was signed by citizens occupying residences in that immediate vicinity.

The American Legion questioned this argument, since there is no zoning ordinance in the town of Walton. The spokesman for the Legion pointed out that there are several business establishments located nearer to the American Legion Home than some of the citizens who had signed the petition.

Another point that was brought to the attention of the Board, when considering the signed petition, was the fact that not all of the people living in the residences in the immediate vicinity had signed the petition.

The statutory limitations placed on the Board by the Alcoholic Control Act of the Commonwealth of Kentucky, was discussed. It was the opinion of Attorney L. M. Ackman, who acted as legal advisor to citizens opposing the issuing of the

A STATEMENT FROM THE BOARD

The Town Board of Walton, as a whole, and the members individually, want everybody concerned to know that there is no animosity towards and individual or group who appeared either in support or in opposition to the granting of beer license to the American Legion. Each member conscientiously voted as he thought was right under the prevailing circumstances. The Board also wants it known that visitors are welcome, and are encouraged to attend any and all meetings, be it in support or in opposition to any matter that may come before the Board.

Four years ago we had faith in our town, it has not dwindled now, nor will it ever. Erlanger To Play St. Henry Tonight at 8 O'clock

In Wednesday night's first game the Hebron Cardinals defeated the Walton Beacorts 48-35. The winners led 24-19 at the half. McGlasson led the winners with 19 points, and Carver bagged 14. Vest and Maddox divided 18 tallies for Walton.

In the contest of the evening, the Simon Kenton Pioneers took the measure of New Haven 54-46 in a hard-fought game. Coppage led the winners with 20 points, while Flynn collected 16 for the Tigers.

A packed house was on hand Tuesday evening to witness the opening of the 34th District Basketball Tournament at the Simon Kenton gym, which will continue thru the week, ending Saturday night.

The tourney opener saw the St. Henry Crusaders of Erlanger edging the Florence Knights 45-44 in a game that was close throughout. The Crusaders, coached by Bob Ross, held a slight advantage most of the way, being in front 14-13 at the end of the first quarter, 28-21 at the half and 39-34 at the final frame got under way.

Fleck and Roth shared scoring honors for the winners, each bagging 12 points. C. England topped the Knights' attack with 12 markers also.

The second attraction of the evening brought together the Lloyd Juggernauts of Erlanger and the Burlington Eagles, which was won by the Kenton Countians 52-42. The winners showed ahead early in the first quarter and were never headed by the Eagles. Erlanger was on top 15-7 at the close of the first period and in the second quarter increased their margin by two points to lead 25-15 at intermission. The home side's best work in the one before them this week proved the Juggernauts 13-9, but trailed 34-28 as the quarter ended.

Johnson, with 19 points, was top scorer for the winners, with Rash collecting 13 markers. Cropper was the offensive star for Burlington with 13 points.

Mark's REMARKS

There were five men in this town this week who would have gladly traded places with anyone—they were the Town Board. These men are servants of our town, with no pay and when a subject like this comes up, they would have to take it, they are definitely "on the spot." We have heard some very severe criticism of these men from both sides since Monday night, and I cannot sit by and see these men "crucified" for a thing they did not start, could not get out of, and had to make a decision one way or the other, according to the evidence on both sides, knowing that no matter which way they voted they would make enemies, possibly for life.

Now these men are all highly regarded citizens of our town, and also the ones YOU ELECTED to do this thankless job, so for goodness sake, do not convict them for doing what they thought was the right and fair thing. I really don't believe that a single man or woman, if they would stop to think, would hesitate to agree that every one of these five men decided the issue from no other thing than the facts in the case, as he saw them.

I think it would be a wonderful gesture for you, as citizens, both sides, to make it a point to pat these men on the back next time you see them, whether they voted to suit you or not, and tell them "there is no hard feelings whatsoever"—and mean it.

Soil Conservation From Across the Fence

By Julian M. Dyer,
Soil Conservationist

Kenton County Soil Conservation
District office at Independence has
been unusually busy for the past
few days. Spring seems to be here,
although we have plenty of cold
weather due yet this spring.

Calls for last minute planning on
seeding grass mixtures has been
flowing in, as well as requests for
terracing and layout work for farm
ponds and lakes.

Some of those interested in seed-
ing pastures when the freezing and
thawing will insure good seed cover-
ing include: John M. Milburn on
Turkey Foot road. Mr. Milburn is
worried over his new lake shores
and dam, where there is no grass
cover. He has some of the best grass
pasture in Kenton county, but he is
bending every effort to get a good
mixture of 2 lbs. Ky. Blue Grass,
4 lbs. Red Top, 5 lbs. Orchard Grass,
1 lb. Yellow Sweet Clover, 2 lbs.
Alsike Clover per acre on these bare
areas. Robert Bell of Piner-Bracht
road is putting out a sizeable dem-
onstration on newly terraced land
which has been practically aban-
doned for years.

Frank Averbach and Joe Blau are
planning to seed meadow fescue
this spring and Mrs. Eugene Getz-

daner sowed several acres of this
grass last fall.

Those requesting layout work for
terraces in the last few days are:
Vernon Lipscomb, Frank Averbach,
Joe Blau, all of the Veterans' Agri-
cultural class and cooperating with
the Soil Conservation District; also
Ben Finnerl, Rudolph Gibson, both
of Nicholson, as well as Dave Shor
and Charles Gift of Ryland Lakes;
Roxie's Tavern of Independence and
Ed Brinkman of Turkey Foot Road.
New Pond and lake requests to the
district office include James Tom-
linson and Mrs. Joe Damal of near
Nicholson; Bernard Goedde of Vi-
salia Road; Arthur Beaverly of
Klein Road, and Virginia Hatfield
of Dudley Pike.

First priority will be given to lay-
out work on terraces and pasture
diversion during the next two or
three months, if favorable weather
continues. Those interested should
contact members of the Board of
Supervisors, Steve Durr, chairman;

FARM, HOME WEEK IN GRANT COUNTY

Grant county farmers and home-
makers showed their progressive
spirit when they recently declared
a farm and home improvement
week. Seven stores in three towns
had special displays emphasizing
the latest ideas in electric pumps,
modern cabinet sinks, water heat-
ers and bathroom equipment. A
feature of the week was a discussion
at the courthouse of farm water
systems by E. S. Holmes of the Col-
lege of Agriculture and Home Eco-
nomics, University of Kentucky.
This was followed by demonstra-

tions in homes of two farmers plan-
ning to install such equipment. The
week's program, said Farm Agent
Robert Hume, was planned as the
beginning of a year-round home
modernization project.

DON'T OVERDO USE OF PLANT-BED FERTILIZER

Forty to 50 pounds of mixed fer-
tilizer, such as 6-8-6 or any other
good fertilizer, is enough for 100 feet
of steamed tobacco plant bed 9 or
12 feet wide, according to J. F. Free-
man of the Agricultural Experiment
Station at Lexington.

On a burned bed, the woodashes
contain potash, which means a low-
potash fertilizer should be used.
"The whole point," continued Mr.
Freeman, "is not to use too much
fertilizer. Where too much is used,
the salts in the fertilizer rise to the
surface in dry weather and may
cause the young plants to die."
In addition to overdoing the use
of fertilizer, some farmers sow too
much seed, Freeman said. This
means crowded and spindly plants,
when stocky strong plants are de-
sirable. He suggested sowing two
or three teaspoonfuls of clean, test-
ed seed on 100 feet of bed. Mixing
seed with woodashes and sand or
fertilizer helps to get on less seed.
The mixture may be dampened
slightly.

Boxing and putting canvas on
beds as soon as they are sowed
were suggested by Freeman. This
helps to keep out insects and tends
to prevent baking and packing of
the soil.

Sprinkling beds with a bluestone-
lime mixture when the first true
leaves form helps to control dis-
eases. Sprinkle through the canvas
and repeat in 8 to 10 days.

More information about plantbeds
can be had at offices of county
agents.

Wild Oats Harvest
Lesson for March 6, 1949

ALL RELIGIOUS teachers of Jesus' time used parables. But the great difference between Jesus' parables and those of his contemporaries, as a Rabbi Klausner says, is that his were remembered and theirs were not. People will remember a story who cannot take in a lecture. Jesus almost never told "wonder-tales." His parables are not in the least like Grimm's fairy tales or Alice in Wonderland. Mostly they are about simple ordinary happenings, and practically always about living people or things.

Dr. Foreman

The Kingdom of God is a kingdom of law, not of happen-so or of magic wands. Jesus was fond of comparing God's Kingdom to growing plants. Every plant is a miracle, it is evidence of God's creative power; but plants do not grow overnight, they grow by the laws which the Creator made in them.

Wild Sowing
AS WE SAW last week, the most important feature of the Ideal World, or of any world, is the quality of the people in it. So most of Jesus' parables were about people, one of the most famous being this one of the "prodigal son." ("Prodigal" of course does not mean wicked or repentant, but wasteful, reckless with money or other things.) You could find many faults in that young man. One of them—the fault that nearly killed him—was that if he had a calendar he never looked at it. If you take a good look at a calendar you will always notice that there is another day after this one—another month, another year. But the prodigal never thinks about tomorrow, only about today. He sows his wild oats because he has fun doing it. He can say "So what?" fast enough but he has never asked the question, "—and then what?" Childish, isn't it? Yet all about us are prodigals old enough to know better.

Some people even argue that it is a good thing to sow wild oats, on the theory that the prodigal gets it out of his system and is afterwards a better man.

Nonsense! Is it better for your education to spend several years learning things wrong? Is it better for a garden to let it grow up in weeds for the first three weeks? Is it better for a man's health to spend his childhood years on a sickbed? That's no more silly than to say that a man is morally better for having been immoral for a while first.

Prodigal Nation
IT HAS even been said that we have a prodigal-son civilization. Our generation is pretty busy sowing wild oats. We waste the natural resources of the earth. Drinking has become encouraged by law and made glamorous by the movies. We spend more on liquor than on schools. More money is spent on a single day's horse-racing at a big track than a whole state or province spends on education in a year. The ties of marriage have grown so weak, especially outside the Christian church, that it has not been long since one American city was boasting that its marriage rate had "caught up with" its divorce rate!

Wild Harvest
THE PRODIGAL son in Jesus' story went wild, but he had to reap his wild harvest first. The modern prodigal, whether individual or nation, seems to misunderstand Jesus' meaning. If God is thought of at all, he is pictured as a benevolent Being who after all doesn't mind our enjoying our little fling. "He will forgive," said Voltaire, "that's his business." That is a total misunderstanding of God.

The Heavenly Father does love every one of his children, yes. But he will not hold back any one who insists on wasting his substance. He will not interfere with the man's freedom even if that freedom is wickedly used.

He will not suspend his own law: "Whatever a man soweth, that shall he also reap." The prodigal will never get back what he threw away. Time that is killed stays dead. The poverty and pain created by personal or national extravagance and intemperance, God will not magically conjure away. Reject Beer Application

(Continued from Page One)

license, that the Board would be perfectly within its rights, as governing body of a city of the sixth class, to refuse to issue license to any applicant. The City Attorney, Mr. Walter D. Vest, did not fully agree with Mr. Ackman's opinion.

The Mayor requested the Board members, city clerk, city attorney, the two ministers, Mr. Ackman, the Commander of the American Legion and their spokesmen, to go to the City Hall, where a copy of the Kentucky Revised Statutes were available, and where a vote would be taken, after the law had been read and opinion given by the City Attorney. The meeting was then transferred from the school auditorium to the City Hall. The majority of the visitors followed.

After reading the statutes, quoted by Mr. Ackman, and also those quoted by Mr. Charles Blackburn, who represented the Legion, the Mayor asked for a motion from some member of the Board to either grant or refuse to grant the American Legion a license to sell beer at their clubhouse on Beaver Road, in the town of Walton.

Mr. Powers Conrad moved that the application for license be refused, explaining that in face of the vigorous opposition that had developed, that he did not feel such a license should be granted. Mr. Conrad went on to say that he did not feel that the sale of beer at retail was necessary to insure the financial success of the Legion, but that he would personally donate as much as any other citizen to the Legion, if they would withdraw their application for a license.

Mr. R. M. Hall voted not to refuse the license, explaining that another license had already been granted that was close to a residential area, and that he was not satisfied that the American Legion Headquarters could be classified as being in a strictly residential zone. Mr. Hall further said that this year, a new board would be elected to take office January 1, and that any decision made by the present Board or any member thereof, could be changed by the ballot within the next several months. Mr. Hall also advanced the opinion that the way was open to vote on local option

any time sufficient support could be found for such a move, and that, in his opinion, the American Legion application was in order, although he thought a mistake was being made by the Legion for continuing their application in the face of the opposition that had developed.

Mr. Frank DeMolsey then voted with Mr. Hall, in opposition to Mr. Conrad's motion.

Mr. Kyle Nicholson voted for the motion, explaining that he had no personal feeling against the Legion, and that it was entirely their affair as to the amount of beer consumed by the members, but due to the opposition that had developed, he could not conscientiously vote to permit the sale of beer in a residential area, when the people in that neighborhood were so obviously opposed.

The vote being tied at two-and-

two, it was up to Mr. Dan Roberts, the Mayor, to cast the deciding vote. Mr. Roberts had previously explained what a "spot" he, as mayor, as well as the entire board, had been placed in, when the application was received, and later when the opposition developed. He had also previously questioned the Commander of the American Legion as to what type establishment would be conducted, and as to how the sale of intoxicants had been handled on New Year's Eve. The Mayor expressed his opinion that the Legion had not performed in the past, as they expressed themselves as being in position to do in the future. For that reason, and also to the amount of opposition at the Board meeting, he voted with Mr. Conrad and Mr. Nicholson to refuse the application for license. So the motion prevailed to not grant license to the applicant.

NYLON-TOP VIRGINIAN GIVES ENGINEERS WIDE COLOR STYLING RANGE

Development of a nylon-over-steel top—an exclusive feature of the new Kaiser Virginian—provided an opportunity for color styling in exterior as well as interior fabrics, says Frank Bart of B. & M. Sales and Service, Walton.

The satiny vinyl-nylon roof material was adapted by textile engineers from the garment industry, where it has been widely used for trench coats, "storm wear" and football pants. It is available on the Virginian in a variety of colors which harmonize with body finishes as well as interior upholstery. The new automotive fabric is applied over padding and a rakish

steel top which is stamped to duplicate the roof bows and the sleek lines characteristic of convertible models.

The fixed steel top also permits use of fine interior fabrics normally practical only in custom sedans. The Virginian thus features the exclusive "furniture" cloths created especially for the 1949 Kaiser Deluxe sedans.

Examples of Virginian exterior color styling include a glass green body in combination with an executive green nylon top; a polar gray body with a turquoise top, and an Indian ceramic body with a black top. Interior fabrics harmonize with each exterior combination.

The blanding of sports and luxury features in the Virginian also is pointed up by such innovations as floor level interior lighting, special chrome hardware and trim, and optional equipment which includes automatic window controls.

Martin county has 12 voluntary fire wardens and one tower watchman to help in controlling forest fires.

In Kenton county, 50,000 cows have been signed up by farmers in 30 local organizations of the Kentucky Artificial Breeding Association.

Jail-Break Prevented At Burlington By Quick-Witted Jailer

Quick-witted action by a 52-year-old jailer who locked himself in a smoke-filled cell with four youths, foiled an attempted break from the Boone County Jail at Burlington.

Sheriff R. I. Rouse said most of the credit for preventing the attempted escape was due Austin Scroggins, the jailer.

According to his report, two Detroit youths, Raymond Felix, 18, and William McWatters, 19, engineered the plans for the jail break. They were in a cell with Floyd Hall, 17, and a juvenile, both of Constance, who were arrested and charged with the theft of a motorbike.

Felix and McWatters were arrested Feb. 23 and charged with breaking and entering New Haven High School. They are under \$2,000 bond each and are being held for Boone county grand jury.

Mr. Scroggins said he was aroused by calls from the cell. When he went to investigate he found the cell and entrance-way filled with smoke.

All four cellmates were yelling to be released. The jailer had opened the cell door and upon entering immediately locked the barred door from the inside.

The Detroit pair commenced scuffling with him in an attempt to wrest the keys from him. Mr. Scroggins threw the keys through the bars into the gangway and commenced to yell to Sheriff Rouse for assistance. The sheriff's home is in the rear of the jail.

Sheriff Rouse came to the aid of the jailer and subdued the prisoners.

Mrs. Rouse Hostess to Literary Club

Mrs. W. O. Rouse was hostess to the Walton Woman's Literary Club at the Walton Methodist Church for the regular March meeting.

Mrs. J. L. Hamilton, president, presided at the business session. The following officers were elected for the ensuing year: President, Mrs. W. O. Rouse; Vice President, Mrs. Harry Chapman; Secretary, Mrs. R. G. Moore; Treasurer, Mrs. John Myers.

FHA Girls Enjoy Field Trip to Cin'ti

The Future Homemakers of Simon Kenton together with girls from the advanced homemaking classes visited the Proctor & Gamble soap manufacturing plant at Ivorydale, and Fashion Frocks in Cincinnati, recently.

The girls boarded a school bus, ably driven by Mr. Criswell, and arrived at Proctor & Gamble's shortly after 10:00 a. m. The large group was divided into three smaller sections so each could have a guide.

He explained the manufacture of soap, flasks, shampoos and crisco making. The girls were impressed with the cleanliness of the plant and how everything is mechanized so that very little work has to be done by hand.

The plant at Ivorydale covers about 130 acres of land and there are about 1,800 employees there. All together, there are about 12,000 employees in this firm. Some of the employees work in shifts, so there is less fatigue at the end of the day, and all employees are on the same bonus system.

From Proctor & Gamble, the bus went to Frische's on the Parkway, where the girls had lunch, and after a bit of lunch they arrived at Fashion Frocks for a tour of their plant.

We were shown how materials are first tested for fading and then how they are laid so that many pieces of garments are cut at one time. Practically all construction is done by high powered machines, and employees are paid by the piece.

There is much in the factory every half hour, as the workers seem to be happier and work better under these conditions. These garments are not wholesaled to stores, but are sold only through Fashion Frocks representatives. There are about 750 people regularly employed in Cincinnati, but the number increases up to 1,000 before Easter. There are two other plants, one in Hamilton, Ohio and one in Tennessee.

The following girls enjoyed and profited from this field trip, made possible by their other teachers and Mr. Hinsdale: Dorothy Masters, Isabel Stahl, Rose Heldeman, Helen Stahl, Norma Mills, Joan Y. Miller, Jane Gibson, Frances Flynn, offit, Rosemarie Elliott, Welda Crockett, Pearl Sargent, Wanda Williams, Wanda Riley, Nellie Barnett, Hazel Works, Mildred Zimmerman, Katherine Maus, Margie Kohler, members of the F. H. A., and Mary F. Heldeman, Ida Collins, Norma Easton, Joyce Armstrong, Wynona Bridges, Jewell Elbert, Norma Armstrong, Viola Neuspickel, Emma Schiller, Carol Triplett, Joan Devon, Kathryn Carmichael, Kathleen Ramin, Jennie Rhodes, Doris Kramer, Betty Obelmer, J. Callett, Barbara Brakfield, Bill Black, and Lena Tomlin, members of the advanced homemakers classes, and Mrs. Gayle McElroy, sponsor of the local F. H. A. Chapter.—Pub. Chm.

Knobole Loop Planned For Boone Area

Organization of a Knobole baseball league in Boone County was under way Thursday under the guidance of Bob Eades, Florence dairyman. Eades intends to have the kid baseball program set up in previously uncovered Boone County on the same scale as in Kenton and Campbell Counties.

Eades expects Boyd Mahan, veteran baseball and basketball player, and a former high school coach, to accept the Boone County supervisor post.

Assisting Eades in the initial organization work are Bob Luke, the Campbell County supervisor, and Bill Otto of the Campbell County Junior Chamber of Commerce. The latter organization is a strong backer of the youth baseball program.

Eades said Roy Brooks, Florence, will assist him in getting the expected dozen Boone County Knobole nines ready for play.

Diamonds to be used are at Verona, Petersburg, Burlington, Bellevue and Florence. Arrangements have been completed for the Boone youngsters to be admitted to Croyle Field on Knobole days.

The Florence Rotary Club is expected to eventually become the sponsoring unit for the new setup.

SALLY BELLE GLORE

Services were held in the Beaver Lick Christian Church, Sunday, 2:00 p. m. for Sally Belle Glore, five-year-old granddaughter of Geo. Glore of the East Bend Bottoms, near Hamilton. The child died of a skull fracture Friday when thrown from a farm wagon, pulled by a runaway team of horses.

Boone County Coroner Robert E. Brugh listed the death as accidental. He said the little girl was riding in the wagon bed with two uncles, Marshall Glore, 27, and Robert Glore, 16, on her grandfather's farm, when they alerted to do chores.

The team bolted when the men were about 50 feet away, dragged the wagon across a gully and dislodged the bed. Sally was thrown to the ground where she struck her head, the coroner said.

The child and her mother, Mrs. Loda Bloss, were living on the Glore farm.

Burial took place in the Beaver Cemetery, under direction of the Chambers & Grubbs funeral home, Florence.

God's Signature

Lesson for March 13, 1949

IN A STRANGE city you may suddenly need to be identified. Some suspicious clerk wants to know if your signature is genuine. It is a fair challenge, for too many liars are in circulation. Jesus himself had to furnish identification. No less a person than his old friend John the Baptist has declared the head of the state hospital (himself a church officer), "What can we Christians get?" Get behind the legislature," he said.

(Copyright by the International Council of Religious Education on behalf of 46 Protestant denominations. Released by WNU Features.)

Jesus wrote no book, no letters even; he wrote in action, and his acts were the handwriting of God. It is important to see where Jesus underscored that writing. It is true, his healings were what we call miracles. But Jesus did not even mention that feature.

What he asked John to notice was simply this: the blind see, the lame walk; lepers are cured, the deaf hear, the dead are raised, and (as a climax) the poor hear good news. The signature of God, in short, is not sheer power; it is using what power one has, to help people in trouble.

NATHANIEL'S EXPRESSION: "needy people," nowadays suggests people who haven't enough to eat or wear. Jesus helped such persons; but he knew well that men's needs go beyond well-cared-for bodies. There was the poor man from the graveyard, for example—he was happy enough. He didn't want clothes, and he was strong enough to steal all the food he could eat. All he wanted, in fact, was to be let alone. But Jesus knew that what he needed above all was a sane mind, a mind no longer run over and trampled by a regiment of devils.

When Jesus got through with him he was clothed, but that was not the best part of it. He was in his right mind. So God's signature is not only written in a sound body, it is in the sound mind. Again, at Jericho when Jesus invited himself to dinner with the pint-sized tycoon Zacchaeus, Jesus did not go just for the meal. He went because he knew that Zacchaeus needed something. Jericho needed, something, too, something only Zacchaeus could give.

We do know that after dinner Zacchaeus was a changed man. He was going to give back every dishonest penny, with interest; and since he could not locate every one he had cheated, he was going to give away half of his holdings for the benefit of the poor.

What Jericho needed was a new administration, any honest one; they needed alum clearance; and Zacchaeus was going to give it to them. But first of all Zacchaeus had needed a new heart—and Jesus gave him that.

We Too
ALL AROUND us is a troubled world. Some men, seeing it, infer there is no God. Others conclude that if there is one, he must be bad or weak. The truth is that the signature of God is not to be found in the evil and the confusion of the world. It is to be seen wherever freedom is standing against slavery, wherever truth is pushing back ignorance, where diseased bodies are being healed, where sanity replaces madness.

More people would believe in God if they could see more of the handwriting of God. Do you want to help?

We cannot always do things as simply as Jesus did. Curing the diseased is not for us a simple matter of saying, Be well. A Christian woman, distressed by what she had learned of the plight of the insane in her backward state, was asking the head of the state hospital (himself a church officer), "What can we Christians get?" Get behind the legislature," he said.

Portrait of a Soul

Did you think a soul was invisible? Did you even suspect that it was a theological concept that only ministers could understand?

Well, look into this boy's eyes! Do you see happiness . . . the certainty that life is full of beauty and truth? Do you see hope . . . the assurance that every tomorrow will be better than every today? Do you see courage . . . the fortitude that will look through defeat to victory? Do you see faith . . . the confidence that God hears, and knows, and cares, and helps?

You're looking into a soul. You're seeing the spark of Himself which God has put into every one of us. And you're seeing it still unblemished by the cares and disappointments of life.

You can see a soul through your own child's eyes. But unless you give that soul a chance to grow up with the body and mind that possess

it . . . soon you'll no longer see it in your child's eyes . . . and perhaps, someday, you'll no longer see it in his life.

The Church, through careful religious education, develops that spiritual inner-being which we call the soul. Your child deserves the advantage of the Church's instruction. And, in church worship, you will rediscover the beauty and strength of your own soul.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, our democracy nor civilization can survive. There are four sound reasons why every person should attend (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

Uncle Sam Says

The smart man knows that the only way to protect his family and himself is with a safe, systematic plan of saving. U. S. Savings Bonds provide the safety and the Payroll Savings Plan or the Bond-a-Month Plan is the systematic way. No one can provide security for the future by free-spending. You can face the future with confidence, however, by investing a part of today's earnings in Savings Bonds. That is the intelligent way. And you have the choice of two convenient plans of purchase, the Payroll Savings Plan where you work or, if self-employed, the Bond-a-Month Plan at your bank.

Organic Matter Builds Soil Tilth, Ups Crop Output

CHICAGO—Pointing out that "no soil is any better than the way it is treated," the Middle West Soil Improvement Committee declared that good management methods are the farmer's best insurance for maintaining high crop yields.

"Soils overworked by constant cropping and underfed by failure to put back plant nutrients, lose their crop-producing energy," says the statement.

The cure for such soil ailments, says the committee, is a well-round-

Loose, Well-Structured Soil is a Better Storehouse for Plant Food and Water.

ed management program. Here are suggested steps:

- 1—Sweeten acid soils with lime, according to tests.
- 2—Use a rotation that balances soil-building against soil-robbing crops.
- 3—Build up the organic matter supply by growing well-fed deep-rooted legumes and grasses. Put back manure and crop residues.
- 4—Feed the soil plenty of plant nutrients in the form of commercial fertilizer carrying nitrogen, phosphate and potash as needed.
- 5—Keep the soil home by contour cultivation, strip cropping and terracing, where necessary.

"Teaming together, these measures will build and maintain your soil," the statement points out.

Help Needed Desperately at Vet Hospital

The Veterans' Hospital at Ft. Thomas is desperately in need of helpers. Ladies, if you are not a member of the Legion Auxiliary, but belong to the Red Cross or any other such organization and are interested and will donate a few hours of your leisure time to this worthy cause, please contact your chairman, who, I am sure, will gladly give you the particulars.

Economy at Veterans' Expense
Economy at the expense of the war veterans will be vigorously opposed by the American Legion Auxiliary of Johnson-McElroy Unit 277.

Describing the curtailment of the Veterans Administration hospital program by 16,000 beds, announced in President Truman's budget message, as an attempt of the Government to economize at the expense of the veterans.

"With approximately 2,000,000 veterans of the two world wars being compensated for disabilities received or aggravated in war service, and when nearly 15,000 veterans are awaiting hospital admission, this seems no time to cut down the hospital building program. Veterans in increasing numbers will need hospital care. Private, city, county and state hospitals are already crowded. If the Veterans Administration does not provide for the veterans, who will?"

"The American Legion and Auxiliary have worked for many years to carry out their policy of adequate veterans hospital beds for veterans. Latest Veterans Administration fig-

ures showed 103,000 veterans being cared for: 35,000 listed as service-connected; 38,000 suffering from tuberculosis, psychotic and neuro-psychiatric ailments, and 30,000 in the general medical and surgical groups. The numbers requiring hospitalization are bound to increase as the insidious ailments contracted in World War II claim more victims.

"Government economy should not start with those who defended the country. The Economy Act of 1932, which deprived so many veterans of compensation, is a blot on America's record of justice to its defenders. The Auxiliary will do everything in its power to prevent repetition. We appeal to citizens of our district, write your Congressman or Senator opposing this act. It may be someone dear to you needing care."—Pub. Chm.

SHORT STORY

The Lucky Prize

By MARION WALLS

FRED slapped the water from his hat, carefully removed his rubbers before stepping inside on the immaculate floor. It was good to be home, to be facing a relaxed evening while the storm slashed the outside world.

"Allie!" he called. The muffled reply sounded like: "where else would I be, but in the kitchen?" Pushing open the door, Fred

smiled appreciatively and kissed his wife. "Apple pie! Hm-mm. The boys home early. But Jack won't be home—they're having some kind of banquet at school."

Allie observed: "It's too bad they have such a bad night for the bingo party."

"Hm-mm. . . . The pie smelled delicious. . . . Apple pie gripped him. "What bingo party?"

Ralph barged in and his mother gave the boy an amused glance. "Your father has the queerest memory. If it were a wrestling match or a ball game—" Looking at Fred: "The bingo party I bought the tickets for last Monday. We have to go tonight."

He hedged. "Why do we have to go? You bought the tickets, that was the main thing they were interested in."

"Best I like to play!" she insisted. "They have the grandest prizes—and you know how lucky I am!"

Thinking of the warmth, the unread magazines, Fred reflected unhappily that Allie might be lucky, but he most certainly was not.

For Fred it was a particularly dull evening. He got no pleasure at all from pushing little wooden squares around on a piece of cardboard, and certainly no material gain came his way. Empty-handed, after two hours of tireless effort, he looked across the room to find Allie triumphantly gathering up a set of glass ash trays and a string of plastic measuring spoons.

"I told you I was lucky!" she crowed, ignoring Mrs. Dierfield who was struggling past her with a set of glass crystal boudoir lamps.

Allie chattered happily all the way home; the rain had stopped and a half moon was struggling to come through the clouds. "Of course, we had plenty of ash trays, but they'll save me the expense of buying something the next time I entertain the club."

As they rolled into the drive Fred saw people standing on their porch. "Gosh—Allie—look! Do you suppose there's been a fire?" He slammed on the brakes.

"Oh, Mrs. Jamison!" That was Mrs. Haggerty who lived next door. "Oh—if you'd been home!"

"What happened? Is it the—the boys?" began Allie fearfully. "It's the phone! The Lucky Number program! They called your number and if you'd been home they were going to give you a thousand dollars! I bet on you door, thinking maybe you didn't hear—"

"No," said Allie, slowly. "We weren't at home tonight." With head high, she marched past into the house.

Fred put away the car. A thousand dollars, just for staying at home, being comfortable! Going in the house, he didn't bother to wipe his feet. Allie was in the living room, the prizes nowhere in sight.

"Luck always hits twice," she said loudly. "Even lightning hits twice in the same place sometimes. Why, some people say what happens once will happen three times. . . . you can't tell, can you, Fred?"

"Nope," he grunted, easing out of his shoes.

Allie leaned forward eagerly. "We'll stay home every night—maybe they'll call again—they could do it, couldn't they, Fred?"

He thought of the happy evenings at home which now confronted him. "Why sure they could!" he agreed heartily. Again: "Sure it could happen again!"

He reached for a magazine, leaned back. He didn't know when a thousand dollars he hadn't gotten had ever bought as much.

Here's Best Way To Store Plant Food 'Til Spring

CHICAGO—Fertilizer bought now can be safely stored on farms this winter and kept in good condition until spring planting time, if farmers follow a few simple precautions, declared the Middle West Soil Improvement Committee in a statement issued here.

"By placing their orders for fertilizer now and taking delivery as soon as they can get it," says the statement, "farmers can be sure of having on hand all the plant-food they need for the 1949 crop season."

"That is particularly important in view of the fact that even with present high production, supplies of some fertilizers may fall considerably short of all needs next spring."

The committee suggests these winter storage rules:

1—Store sacks of plant food only in the barn or some other dry building that has flooring off the ground.

2—If you have to use earth or cement floors, stack fertilizer bags on a crib of blocks and boards.

3—If sacks are of burlap, keep the piles close together. This will reduce the circulation of air from which the fertilizer may soak up moisture.

4—Put no more than 7 or 8 bags in a stack. In high stacks the pressure of the top bags will tend to cake the fertilizer on the bottom of the pile.

5—Keep broken bags separate from the main pile. Loose fertilizer soaks up moisture.

Dr. Baker Named as Commissioner of Ohio Mental Hygiene

Dr. Calvin Layle Baker, superintendent of Dayton State Hospital at Dayton, Ohio, was recently named commissioner of mental hygiene for Ohio. Dr. Baker took over his new duties on March 1st with a salary of \$10,000 a year.

Dr. Baker became superintendent of the Dayton hospital May 1, 1948. For 16 months prior to the Dayton appointment, he was on the staff of the Columbus State Hospital. He was graduated from the University of Cincinnati in 1932. He served for several months at Longview State hospital.

Dr. Baker served 44 months in the Army, caring for psychopathic patients in Army hospitals for nearly two years. He served his internship at Grass Lands hospital at Val Haila, N. Y. He took a psychiatry fellowship at the Institute of Living at Hartford, Conn., retreat in 1940. He is married and has two children.

Welfare Director Lamneck said Dr. Baker's appointment has the approval of principal officers of the Ohio Mental Hygiene association.

Dr. Baker (known to his friends as Layle) is the son of Mrs. Tom Percival, Walton, and grandson of the late Mr. and Mrs. John B. O'Neal. He was born in Lexington, Ky., and resided in Walton, having graduated from the Walton High School in the class of 1925.

The following is an editorial from The Dayton (Ohio) News:

Dr. Baker's Opportunity
When Dr. Calvin L. Baker took the post of superintendent of the Dayton State hospital he told newspapermen he "hoped" he could do a good job of it. The record he leaves behind, after his short term of ten months is one of outstanding accomplishment.

State institutions are notoriously short of funds and short of personnel. The obstacles which faced Dr. Baker here might have led many to throw up their hands in despair. But Dr. Baker brought to his office the most valuable tool in the bag of the general practitioner—a genius for doing the best you can with what you've got.

During those ten months the Dayton State hospital opened its receiving unit for short-term treatments, a project which had gathered dust for many years. An out-patient clinic for the mentally ill was put into operation. It is significant of Dr. Baker's character and outlook that he partitioned his own office in order to make room for what he felt were necessary services.

Dr. Baker has accepted the job as commissioner of mental hygiene for Ohio with the same humbleness he displayed when he came to Dayton. "I hope I am equal to the responsibilities," he said. We have no doubt that he will serve in a manner, far surpassing the merely creditable. Gov. Frank Lausche has made a wise and farseeing choice for the important post in Columbus.

VERONA

Mr. and Mrs. Bernard W. Spaulding were honored by a house warming last Thursday evening. Relatives and friends from Napoleon, Warsaw and Jackson Landing were present, and they received many lovely and useful gifts.

VERONA HOMEMAKERS

The Verona Homemakers' Club was entertained in the hospitable home of Mrs. Stanley Fooks, March 4th, with thirteen members present.

Mrs. Mayro Hayden presided at the business session at which time standing committees made their reports.

Mrs. W. L. Satchwill gave an interesting report on foods, gardens and care of poultry.

Mrs. J. T. Roberts, citizenship

chairman, gave some helpful suggestions and acting on her motion, the club made a liberal donation to the Red Cross, as per usual.

Mrs. J. B. Lamm read an article of a personal account, written by a Kentucky school teacher.

Our Home Demonstration Agent, Miss Mary Hood Gillaspie, gave dates of important meetings for special Homemakers' groups for the month, and a last bit of parting advice.

The month of March will be Miss Gillaspie's last meetings with the Boone County clubs, as she is to be married in the very near future. We regret very much the loss of so valuable and capable a leader, but wish for her much success and happiness.

At noon hour a bountiful and delicious luncheon was served. The hostess had her table beautifully decorated in green streamers, shamrocks and figurine in keeping with St. Patrick's holiday season. Besides

the many other dishes of lovely foods, Mrs. Fooks served turkey and all its "trimmings."

In the afternoon the third and last lesson on hooking rugs was nicely given by Mrs. J. B. Lamm and Mrs. Stanley Fooks. Several rugs are in the process of being "hooked" by members of the club. Mrs. R. A. Stephenson invited the club to meet with her April 1st for the next regular monthly meeting. —Pub. Chm.

Ryland Homemakers

Members of the Ryland Homemakers Club answered roll call with expressing the "Evidence of God," at the March meeting held at the home of Mrs. F. B. Hernes. The business meeting was conducted by Mrs. N. L. Leach.

A brief lesson on the "Making of a Fireside Basket" was given by Mrs. William Damon and she stated that special work shop days on the cutting of needs and making, will be held in the basement workroom of Mrs. F. B. Hernes.

Style Trends leader, Mrs. O. J. Williams, pointed out the most becoming length is still the fashionable one and the new fashion this spring will be in the fabrics.

Mrs. William Dickman conducted the program, assisted by Mrs. John Murchison, reading an article on "Kindness" and Mrs. William Damon read the 91st Psalm.

All members participated in the reading lesson on "Springtime and its opportunities," with Mrs. Damon in charge.

Mrs. Brenton Grant gave the "Shrubbery Lesson." She stressed the fact to improve our lawns by filling up holes and sodding this month.

Citizenship chairman, Mrs. Alice Frakes, read an article "Conservation conservation out Boone Way," by J. C. Acree, describing the different kinds of soil.

Recreation period by Mrs. Dickman proved to be an exciting brain tester game, "What I will serve for dinner."

Others in attendance were: Mesdames W. Bagby, O. Gee, William Heeger, two guests, Mrs. Ralph Lewellen and Mrs. Clarence Armstrong, and Miss Zelma Byerly, the home demonstration agent.

The April meeting will be at the home of Mrs. William Dickman.

Nicholson-Atwood Homemakers

The Nicholson-Atwood Homemakers met at the home of Mrs. Harry Bittner on March 2nd. The meeting was called to order by the president, Mrs. J. R. Loomis. A collect was read by Mrs. Clifford Cornelius. Roll call was answered by "an evidence of Spring." A lengthy discussion was held on the decoration of the Atwood lodge hall as a recreation center. A date was set for the special lesson on "slip covers" to be given by Mrs. Wm. Durr.

At noon a lovely lunch was served by the hostess, Mrs. Bittner, assisted by Mrs. Lloyd Shiller, Bonnie Leslie, and Mrs. Robert Hay, Park Ave., Newport. Eight members were initiated. The history of the founding and naming of Kentucky was given by Mrs. S. C. Fisk. A reading "We Overlook," was given by Mrs. Harry Bittner. Mrs. Robert sang two songs, "I Lost the Roses and Sunshine," and "Somebody Is Waiting for Me."

Poppy Day—1949

Nearly four years now have passed since the last shots were fired in World War II and more than thirty years since World War I reached its victorious conclusion. The world has moved on to face new difficulties, new dangers. Minds are busy with today's problems and tomorrow's uncertainties.

Yet, the dead of those two wars are not forgotten. Their memories have been kept bright all through the years by the little red poppy of remembrance, which Americans wear on "Poppy Day," each year as a personal token of tribute to those who gave their lives for America. Wearing their flower recalls their spirit and gives inspiration for service to the country they served so heroically.

In hospital wards are men and women who are suffering because they defended America, comrades of those who died. The poppy is for them too, also for children of the dead and disabled. Contributions for the flowers help bring to them the things they need for a happy, healthful childhood and a fair start in life.

In previous years, organizations from other towns have sold poppies in Walton. This year, the Legion Auxiliary will conduct the sale, which they hope will be bigger than ever before. Remember each poppy sold, regardless of price, is "helping" someone.—Aux. Pub. Chm.

Piner P. T. A. Meets

The Piner P. T. A. held its February meeting in the school building in Walton. This year, the meeting was presided over by Mrs. Woodie Worthington. All in all it was a very exciting evening for everyone, with the 6th graders being the winners and the 7th graders the winners over the local talent.

The next meeting of the P. T. A. will be held tonight (March 17) with a musical program for entertainment.—Pub. Chm.

State Police Are Given Authority Within the Walton City Limits

At the regular meeting of the Town Council of Walton, last Monday night, the main topic before the assembly was the repaving and building of sidewalks in the entire town.

The group finally decided that the first step should be an inspection of all the walks that now exist and what should be done to them. Councilmen Nicholson and Conrad were named as a committee to do this inspecting and make a report to the Council.

All improvements, as approved by the Council, will be mailed to each property owner affected, and they will be asked to do this repair work under specification. This work will have to be done in a certain designated time or the Town will then have the work done and each property owner, on whose property the work is made or repaired, will be assessed.

The Council asks the cooperation of all owners in the Town in order that this needed work may be done in the most efficient manner.

State Police Invited

The Kentucky State Police were invited to participate in law enforcement in the town limits. This step was necessary in order that the State Police could function more efficiently and that the town may have better protection.

DON'T LOSE SOCIAL SECURITY BENEFITS

Many persons lost social security benefits to which they are entitled because they fail to claim them within the 3-months' time limit prescribed by law, according to Elbert M. Bohon, manager of the Covington office of the Social Security Administration.

The losses occur on all types of benefits that are payable under Federal Social Security Act, Mr. Bohon said, and are generally caused by misinformation obtained from some well-meaning friend. Through the cooperation of the Walton Advertiser in publishing these losses, some progress has been made, but the elimination of such cases is still far from complete.

These losses could be prevented, Mr. Bohon explained, if every worker who had been employed in jobs covered by the Social Security Act would check up on his rights within 3 months of his 65th birthday, regardless of whether or not he is still

working, and if the surviving relatives of workers who have died would contact the nearest social security office within 3 months of the date of the worker's death.

ADMINISTRATOR'S NOTICE—

All persons indebted to the estate of Mrs. Sue W. Pennington, deceased, please settle at once, and all persons having claims against said estate, present them properly proven.

The Unity Class of the Church of Christ met Friday evening with Mrs. Donnie Radford.

Mrs. Pearly Boaz is at the bedside of her daughter-in-law, Mrs. Bronson Boaz, who has blood poison. O. B. Webster and wife were visitors with relatives here Sunday. Always glad to see old friends back again.

Mrs. J. B. VanHorn was in Cincinnati, Saturday, shopping.

The Homemakers met at the home of Mrs. Liza Carlton. Mrs. J. B. VanHorn and Mrs. Jewel Wilson gave a lesson on Arranging Kitchen Furniture, which was very good. All enjoyed the day.

Friday, friends gathered at the home of Robert E. Snow and helped build a brooder house. All had a good day and a fine dinner.

Mrs. Walter Noel drove to Monterey, Saturday to see her half-brother Leslie Chapman, who is very ill.

KENTON

Our Sunday school and church are growing. Sunday, March 6 we had 70 at Sunday school; Sunday, Mar. 13 we had 77. All stayed for morning worship and others came in after Sunday school. Let's keep up the good work and keep bringing others each Sunday. Remember no one can fill your place in the Lord's house.

Our cottage prayer meetings are growing, too. On Friday evening, March 4th, forty met at the home of the pastor, Rev. Frank Lipscomb, and on Friday evening, March 11th thirty-three met at the home of Mr.

and Mrs. Robert Taylor. Each evening was spent in studying the scripture, in hymn singing and prayer. After services delicious refreshments were enjoyed by all.

We meet with Mr. and Mrs. Albert Sharp, Friday evening, March 18th at 8 o'clock. Come and worship with us.

A cordial welcome awaits each and every one at Kenton Baptist Church. Watch for our church bus. If you haven't a church home, it will bring you to a church home that loves and welcomes all who come.

PURINA TURKEY
STARTENA

CHECKER-ETTS

Purina Research tests proved it — then last year, local turkey raisers found that Checker-Etts help keep more poult alive — made them grow faster.

THE FORM — is part of the reason. Poults take to Checker-Etts quicker and like them better. Fewer poults "starve to death" before they learn to eat. And the whole batch grows faster because they eat more feed.

THE FORMULA — does the rest. The Purina Turkey Startena Checker-Etti formula is balanced and blended scientifically for life and growth. This year, start your poults the Purina way. See us about the Checker-Etts — just 4 lbs. per poult does the job.

Leadership School

Lesson for March 20, 1949

IT TAKES more than a call of God to be a Christian leader. It takes study. It takes work. The call is necessary, of course, but it is not all. Jesus set the church an example here as always. He called his Twelve, but he was not so foolish as to think that just because he had called them they were all ready to go out and take the lead. Jesus put them through what may be called the first Leadership Training School in the history of the Christian church.

Who Was Enrolled?
THE TWELVE Apostles were the training class. Not all Jesus' disciples were equal to it; perhaps some of them actually did not have the time. But these Twelve had already been set off from the others, not because they were better men, but in order to do more direct service in Christ's name. There was nothing formal about Jesus' training school.

It met wherever he was at the time—in a house, or by the roadside, or on a hill-top. There were no set hours, no textbooks, credits or diplomas.

Jesus kept it going to the very end, for even after the Resurrection, as Luke tells us (in Acts 1) he was still teaching his Twelve.

What Did They Study?
THERE WAS no printed circular, no bulletin, no prospectus or catalogue. All the "courses" amounted to just one thing: learning to do what Jesus was doing. To this day, that is the aim of all Christian training. Mark and Luke mention at least four things Jesus' training school students learned from him: preaching, healing the sick, feeding the hungry, and praying. It would not be quite true to say that part of what they learned was spiritual and part practical, for there is nothing more practical than praying as Jesus taught it, and Jesus never ministered to people's physical needs without touching their spirits too.

Many a person now in some hospital for the insane need not have gone there if he had the help that a well-trained minister can give.

Ministers today are not taught how to perform miracles like the feeding of the 5,000; but knowing that people's physical well-being has a great deal to do with their spiritual welfare, the alert young Christian minister of today will be keenly interested in Christian social action.

How Did They Learn?
THE TWELVE learned by doing. It is the only way you learn anything of a practical nature. Memorizing a textbook, memorizing rules, is not learning. You have learned how to do a thing only when you can do it. Of course you have to see it done, first. A boy on the farm learns to be a farmer by watching his father and helping him, more than from school courses in agriculture, useful as they are. There is nothing to take the place of apprenticeship under one who knows. So Jesus' Twelve watched him, listened to him, helped him, before they were trusted on their own.

Will It Still Work?

THE METHODS Jesus taught are just as effective today as they ever were. Not all churches nowadays follow his line to the letter; in fact, most churches do not. But the basic principles which Jesus drilled into his first traveling representatives are still good. One is faith.

Missionaries in the 20th Century are required to take a great deal more equipment with them to their fields than one pair of shoes, one cane and an empty purse. Yet who can deny that any missionary of any church in China or in Korea today, must live by faith from day to day?

Another of Jesus' principles was direct contact. People are not won to Christ chiefly by sermons from pulpits, but by in-home contacts. Ministers know this, missionaries know it; Sunday school teachers ought to know it too. Getting acquainted with your boys and girls at their homes, and being a friend to them there, is what will give your Sunday teaching its greatest force and success.

THE STRENGTH OF THE CROSS

The Cross of Christ has survived the ages. It has stood the test of time; it has weathered the storms of adversity and oppression—always triumphantly.

This gives men hope. For life travels in a strange cyclic pattern of births and deaths. Little in human relations is intelligible, little shows progress. Nations rise and fall, battles are fought and won, only to be reenacted time and time again across the stage of history until the whole scheme of life seems meaningless and futile.

But always there is the Cross! Whether it be of massive stone or delicate gold and silver, still it gives men that courage and purpose which are so necessary for successful living in this perplexing world.

You can find this strength of the Cross in your church. Plan to attend worship services next Sunday, and bring your family and friends.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the sake of his community and nation. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

New Plymouth on Display

Plymouth's new special deluxe four-door sedan (above). Throughout the new Plymouth line beautifully streamlined bodies are lower and narrower, seats are wider and headroom greater. At the same time overall exterior dimensions are reduced, but wheelbase has been lengthened to 118 inches and glass area is increased. Horsepower is raised to 97. Although fenders flow gracefully into the body they are detachable for ease in repair.

New Plymouth Features Beauty, Performance, Safety and Comfort

The new line of Plymouth automobiles, with outstanding mechanical improvements and up-to-the-minute styling, make their appearance in dealer showrooms here and throughout the United States, Friday, March 18th, according to C. S. Vallandigham, Earl M. Ayler and Walter Scott-horn, Boone County dealers.

Completely redesigned and streamlined, the new Plymouth contains a 97-horsepower engine which is smoother, livelier, and more economical. Other changes make notable contributions to beauty, safety, and passenger comfort.

Wheelbase has been increased for a better ride and more road stability but at the same time the over-all length has been reduced for ease of handling. Although lower and narrower, the new bodies provide greater interior room for passengers. The car's appearance reflects a complete change from last year's models. The Plymouths may be seen at the Walton Garage, Walton; the Hebron Garage, Hebron; and at Scothorn Motors, Idlewild.

Designers have achieved a "common sense" streamlining in which ease of handling, safety and comfort have received strong consideration. Fenders which blend perfectly into body lines are nevertheless separate and detachable, thus avoiding sheet metal masses so costly to repair or replace.

Increased visibility is provided in the windshield which is 37% larger and the rear window which is 35.4% larger. Windshield wipers clear 61.5% greater area.

Sedan seats are wider and deeper, both in front and rear. The width of both cushions has been increased (5" in front, 6" in rear—front seat width 56", rear seat width 57") with panels and arm rests so located as to take maximum advantage of the interior space. Rear seat room in the Club Coupe has been increased to the equivalent of the Sedan. There is more head and leg room in the Sedan rear seat.

The new Plymouth line includes nine distinct automobiles. There are four special deluxe and two deluxe types on a 118-inch wheelbase, one inch longer than last year's. In addition, Plymouth will build three deluxe

models on a brand new 111-inch wheelbase. This wheelbase consists of a two-door sedan, three-passenger coupe, and a new body type, the Suburban.

Available on the 118-inch wheelbase will be a club coupe and a four-door sedan in the deluxe series, while the special deluxe group will include both the club coupe and four-door sedan in addition to a convertible club coupe and the station wagon.

Engine performance and efficiency has been improved with a new design cylinder head which increases compression ratio to 7 to 1. A new chrome plated compression piston ring reduces the cylinder wear and provides greater protection during the break-in period. There are improved oil rings for greater oil economy, while a newly-designed intake manifold induces quicker, and smoother engine warm-up and produces faster response to throttle opening.

The longer wheelbase allows a "cradle ride," as passengers are more nearly centered between the axles. Another contribution toward smooth riding qualities is the addition of diagonally-mounted shock absorbers at the rear of the car, greater rebound control in the front shock absorbers, and the newly designed rubber limit bumpers. The new shock absorbers also allow greater road clearance and reduce sidesway.

Interior design of the Plymouth provides many driver and passenger comforts and conveniences. Sedans have the rear door hinged from the center post for easy entrance and exit. The seats, front and rear, have a 3-pillow cushion while seat backs have a full pillow on each side and three vertical pipes in the center. In addition, leather kick pads are carried around the seat bases and on the door base. New, more rugged window regulators close or open windows with half the number of turns formerly required. Instrument panels with a new grain finish have been redesigned and relocated for ease in reading gauges. The glove box latch has been improved for more easy opening. A new and easily operated vent window lock has been designed to reduce theft of articles from parked cars, and

the ignition cable has been heavily armored from the ignition switch through to the engine compartment as a safeguard against car theft.

A new automatic electric choke of the same type used on other Chrysler Corporation cars, has been added. Among the outstanding innovations is the combination ignition and starter switch which completely eliminates the starter button. The car starts by turning the ignition key slightly beyond the "Ignition on" position. When released, the key automatically returns to "Ignition on" position. The device is not only a driver convenience, but makes it impossible for children to move cars which are parked and left in gear by accidentally pushing the starter button.

A new fresh air car heater, which steps up defrosting and more readily removes window fog, is available in three models. Located under the hood, the new heater operates quietly and is easily installed. It may be used in warm weather as a fresh air circulator.

New seat cushion construction allows the addition of extra spring coils to reduce the softness of the cushion and to provide greater support, if needed. There are numerous improvements in the new Plymouth's electrical and lighting system. Headlights equipped with built-in lens in the center of the sealed-beam lens provide substantially increased light output. Plastic lenses have been installed in the stop, tail and parking lights. The lenses are more resistant to breakage, and provide better sealing at points where dust and dirt might enter. A new enclosed circuit breaker, interchangeable with those used on other Chrysler Corporation cars, eliminates the need for replacing lighting system fuses.

The addition of a 100,000 ohm suppressor permits the use of a larger initial spark plug gap, resulting in improved idling and low speed, light load performance. The push-pull type switch for headlights, panel lights and heater has been replaced with rotary-action, dust-proof switches and a new magnetic-type fuel gauge gives immediate reading when the ignition switch is turned on.

Annual Summary of Kenton Soil Cons'tion

(The Board of Supervisors of the Kenton County Soil Conservation District pauses to honor the memory of Frank D. Cooke, Secretary-Treasurer, deceased during the year)

The district is winding up its 7th year, coming close to the 400 mark (392) in total farms covered by a soil conservation plan, looking to the future for a complete farm plan of soil and water conservation based on the proper use of each acre of land on the farm.

Through the activities of the Kentucky Division of Soil and Water Resources, funds have been supplied to our board for the purchase of a new two-disc terrace plow on rubber for rental to cooperators in an effort to make it possible for every

farmer to construct his own terraces with his own tractor at a small rental cost. This plow is expected to be received in time for the spring terracing season. The district has had such other terrace equipment as terrace discs to be attached to Ford tractors which have been helpful to Ford owners but were not of benefit to others. Terrace lines are laid out by the technician with the help of the farmer.

Speaking of terraces, our district has stressed terrace construction much more in 1948 than in previous years. The statistical report for '48 shows there were 10 miles of terraces actually constructed in the year, where in the six years previous, only 13 miles had been constructed.

With the help of the district, 74 farm ponds were constructed, while in the previous six years there had been an average of 64 ponds constructed each year. Other activities accomplished by the district included 1169 acres contour tilled, 2215 acres of cover crops, 2980 acres of pasture improvement, 55 acres of woodland management, 2469 acres of crop rotation, 52 acres of water disposal areas established or protected for spilling terrace water, and 1962 acres of alfalfa and grass mixture seeded. These accomplishments were on the 34,293 acres covered by the 392 cooperating farms of the district.

The conservation program has been encouraged this year as in the past by the Louisville Courier-Journal and The Louisville Times and radio station WHAS through the Tom Wallace Soil and Water, Forest and Wildlife award. A number of our cooperators entered the contest and showed remarkable programs in accomplishments for the year. Fred Kahman won the county award.

Close cooperation of the Vocational Agriculture Department and the G. I. veterans class has allowed us increase our service in the district, since each veteran farmer is encouraged to line up with the district under a conservation program. The county committee and office force of the Production and Marketing Administration have given every cooperation to the board. The three members of the county committee are also members of the Board of Supervisors, a very healthy situation for cooperation. The County Agent has assisted from time to time in serving on committees and in other cooperative phases of the work.

The county bankers association has cooperated in publicity for field days sponsored by the district and the Fifth Congressional District Boards of Supervisors have added much as did the Division of Soil and Water Resources of Kentucky in sponsoring and promoting the big scale Caravan over the state, the first stop and face lifting demonstration being in our neighboring county of Boone. The various farm machinery equipment companies of Kentucky and neighboring states contributed greatly for the success of the field day.

To be specific as to accomplishments for the year, the following

activities are representative of the work:

George Wolsing, Jr. of near Independence has been cooperating with the district since 1943 in conservation work. He terraced an additional field this year and he states he wants every acre of crop land on the farm terraced as soon as possible.

Robert Beil of Pliner-Bracht road has recently started a carefully planned pasture improvement program in connection with his conservation plan. As a client of F. H. H. they too are lending help.

Emil Steln of Staffordsburg community has this past year developed his second spring with a walled spring box piped to a concrete watering trough with a capacity of 330 gallons. This is near his dairy barn and his cattle can reach it easily from the barn.

Herman Wesselman of Turkey Foot road constructed a nice farm pond this year with our help and piped the water to his 1000 hen poultry house and to his cow barn at the turn of a cut off by gravity flow.

Amos and Raymond Perry of Kleet road have both laid out and constructed new terraces this year and constructed new ponds on new lands they have acquired.

Robert Scott, fruit grower, of near Ludlow has continued to terrace his farm which has been badly gullied in parts but he is determined to never plant another acre to fruit or berries until that acre is terraced. Reports of other cooperators were given in the Advertiser on February

17th and 24th. Kenton Soil Conservation District, Board of Supervisors, S. W. Durr, Chairman.

4-H, Utopia Fair Dates Aug. 12-13

The Boone County 4-H and Utopia Council at their meeting last Friday night, set the 1949 fair dates for August 12th and 13th. After much consideration, the council found that there was no way to avoid a conflict with other fair dates.

The council decided to continue with the building program this spring and summer. Plans have been made to build new rest room facilities and a roof for the grandstand.

The council authorized continuation of the practice of groups holding picnics at the fair grounds during the summer. Each group will be asked to pay a set fee for hiring someone to clean the grounds after the picnic.

Babies' Alumni Organized at Booth Memorial Hospital, Covington

Organization of a Babies' Alumni, open to all babies born at the William Booth Memorial Hospital, since its inception, has been announced by J. Wayne Rusk, Jr., chairman of the hospital's advisory board.

The Babies' Alumni, although very successful in the East, will be an entirely new venture in this area, Mr. Rusk said.

The primary purpose of the alumni will be to provide for good fellowship among all Booth babies and a corresponding closer relationship between the babies and the hospital. The dues, which will be \$1 per year, will be used to provide for special improvements in the hospital's maternity ward and for the extension of free maternity care when needed.

"We're organizing our Babies' Alumni on the assumption that all our little ones have a common bond in that they all had the same first home upon coming into this world," Rusk said. "Aside from the sentimental attachment involved, we feel that the parents of the babies will enjoy the opportunity to help provide, in a small way, certain necessary improvements for the hospital."

Each alumni member will receive a birth certificate bearing a picture of the hospital, and each succeeding year in their membership they will receive greeting cards on their respective birthdays.

As soon as the organization is well under way, social activities, teas or an open house, for example, will be planned to bring the alumni babies and their parents together.

As the first step in the alumni organization, invitations bearing a cut-out of one of Booth's babies will be sent to the infants born at the hospital in 1948 and 1949. All new babies born at the hospital all will be invited to enroll.

It is hoped, Rusk added, that babies born prior to 1948 will not wait upon an invitation to join the alumni. "The more the merrier right in the beginning," he said.

"Our membership gets to a high point, the quicker we can arrange a party."

A total of 8,039 babies have been born at Booth Hospital during the past 10 years.

All parents desiring to enroll their babies in the alumni are requested to send in their dues to R. D. Martin, public relations director, Booth Hospital, Covington.

Xmas Seal Sale Report For Boone Co.

The amount contributed in the sale of Christmas Seals and Bonds for Boone County has reached \$2200 with some still coming in. Walton led in the sale of Bonds, as usual.

The Boone County Tuberculosis Association and the Seal Sale Committee—Mrs. Sibilla Reimer, Mrs. C. L. Cropper and Miss Elizabeth Lowry, sincerely wish to express appreciation to the people of Boone County, especially those who worked long and hard getting letters and seals ready to mail. The response has been generous. This provides for a good Tuberculosis program throughout the year. Boone County seems to have had the highest per capita Seal Sale in the state.

A free chest X-ray Clinic is scheduled for April, 1949. This is for the entire county. The exact date and places clinics are to be held will be announced as soon as possible. The State Board of Health advises a chest X-ray at least once a year.

The county nurse visits regularly known cases of tuberculosis, suspects and contacts, trying to teach prevention, nursing care and providing needs.

Boone County Tuberculosis Association sees that persons who should have sanatorium care and want to take the cure, may do so. This is regardless of the patient's financial circumstances.

Members of the organization and workers are all volunteers, with no financial reimbursement.

Program Is Planned

The Verona Community Club has planned an interesting program for its meeting on Tuesday, March 29, 8:00 p. m. at the Verona school building. Aux'y Backs Legion's Plea For Pensions

Efforts of the American Legion to secure old-age pensions for veterans of both World Wars are receiving full support of the American Legion Auxiliary, Johnson-McElroy Unit, 277. Congress is now considering a bill to provide pensions of \$30.00 a month for veterans reaching the age of 65.

The Auxiliary work for needy veterans and their families has shown us the necessity for protecting, in their old age, the men who defended America in their youth. Many veterans are now reaching an age at which it is difficult, or impossible for them to find employment, and unless the nation they served comes to their rescue, they will be facing an old age poverty and dependency on local aid.

How the Poppy Became Memorial Flower of America's World War Dead

The idea of wearing the poppy in tribute to the war dead sprang up as naturally as the little wild poppies grow in the fields of France and Belgium, where so many men of many nations gave their lives in the two World Wars.

The poppy was the one touch of nature's beauty which survived the devastation of the battle front and the only flower which grew around the battle graves.

First expression of the idea was voiced by the poet, Colonel John McCrae, when he wrote: "In Flanders fields the poppies blow—Between the crosses row on row—Even before the end of World War I, poppies were worn in honor of the dead. With the return of the troops from France, the custom sprang up in widely separated parts of the United States. Poppy day was first sponsored by the American Legion in 1920, and that year the poppy was adopted as the Legion's National Memorial flower.

Now, more than 25,000,000 crepe paper replicas of the Flanders fields poppy are made every year by disabled veterans working under the direction of the American Legion Auxiliary and are worn throughout the nation to pay tribute to the dead of both wars. Contributions given in exchange for the poppies are used in Legion and Auxiliary work for the welfare of the disabled veterans and of needy children of veterans. Poppy Day will be sponsored in May by the American Legion Auxiliary, Johnson-McElroy Unit, No. 277.—Aux. Pub. Chm.

Tobacco Plant Bed Managem't Discussed

The preparation of tobacco plant
beds is foremost in the minds of to-
bacco growers as spring approaches.
The selection of the plant bed site,
fertilization, seeding and variety se-
lection are of utmost importance,
according to Bill Davis, County Agt.

Fertile, well drained land, with a
southern or southeastern slope, free
from shade are points to consider in
selecting the place for a plant bed.
Use a new place for the bed each
year. This is a great help in pre-
venting black root rot and blue
mold. Be sure the ground is free
from bulletnites and ground cher-
ries, as these plants may carry
mosaic.

The grower should always select
disease resistant varieties. In most
upland soils in the county black root
rot and mosaic are the two diseases
most growers are concerned with.
Varieties resistant to black root rot
are BB-14, Ky. 16, Ky. 19, Ky. 22, Ky.
24, Ky. 41-A, Ky. 52 and Ky. 56. Ky.
52 and Ky. 56 are also resistant to
mosaic. In river and creek bottom
soil where fusarium wilt is a prob-
lem Ky. F-17-A is the best variety.

After the bed has been burned a
low potash fertilizer should be ap-
plied at the rate of 40 pounds per

100 feet of bed. Heavy fertilization
of plant beds may cause the plants
to yellow and die in dry weather.

Seed should be sowed at the rate
of 2-3 level teaspoons for each 100
feet of bed. The bed should be box-
ed tight to keep out flea beetles and
cutworms.

Plant beds should be treated with
bluestone-lime to control wildlife
and leafspot. When the first true
leaf appears on the plant the first
application should be given.

Repeat the treatment in 10 days.
The bluestone-lime mixture is made
by mixing 3 pounds of bluestone
(copper sulphate) and 4 pounds of
lime (not agricultural limestone) in
50 gallons of water. Fifty gallons
will treat 200 feet of 9-ft. bed. The
mixture can be applied through the
vases.

To control mold the beds
should be sprayed twice a week and
after every rain from the time blue
mold is first reported until setting
time. Use three level tablespoons
of fermate to one gallon of water
and apply 4 to 6 gallons of spray per
100 feet of bed.

To control cutworms use one part
paris green, 25 parts of bran and
mix in enough water to make a
moist mash. Sprinkle the mash
thinly over the bed in the late af-
ternoon.

To control flea beetles dust the
bed with 1% rotenone at the rate of
1/2 pound per 100 feet of bed.
When setting and resetting is fin-
ished destroy the plants in the bed
to keep down insects and help pre-
vent the spread of diseases.

STAFFORDSBURG

A big day at last, Sunday!

We had our furnace in operation. Come and visit us, we will welcome you and invite you to make this your church home. Community spirit is fostered, and community pride enhanced if we all work together to build the kingdom of God among us!

We are very glad that Charles Losey is steadily improving. They had as guests on Sunday, Mr. and Mrs. William Summey.

Mrs. Betty Rapp entertained her bridge club on Wednesday of last week. Those present were Mesdames Helen Ellison, Lucille Deltgen, Hazel Miller, Mary Hanser, Genevieve Bowman, Lorena Connelley and Auburn Belew. A pleasant afternoon and delicious refreshments were enjoyed by all.

The Homemakers club meets on Tuesday with Mrs. Stella Richardson.

Mrs. Dawson Losey, well known in this neighborhood, is convalescing from a recent operation. She returned to her home Sunday. We wish her a speedy recovery.

Mrs. Tina Oetzel was much surprised Sunday when her three sisters and one brother and several nieces and nephews came to celebrate her 81st birthday, at the home of Mr. and Mrs. J. A. Keeney. All brought delicious dishes for the noon meal and also many nice gifts. Among those present were Mrs. Nellie Pinguely, Mr. and Mrs. J. B. Smith, Mr. and Mrs. Kirby Smith, Mr. and Mrs. M. B. Baker, Mr. and Mrs. Howard Bryan, Misses Alma and Mary Stephens, Layton Baker, Larry and Shirley Bryan, Mr. and Mrs. Keeney and son Donald. Each and all wished Mrs. Oetzel many happy birthdays.

Miss Zelma Byerly is vacationing in Florida.

Many in this neighborhood, where he was well known, noted the passing of James McDanold. All of his life except the last few years, when he was a patient at a nursing home in Cincinnati, was spent in Kenton county. He was for many years a farm machinery salesman, therefore well known. He would have been 89 on Thursday and had been married 62 years ago on Wednesday to Miss Mandy Lamb, who preceded him several years ago to the great beyond. They were the parents of

two daughters, Mrs. Emil Nehring and Mrs. Chester Hill, also three sons, Roy, Hving, and William, who died recently, and Hubert, who passed away many years ago. When our loved ones are spared to us so long, we should not mourn, but wish them God-speed.

Mrs. Anna French called on Mrs. Corine Rider, Sunday afternoon. Mrs. Gilbert C. Beall and baby last week with her aunt, Mrs. Helen Denier and son and grandmother, Mrs. Lula Sisson.

CARD OF THANKS

I want to express my sincere appreciation and heartfelt thanks for the kindness shown me during my husband's death. I want to especially thank Rev. DeMoisey for his consoling words, the donors of the beautiful floral pieces, those who furnished the music, those who prepared the grave, Chambers and Grubbs for the efficient manner in which the services were conducted, and everyone who assisted in any way.

MOLLIE DAVIS.

CARD OF THANKS

We wish to thank each and all who assisted us so willingly during the illness and death of our beloved husband and father, Charles Elworth Densler. Especially do we thank Fred Hamilton for the way he arranged the funeral; for the beautiful flowers, and Rev. R. A. Johnson for his consoling words, and the pianist. Your kindness will always be remembered.

CHECKER-ETTS

Purina Research tests proved it—then last year, local turkey raisers found that Checker-Etts help keep more poult alive—made them grow faster.

THE FORM—is part of the reason. Poults take to Checker-Etts quicker and like them better. Fewer poults "starve to death" before they learn to eat. And the whole batch grows faster because they eat more feed.

THE FORMULA—does the rest. The Purina Turkey Startena Checker-Ett formula is balanced and blended scientifically for life and growth. This year, start your poults the Purina way. See us about the Checker-Etts—just 4 lbs. per poult does the job.

The Race Question

Lesson for March 27, 1949.

JESUS DID NOT know there was a race question. That is to say, there was no question for him, though he well knew that his neighbors found the race problem a hot one. All the germs of any race problem, even of race riots, were there in Palestine as in all of our world today.

First there was the feeling of racial superiority. Few, if any, peoples think of Dr. Foreman themselves as an inferior race. Nobody would mind being kicked around if he thought he deserved nothing better. The Jews, to which race Jesus belonged, were no exception to the rule. They felt themselves the superior of any race on earth.

Two Sides of the Question

IN JESUS' time the Jew of Palestine was in the middle. The Romans, having conquered the land, were top-dog in Palestine. With the Romans, the Jews saw the under-side of the race question. But there were other races, much less pure than the Jews, races called "Canaanites" for want of a better name. These people were kicked around by the Jews, just as the Jews in turn were kicked around by the Romans. Looking at the Canaanites, the Jews saw the race question from the top side.

In Palestine the wounds of race quarrels were made worse by the vinegar of religious differences. In those days it was taken for granted: Different race, different religion.

Jesus' neighbors and relatives in Nazareth, like most Jews, supposed that God would favor only the "chosen people," namely themselves. So the Jew's resentment toward the Romans above him and his contempt of the Canaanites beneath him were made more bitter by his conviction that they would all end in hell except his own race.

What Jesus Did About It

THE TWO STORIES in our lesson (see the Scripture references) show the astonishingly simple way in which Jesus walked straight through those walls as if they did not exist. He passed no resolutions, denounced nobody; he simply treated all races alike. He helped the Roman army officer and the Canaanite woman precisely as if they had been Jews. By the way, his remarks to that woman should not be misunderstood as rude. She did not take them that way. He spoke to her, we may well believe, with a smile, and she took him with equal good humor. Jesus appreciated faith wherever he found it.

He was the last person to fancy that all human beings are alike. But he was the first to give all an equal chance. He took people as human beings, not as "Romans" or "Canaanites."

He neither cringed to the Romans nor bullied the Canaanites. He looked at all men and women with level eyes, seeing not their skins nor their clothes, but their hearts.

What We Can Do

OUR NORTH AMERICA is also criss-crossed by walls of prejudice—racial, political and religious. In Canada (for example) there is

the friction between Canadians of French and those of English or Scotch descent; in the United States (not by any means confined to the South) between Negroes and white people; or between Japanese and white people; and recent immigrants; and so on. Those walls look pretty solid; but a Christian will find that if he follows Jesus' example he can walk right through them. Last winter a national interdenominational organization challenged its 28 million members and through them the Christian world, with one of the most sweeping declarations of human rights ever drafted by an American church body.

Hitting at every type of discrimination—racial, political, social, economic, religious—the group has challenged the Church to work for the creation of a non-segregated society "as proof of their sincerity."

Yet the real breakdown of human prejudices, hatreds and contempt, with the injustices growing out of these, does not come at one stroke by resolutions. It comes only by degrees, as Christ-inspired individuals make their own bright doorways.

Most people, at some time in their lives have found themselves in the predicament of this little boy. He has been caught red-handed raiding his mother's jam. His offense is not unforgivable, but he is learning the hard way that people's sins find them out.

Guilt and fear have dogged man's footsteps throughout the ages. They are the greatest of all enemies of human happiness.

Wise people endeavor to live in such a manner that they have a clear conscience with no feelings of remorse and with nothing to fear. Religion helps a person to live that kind of life.

The little boy in the picture must be taught that a good conscience is better than jam. He must learn to put truth, honesty, and right above mere appetite and pleasure.

Religion, as embodied in the teachings of the Church, banishes guilt and fear and promotes happiness and peaceful living.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For the sake of his community and nation. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Sunday ... Numbers 32:20-24
Monday ... Psalms 130:1-8
Tuesday ... Matthew 6:9-15
Wednesday ... Luke 17:1-4
Thursday ... Psalms 119:137-144
Friday ... Romans 12:11-21
Saturday ... John 14:23-27

SO EASY, IT'S

CHILD'S PLAY

...to wash the **AUTOMATIC ELECTRIC WAY!**

Yes, even little sister can do the washing with an automatic electric washer.

She simply puts in the soiled clothes and soap, sets the controls and the washer does the rest. All by itself, it cleans the clothes thoroughly, triple rinses them in clean water and spins them damp dry. It even drains itself and shuts itself off when the clothes are ready for the line.

You'll be amazed at how easy it is to wash with an automatic electric washer. And it costs so little to operate that a few cents worth of electricity will do an entire week's washing. Ask for a demonstration today!

Watch For Poppy Day-- Says Auxiliary

The Memorial poppy worn on Poppy Day each year in honor of America's war dead, aids the war's living victims. Poppy Day contributions make up a large part of the financial support for the Auxiliary's rehabilitation and child welfare activities. When the Auxiliary finds a veteran or a veteran's family in need, those poppy contributions go into action to provide aid. During the past year, aid was supplied to many veterans and their families.

Illness of veterans is one of the major causes of distress which the Auxiliary relieves with its poppy funds. When the veteran is forced to go to a government hospital for treatment, often his family is left without means of support. Even if he is eligible for compensation, time is required to establish his claim, and a hungry family cannot wait. The Auxiliary must be ready to give emergency aid, and on Poppy Day we invite the public to help us carry out our work of mercy and relief. All Poppy Day workers will be unpaid volunteers and all money contributed for the flowers of memory goes into the rehabilitation and child welfare funds, none being used for organization overhead.

Watch for date of Poppy Day—Aux. Pub. Chm.

Leaders Stress Importance of Farming as a Business for The Youth of America

E. R. Mitchell, General Manager of the Union Light, Heat and Power Company, emphasized the fact that young farmers are engaged in the biggest business in the whole United States, in a speech made at the banquet of the Northern Kentucky District Utopia Conference, held at the Summit Hills Country Club, on Saturday, March 26th. Eighty-eight persons from Boone, Campbell, Gallatin and Kenton Counties attended the Conference.

Mr. Mitchell said, "young farmers are the businessmen upon which the whole economy depends and it is the spiritual life that surrounds this business that makes it possible to increase production. The economic life is tied in and inseparable with the spiritual life. We are living in a tremendously important age and a state of confusion in fundamental philosophies that could only be solved through strong adherence to our fundamental religious beliefs. With the increase of spiritual life we thus increase our economic life so that we may live in harmony with man beings in peace and harmony."

Robert Scott, president of the Northern Kentucky Utopia District, was in charge of the business meeting. The following officers were elected for the coming year: Charles Hatcher, Campbell County, president; William Barnes, Kenton County, vice president; Pat Scott, Boone County, secretary; Directors, Bob McCann, Boone County, Ann Mac Seiber, Campbell County, Mrs. Mary Katherine LeGrand, Gallatin County, and Earl Foltz, Kenton County. It was voted at this meeting to hold the District Conference in Campbell County in 1950, during the month of March.

T. R. Bryant, Assistant Director of Extension, University of Kentucky, spoke to the young women's section and discussed the projects which he said that these programs should consist of discussions or papers on some phase of agriculture or home economics, or pertaining to the personal improvement or community affairs. Group singing, story telling and traditions should be included, after which the social hour would be part of each meeting.

Dr. D. M. Seath, Head of the Dairy Department, University of Kentucky, spoke at the young men's section. He emphasized improved breeding by better sires and through artificial breeding, that our purebred breeders have a great challenge in improving dairy herds, that cows can manufacture many vitamins and protein building bones and that we need better pasture and improved varieties of grasses, legumes and fertilizers, also more and better hay and silage.

C. C. Caldwell, 4-H Agent in Hamilton County, Ohio, was in charge of the recreation for the conference, which included folk games at the close of the banquet.

INTER-CLUB COUNCIL

The Y-Teen Club of Walton led the worship program Saturday at the Northern Kentucky Y-Teen Inter-Club Council meeting to Covington.

Two Y-Teens from Holmes led the group singing. Special selections were presented by members of the Bracken County High School Y-Teen Club, Jeannette of Hicksville, and Joan Megerie of Simon Kenton.

A humorous skit by members of the Carrollton club, was of special interest. Miss Lillian Davis read a summary of Y-Teen activities during the year. These activities presented new ideas for club programs, parties, money-raising aids, and projects for helping those in need.

Representatives from each club met with Miss June Tolley of the Kentucky-Tennessee YWCA office at Knoxville, to finish plans for the Northern Kentucky Y-Teen Spring Conference to be held April 9th at the Bracken County High School in Brooksville.

Trail of The Cross

Lesson for April 3, 1949

THE TURNING-POINT in Jesus' career was dramatic. But the few friends who were present did not then realize what it meant. On a vacation journey, Jesus put to his most intimate friends this question: "Who do men say that I am?" Peter's answer, "Thou art the Christ," may sound obvious to us, but was not obvious then. It was sensational, so much so that Jesus did not want the publicity that would come to him if that name "Christ" were freely circulated. For the word "Christ" meant nothing less than "King." To the Romans it would sound like treason; but to the Jews it would sound like Judgment Day.

When Peter said, "You are the Christ," he was implying also: "You are immortal. You are the coming conqueror of the world. You are not in the same class with any other man. You will do for mankind what no other hero has ever done."

God's View and the Devil's
ON ALL THAT glowing devotion Jesus' next announcement fell like icy rain. In the ears of those friends of his it sounded like the bell of death. Never before had Jesus told them anything like this, and they must have found it hard to believe. For he had not a word about a throne, nothing about success, nothing about mastering the world. Quite the contrary. He must "suffer many things," be rejected, "be killed." If they heard the words "rise again" too, the words made no impression. For Jesus had announced what to them seemed impossible, absurd. He, the Christ, would be killed! Small wonder that Peter broke out: "No, No! But Jesus would not compromise. He even called Peter "Satan" for thinking as he did.

The Christian church agrees with Jesus, not with Peter. We realize today, as Peter himself did afterwards, what the Cross of Christ means. Buddha, founder of a very different religion, died in old age of over-eating. Can you imagine Jesus doing that? Suppose Jesus had taken Peter's advice and made arrangements to retire comfortably where he would never see a cross? Then we never should have heard of him. He would not have been worth hearing from.

One Cross is Not Enough
YES, WE KNOW now that the Cross of Christ is important. But we are a good deal like Peter, after all. For we do not listen to what we do not like to hear. And the next words of Jesus, on that historic occasion, must have sounded then as they do now, most chilling of all. "Whoever would come after me, let him take his own cross and follow me." In Jesus' time no one was ever seen carrying a cross who was not already under sentence of death and on his way to be executed.

Translated into modern terms, what Jesus said would sound as horrible as this: Any man who wishes to follow me must take his seat on the electric chair . . . must take his place in the lethal chamber . . . must put his neck in a noose . . . and follow me.

One cross is not enough. There must be other crosses. My road is a death-march. I want for my followers only those who are willing to take the same trail.

Trail of the Cross

SUCH WORDS sounded harsh then; they do still. But in the light of the centuries, we can see what Jesus meant, better than that little band of frightened men around Jesus who did not want to hear the words "suffer . . . die." Jesus was not advocating pain for pain's sake.

Why did Jesus set his own face toward the cross? The Christian answer is, He did it for others. Now what is wrong with the world today? It isn't that we don't wish our neighbors well; but the trouble is, we don't want to be bothered, our good-will is too tender to stand any strain, we will do anything for other people provided it doesn't hurt.

But the world can be saved only as men and women imitate and multiply the spirit of the crucified Christ.

TO WIN... OR TO LOSE ?

Much deliberation and thoughtful planning is involved in moving one of these chessmen. People who play this game spend many hours contemplating the next move. Often a player finds his move has proved futile, and frequently he discovers his play has cost him the game.

In chess, we are not always able to foresee the move that lies ahead. If we lose, we merely chalk one up for the other side and forget about it.

But in another more serious game we are not able to treat our failures so lightly. In the game of life, we cannot deliberately ignore and forget our errors.

In life also, we are faced with our inability to foretell the correct move, but here the outcome is more important. This is why we must put our faith in something greater, something more sure than mere human speculation.

We who live in the Christian era are blessed with great gifts of inspiration and guidance—the Bible and the Church. Through them our lives may be made victorious. But the choice is ours . . . to win, or to lose!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

LARGEST SELECTION OF ARMSTRONG LINOLEUM IN NORTHERN KENTUCKY, ALSO QUAKER RUGS

Soil Conservation From Across the Fence

By Julian M. Dyer,
Soil Conservationist

Does your pasture have cancer? Sore spots or galled areas? It is very common in Northern Kentucky on steep hillsides near the ridge top. These cancer sores were caused years ago by breaking out the sod and using this particular soil and slope for corn or tobacco, while this type should have never been plowed. This is a particular soil type known as dirt rock soil or Portland. When once plowed it is so unstable and steep, it crumbles with every rain or thaw so that it seems impossible to get a sprig of grass to grow once the original sod is destroyed. Through the years this crumbling process has continued until these banks have developed deep gullies with such steep slopes even a snowdrift cannot cross them.

Dave Shor of old Decoursey road in Kenton county ever bulldozed in a lot of these old barren areas as did Charles Grift of near Ryland Lakes, and they have definitely demonstrated that grass will grow on them by use of lime and phosphate disced into the soil followed by barnyard manure and straw or other mulch.

Mr. Grift stated recently he believes the mulch is even more important than the lime and phosphate. That is, the mulch would insure a grass covering while the lime and phosphate alone would not be able to insure grass growth, even though the lime and phosphate are sorely needed.

Dr. J. W. O'Brien of Ludlow, R-2, recently cut down a steep bank of just this sort of soil in grading a roadway and he has decided to use mulch to help him get a grass sod again. He says he is forced to cut the water off by diversion pasture ditches and to use mulch and brush trimmings rather than burning the brush.

W. R. Coyle on Dry Creek, near Crescent Springs, has done a very excellent job of controlling a steep hillside by the use of straw mulch and is getting a wonderful sod in one year after seeding. He plans to treat an adjoining slope after terraces can be completed this season.

George Wolsing has done a little experimenting of his own by running his manure spreader across the cancer spots and he finds it no trouble to heal these areas quickly.

CHECKER-ETTS

Purina Research tests proved it—then last year, local turkey raisers found that Checker-Etts help keep more poult alive—made them grow faster.

THE FORM—is part of the reason. Poults take to Checker-Etts quicker and like them better. Fewer poults "starve to death" before they learn to eat. And the whole batch grows faster because they eat more feed.

THE FORMULA—does the rest. The Purina Turkey Startena Checker-Ett formula is balanced and blended scientifically for life and growth. This year, start your poults the Purina way. See us about the Checker-Etts—just 4 lbs. per poult does the job.

KENTUCKY MOVING UP IN CORN PRODUCTION

The Kentucky corn crop in 1948 was estimated at 100,000,000 bushels and was produced on 2,400,000 acres.

The last 100,000,000-bushel crop was made 30 years ago on 3,800,000 acres, according to W. C. Johnstone of the College of Agriculture and Home Economics, U. of Ky.

"We produced as much corn on 24 acres last year as we used to produce on 38 acres," Johnstone said.

"Our normal yield a few years ago was about 24 bushels an acre, while our last three crops have averaged 36.5, 35 and 41 bushels an acre."

Kentucky used to rank about 28th in yield an acre, among corn-growing states, but in the past three years it ranked 20th, 19th and 15th.

"Better use of land, more efficient use of fertilizer, water management practices, and thicker planting of adapted hybrid varieties tell the story."

Richard Clements, a 4-H club boy, grew 157 bushels of corn on an acre to win the corn derby in Hopkins county.

Members of Letcher county home-makers clubs seated stools and chairs with Hong Kong grass at a saving of \$345.

With the purchase of 10 cattle by George B. Day and Son, there now are three herds of registered Angus cattle in Spencer county.

It is expected that more than 1000 heifers will be signed for the calf-hood vaccination program in Hickman county.

YOUR ONLY REAL SECURITY: A HOME OF YOUR OWN!

A Message to the Man with a Family ...

Nothing else you can buy with your money lasts so long, serves so well, gives so much value year in, year out as your own home. It is at once the badge of solid citizenship and the mark of a man who is striving to provide security for his family.

Where else can you put your money, the fruits of your labor; how else can you provide so much comfort, happiness and security for your family and yourself, than in a home of your own?

The house you buy today provides shelter and a good life for your family now; and as you pay for it, month by month, it helps you build a solid financial future for yourself. Of all the things you can buy, only a home retains its real worth—twenty, thirty, forty years from now it will still give you safe, secure shelter. All that this house actually costs you is the down payment; your monthly payments are both rent and savings.

Yes, your only real security is a home of your own! Stocks may depreciate, bonds may be defaulted, even savings accounts may be depleted, but so long as your home stands, it is shelter, it is security, it is stability, for you and your family.

Fortunate, indeed, is the man who owns his home. It gives purpose to your family life. Come war or inflation, your savings invested in a home always yield their full measure of value in shelter, comfort and satisfaction. Should hard times come some day, your home still stands as a haven. We learned during the depression of the thirties that it is neither wise, profitable nor necessary to take an honest man's home from him. We learned that there are measures that can be taken to help a man hold his home. This lesson our country will never forget.

In this blessed America of ours, more people own their own homes than in any land on earth. They are better homes—far, far better than the people of any other country may aspire to.

And our homes are getting better all the time. Now that material and labor shortages are practically over, you may confidently expect to find this year the greatest home values ever seen in this country.

Like everything else, houses cost more than they did ten years ago. Yet such is the progress of the building industry that more people can afford to own a home today than ever before.

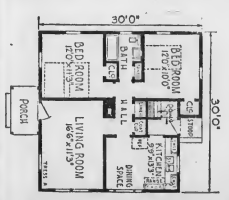

The home building industry of this country is constantly increasing the value of its product and reducing its costs so that the benefits of home ownership may be extended to more families than ever before. In thousands of communities in this country, you can now buy a home for no greater monthly cost than your weekly pay check.

Remember: A home is more, much more, than bricks and mortar, nails and lumber. It is your sure investment in your family's happiness and welfare.

In this insecure world, a home of your own is the only sure bulwark you can erect against the forces that threaten the security of your family.

INDEPENDENCE R. 1

We are sorry to report Mrs. Thos. Borkers not much improved from a several months illness. We hope she will soon be able to be out again.

The stock sale that was held at the home of Mrs. Atwood Hoffman, Saturday afternoon was well attended and everything brought good prices.

Mr. and Mrs. Winford Riley are planning on moving in their new home the latter part of this week.

We were more than glad to have had such a good attendance at the Staffordsburg Sunday School, Sunday. Most all of our regular ones were there and several new ones.

We were also very glad to have with us, our pastor, wife and daughter. Morning services were called off at Pleasant Grove on account of their redecorating the church. The Staffordsburg remodeling is getting along nicely considering the rainy weather.

We are looking forward to the re-dedication the latter part of May.

The young people of the Staffordsburg Sunday School are planning a bake sale at the Covington Market House on Saturday, April 2nd. Come and buy some good home baking. The place is at 7th and Scott.

Jimmie Hanna of Latonia spent the weekend with his grandparents, Mr. and Mrs. Earl Hanna.

Mrs. John Klette spent Saturday with her parents, Mr. and Mrs. J. A. Keeney.

Remember regular church services at Staffordsburg, Sunday, April 3rd, both morning and evening, 11 a. m. and 7:45 p. m. Sunday school at 10 a. m. Our church doors are always open to everyone who will come.

HYBRID CORN BETTER

Farmers can increase corn yields by planting hybrid seed, according to the Kentucky Agricultural Experiment Station. One year after another, hybrid seed produces at least eight bushels an acre more on 40-bushel land, it is claimed. Figuring corn worth \$1.25 a bushel means an added value of \$10 an acre from hybrid seed. Some farmers report even better results. In the Kentucky corn derby, yields from hybrid seed averaged a third more than yields from common corn.

Piner Homemakers

Mrs. Foster Bridges entertained members of the Piner Homemakers Club and guests at her home on the LLL Highway, Wednesday, March 23, with Mrs. Fred McMillan as co-hostess.

Mrs. W. C. Woods had charge of the meeting. After business was transacted, the basket lesson was discussed by Mrs. Willard Benson and Mrs. C. Gross.

Style trends were viewed by Mrs. John Dwyer. Suggestions for lessons for the coming year were also given.

After lunch a very delightful review of our Commonwealth of Kentucky was given by Mrs. W. R. Brown who pointed out many points of interest and famous people of Kentucky.

Mrs. R. W. Elliott was in charge of recreation and also gave the thought for the day. A report on exterior beautification was given

by Mrs. C. C. Gross.

Those present were Mrs. Willard Shropshire, Mrs. A. Pezarril, Mrs. C. C. Gross, Mrs. W. R. Brown, Mrs. Chester Mullins, Mrs. W. C. Woods, Mrs. Chas. Flynn, Mrs. Carl Justice, Mrs. John Dwyer, Mrs. R. W. Elliott, Mrs. Wm. Waltherman, Mrs. Otis Fick, Mrs. Steve Rich, Mrs. Elmer Spaulding, Mrs. Willard Benson, Mrs. Fred McMillan, Mrs. Christine Oliver, Mrs. Foster Bridges, and guests, Mrs. Chester Spegal, Mrs. C. C. Hopkins, Jr., Mrs. Marion Collins, Jr., and Mrs. Babe Johnson.

GOOD TIME TO BOOST STRAWBERRY ACREAGE

W. W. Magill, extension fruit specialist of the College of Agriculture and Home Economics, University of Kentucky, predicts that 1949 will be a good year to plant an acre of more of strawberries; that strawberry prices will continue good for a few years; that the Kentucky acreage of Tennessee Shipper and Tennessee Beauty will gradually increase; that berry growers who apply 1,000 to 1,500 pounds of superphosphate per acre will make 400 percent on their money, and that strawberries will continue to "pay off" as well or better than burley tobacco.

A special board meeting was called by W. W. Worthington at Goshen Christian Church, April 3rd to organize a committee to take care of the graveyard.

The following were elected: Walker Durr, chairman; Tommy Durr, Roy Daniels, Steve Rich, and Harry Johnson, committee; Mrs. Florence Cipp, treasurer, and Mrs. Zella Steeley, secretary.

Several have donated to this good cause, and anyone wishing to contribute may do so by seeing any of the committee. Someone is to be hired to keep the cemetery clean.

Marketing Cards Should Be Returned to A. C. O. Office

Although tobacco sales have all been completed, some Boone County farmers have not yet returned their Tobacco Marketing Card to the County A. C. O. office. These cards should be mailed or brought to the office at Burlington immediately, as they are needed to complete the '48 Marketing Quota Records.

Failure to return or account for the tobacco marketing card has been interpreted as constituting failure to properly account for the disposition of tobacco, and where the County Committee considers it justified, this failure may serve as a basis for the reduction of the 1949 Allotment.

Every Child In Every Community

America loves her children! As testimony to this truth, through the length and breadth of our land, there are fine schools, elaborate playgrounds, beautiful churches, free clinics, health programs—all carefully organized to direct the growth and development of children. The average American child is a very fortunate youngster in comparison with the hungry, homeless waifs across the seas.

Yet, in our land of plenty, there are thousands of children who are dependent upon the helping hand of the American Legion Auxiliary for the bare necessities of life. Other thousands need the guidance of those who will help them to become useful citizens, instead of vagrants.

One-half of the 45 million children in our country are children of veterans. Their welfare becomes the special mission of the Auxiliary. In every American town where there is an American Legion Post and Auxiliary Unit, there is a team ready to go into action to aid the veteran's child.

April, our Child Welfare Month, will find special activity in the 13,000 Units of the American Legion Auxiliary.

The Memorial Poppy provides for the veterans' children, community service, improving conditions for all children and legislation securing protection for the veteran and his family. If there is such a family in your community, please report it to your Legion Post or Auxiliary Unit—they will be glad to help—Aux. Pub. Chm., Johnson-McElroy Unit, 277.

The Verona Community Club of the Kentucky Athletic Goods Semi-Pro Baseball League will make its bid for the title this season with a combination of reliable veterans and strong newcomers, according to Wendell Ryan, manager.

Plenty of power at the plate will be provided by Kordorbeck, third baseman; Brown, shortstop; and Alexander, first base. Wilbur Bauman will open as catcher.

In the Verona outfield will be Dale Williamson and Bud Robinson, and one of the Steffen brothers.

Movie At Independence Baptist Church, Sunday

On Sunday night, April 10th at 7:30, Rev. John Nussbaum of Cincinnati will show a fifty-minute "talkie" in natural color, entitled "Mother and Home," at the Independence Baptist Church.

This is an all-Christian production with a true-life gripping plot and message. It presents the solution to delinquency and the divorce problem, and contains many much-needed lessons. It shows many beautiful outdoor scenes, and last, but not least, presents in an inoffensive yet positive way the message of salvation.

According to the pastor, W. E. Maners, there is no admission, but a free-will offering will be taken. All are invited.

Take Up the Sword Against Cancer--Give In Local Drive

Cancer can strike anyone—it may be you or someone very dear to you. The month of April is set aside as Cancer Month. The goal for Kentucky is \$200,000. The Kentucky Division of the American Cancer Society needs your help more than ever in the fight to conquer cancer.

Cancer kills 3,000 persons every year in Kentucky. Help us to help you save a life.

Progress is being made—the attack on cancer is getting results. The number of early cases coming to medical attention has doubled in some places, greatly increasing the chances for cure. Anyone can have cancer—everyone can do something about it!

Here is how your money fights cancer: Research, your contribution helps support more than a thousand research specialists who relentlessly pursue the cause and cure of cancer and who will some day, God willing, wipe out this dread disease; Education, education makes public the knowledge produced by science through books, posters, newspaper and magazine advertisements, radio and films, part of your money goes toward doing that job; Medical Service, the Society's Field Army of volunteer workers renders personal aid to cancer patients, such as cancer dressings, transportation and home services, they help establish and staff cancer clinics.

Let's make this a part to play in this Fund Raising campaign. When a neighbor or representative calls at your home, give generously to help raise the quota in Boone County.

The prizes to be awarded are as follows:

\$100 for the first prize of eight, or a "square" of dancers.
\$50 for the second prize of eight, or a "square" of dancers.
\$25 for the best couple.
\$25 for the best Old Time Band of three or more players.

Tickets for the events will be on sale at Coplin's Department Store, Covington; Ellison Furniture Store, 1116 Greenup St., Covington, and at the Independence Court House, Independence.—Pub. Chm.

After signing a contract with the New York Yankee's, Dewey "Sox" Benison, 18, a graduate of Dixie Heights High School, reported to the Newark, Ohio farm club.

He played in 1946 with the Simon Kenton Legion team under Jimmy Vioux, former Pittsburgh Pirate second baseman, and in the Cincinnati Legion All-Star game at Crosley Field.

"Sox" is the son of County Clerk and Mrs. C. D. Benison, Burlington.

Wool Pool Elects Officers

Boone County Wool Pool members met Monday at Burlington to elect officers and start the sign-up campaign among raisers. H. E. White was re-elected president and Lillard Scott was retained as secretary of the organization.

Directors present decided to have the selling committee contact Mr. Summers, specialist from the University, and buyers who regularly bid on the wool, to determine the best time to sell. Directors solicitors will contact all sheep raisers to have them sign up to sell their wool through the pool. The pool has consistently averaged a higher sale than individual sales and even higher than most pools in Kentucky. The cooperation of all sheepmen will be greatly appreciated in this sign-up campaign.

Last year many of the married women, as well as the teen-agers, had lots of fun playing and found softball good recreation. Girls, be sure to have your representative present at this open meeting. Players, as well as managers are welcome. See you Friday night!

Knothole Meeting Fri. In Burlington

A meeting of managers and sponsors of teams in the newly organized Boone County Knothole Baseball League will be held tomorrow night, Friday, April 8th at 8:00 in the Burlington Courthouse.

At this time, according to supervisor Boyd Mahan, a schedule will be made for the coming season, which opens April 23d. The present plans call for the operation of a Class A and a Class B league. To be eligible for a Class A team, a boy must have been born on or after January 1, 1934. In order to be eligible for a Class B team, a boy must have been born on or after January 1, 1936. A Class B boy is eligible to play on a Class A team. If he is good enough, but Class A boys cannot play on Class B teams.

Eight communities indicated at the last meeting that they would have Class A teams. They were Florence, Hebron, New Haven, Burlington, Petersburg, Walton, Belleview and Verona. The Class B teams were from Florence, Hebron, Petersburg and Walton. Any other communities desiring to enter a team in either class should have a representative present.

Contracts and the official rules for the 1949 season will be given at this meeting to managers who have not received them.

This is a great opportunity for young boys to play organized baseball. However, the boys need leaders to perfect their plans for them. So it is urgent that managers and coaches appear at this meeting. Don't let the youngsters down!

County Judge Carol Cropper will be present Friday night to give his views on the benefits of Knothole baseball for the boys of Boone County.

Lesson for April 10, 1949

ONCE THERE WAS a farmer who owned a large farm. Its wide acreage was divided into pastures and fields and a garden and orchards and chicken-yards and so on. But whenever any one would ask the farmer about some particular part of the farm, he would answer, "That's not my business—that's only the orchard, it isn't the Dr. Foreman farm," or "That's not the farm, that's a flock of sheep," or a rye field or whatever it might be. Of course such a farmer never lived, or if he did, he should have his head examined.

What Does Religion Cover?

YET THAT FARMER is not a bit more idiotic than a Christian who, when asked about this or that activity or aspect of life, answers, "That's not religion. I have no interest in it." Religion isn't a little fenced-off pasture for lambs, a tiny garden plot behind thick hedges.

Religion covers the whole farm, every bit of life from end to end. Jesus knew this very well. He never once refused to discuss anything on the ground that it was not religious.

He cast light on everything that touched him. He called his followers the "light of the world." Not flashlights, shining in one narrow beam! Not flashlights, but lamps, set on a lampstand and "giving light to all who are in the house."

The Light Of God

A GOOD cross-section of Jesus' methods and ideas can be seen in Mark 10, into which one chapter Mark packs his whole account of a number of weeks which Jesus spent in the region called Perea. Observe the variety of situations which confronted Jesus. First there was a question about divorce. When they brought that question up to Jesus, he did not dodge it. He did not call it a personal matter in which he, as a teacher of religion, had no interest. He did not say it was strictly a matter for the civil courts. You may read what he did say in Mark 10. You will not that first of all he brings God into his answer.

Religion And Little Children

THIS CHAPTER includes the famous story of the little children who were brought to Jesus—evidently quite small children, for Jesus lifted them into his arms. We do not here Jesus saying, "Children are too small for me to take any interest in them. Wait till they are older. What good can religion do these tiny tots?" On the contrary, Jesus not only blessed them, but held them up as models for older people.

Is your church following Jesus here? Is your church interested in the little children as much as it is in the "paying" members?

Or are the little ones shoved off into some damp corner of the church basement? In your state or province, do the Christian people take an interest in the children? Do children in your section get as good attention as pure-bred cattle do?

As Wide As Life

THEN THERE WAS a question about eternal life. Of course Jesus answered that one, it was obviously a religious question. (Except that he gave it what some people even today would consider a not very religious answer!) Jesus went on to talk about money and the effect it has on a man's prospect of eternal life. Jesus would be the very last person to imagine that a man's bank account has nothing to do with religion. Some people to this day don't like to hear a preacher mention money in his sermons. Well, such people might have been offended by Jesus, for he often preached about money and property.

Then there was the question of ambition, the audacious request that James and John made of him. He had some strong remarks to make about that.

And finally at Jericho, not long before Palm Sunday, there was the blind beggar Bartimeus. Jesus did not say to him, "Health is no affair of mine. I cure souls, not bodies."

CORONATION

Regal processions have moved down the avenues of time. Kings have bowed their heads to receive the crown of the realm.

But never rode a king as this King rode . . . meek and sitting upon an ass, and a colt the foal of an ass.

Nor ever wore a king the crown this King wore . . . surely He hath borne our griefs and carried our sorrows.

On one day men lined His path with palm branches, and spread their garments in the way. On another, they pierced His limbs with nails, and cast lots for His robe.

But today men see Him through eyes He opened, and worship Him with hearts He won.

Never lived a king as this King lives! Nor ever lived a people more blessed than those whose lives He rules!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

CHECKER-ETTS

Purina Research tests proved it—then last year, local turkey raisers found that Checker-Etts help keep more poult alive—made them grow faster.

THE FORM—is part of the reason. Poults take to Checker-Etts quicker and like them better. Fewer poults "starve to death" before they learn to eat. And the whole batch grows faster because they eat more feed.

THE FORMULA—does the rest. The Purina Turkey Startena Checker-Ett formula is balanced and blended scientifically for life and growth. This year, start your poult the Purina way. See us about the Checker-Etts—just 4 lbs. per poult does the job.

HOUSE CLEANING TIME

By Edgar A. Guest
The early robins have arrived; the lawn is showing green.
The women folks are saying, now 'tis time the home to clean.
Soon, on the clothes line in the yard will drapes and rugs be seen.
All husbands, past the honeymoon, thought be they weak or stout,
The old piano and the couch will have to move about.
And carry to the attic things their wives have ordered out.
Oh, peaceful world, that cannot be though song birds gaily sing!

Oh, world the Lord has graced for man with many a lovely thing!
Why must the women spoil it with house cleaning every spring?

District Meeting

The Northern Kentucky District Federation of Homemakers will hold their annual meeting on Saturday, May 7th at the Newport High school. Homemakers from seven counties in Northern Kentucky plan to attend this get-together.

Luncheon will be served at a cost of \$1.00. Any homemaker wanting a reservation is urged to make same, accompanied by a dollar, to her local president by April 22nd. She in turn will make reservations with the county president, Mrs. Joe Hogan, of Burlington, Route 1, by April 28th.

"Keeping the characteristics of youth through mental and physical health," by Fannie Brooks, health specialist, University of Illinois, will be a feature of the program. Others on the program are Mrs. W. K. Morris, State President of Homemakers, who will speak on "Adventures in Homemaking," and Miss Myrtle Weiden, State Leader of Home Agents. Mrs. Clyde Arnold of Florence, District Publicity Chairman, will be on the morning program.

Clinton Stations of Trigg county stated that the 1,700 pounds of coke he bought last year was worth many times its cost in improving the quality of his tobacco.

One hundred and seventy-one spring hats were made in February by Bath county women as a result of a millinery lesson in homemakers clubs.

Treating tobacco beds with blue-stone-lime gave Spencer county farmers an increase of approximately \$100 per acre in 1948.

Approximately 500 acres in Rowan county will be seeded to ladino clover this year, most of it with Ky. 31, fescue.

The Southern Railway doesn't lean on a "subsidy crutch" fashioned from your tax dollars.

Because we know there is no self-respect in a handout ... for an individual or a business ... we prefer to build and maintain our own steel "highways," stations, signalling and other facilities ... with our own dollars.

Other forms of transportation use highways, airports and waterways built and maintained by your tax dollars and ours. But not railroads.

New K-F "Traveler" Is Two Cars In One

SOMETHING NEW in the automobile industry is the "Traveler," a lower-priced \$49 multi-purpose sedan being introduced by Kaiser-Frazer dealers. To all appearances it is a conventional four-door model. But the rear seat cushions fold away and the entire back opens to provide access to more than 130 cubic feet of cargo space. When not in use as a carry-all, the "Traveler" is a deluxe, six-passenger family sedan. The cutaway-view shows how the seat cushions and hinged rear panels function.

Vice President of State Organization Is Speaker

The Simon Kenton Chapter of Future Homemakers of America held its annual Mother and Daughter banquet in the school cafeteria on Friday, April 1st. The tables were attractively decorated with potted plants, candles and place cards. A bowl of American Beauty roses, the organization's flower, was placed on the speakers' table.

The call to order was given by the F. H. A. chapter members, who repeated their creed and purposes. Grace was offered by the advisor, Mrs. Gayle McElroy. A very delightful meal was prepared by the school cafeteria staff and was served by Home Economics girls.

After the dinner, a welcome to all the mothers was given by Isabel Stahl, the vice president, and Mrs. Sylvester Stahl, the vice president's mother, gave a response to this welcome.

Florence Firemen's Follies 29th

When the curtain rises Friday evening, April 29th, we hope you good people of Boone county and Florence community will be present to support the new in a musical and fun revue given for the benefit of the Fire Hall and Community Center, Florence.

The revue is a combination of good music, song and dance by outstanding artists and is supplemented by two one-act comedies of "The Good Old Days," better known as the "Old Time Melodramas." Characters in these plays, titled "The Villain's Last Stand," and "Egbert to the Rescue," will be portrayed by local business people and staunch supporters of the Florence Fire Hall and Community Center. Names of these characters will be withheld until the performance, but are simply because we want the whole show to be a bundle of surprises to each one attending.

Final arrangements are being completed by committees under the guidance of Mrs. Louella Houston, President of the Auxiliary. The revue is being arranged and directed by Larry Aylor, local musician and singer, who gave you three previous successes: "Say It With Music," "This Is It," and "The Red, White and Blue Revue."

Contact Mrs. Eunice Pettit or Mrs. Helen Orchelle early for your reserved seats. Mrs. Ruth Martin has been given the assignment of supplying the stage decorations.

Curtain time is 8:00 p. m., and everyone's saying, "We'll see you at the follies." Don't miss the gay revue, Friday, April 29th. The revue will be presented at the Florence High School auditorium.—Pub. Chm.

IN LOVING MEMORY—

Of my dear husband, Ernest Hart-
man, who passed away Oct. 17, 1948.
Six months dear husband since
you have gone, and left me in this
world alone; oftentimes I am weary,
lonely and sad, and sigh for the days
that were bright and glad.

The depths of my sorrow cannot
tell, in the loss of my husband, I
loved so well; while you, dear Er-
nest, sweetly sleep, away from all
sorrow and care.

I am lonely and oftentimes weep, for
I miss you everywhere—I saw your
sufferings, heard your moans, with
throbbing heart and weeping eyes—
But now you calmly sleep at last.
All pain, all grief and suffering past.

Sadly Missed by His
Loving Wife and Son.

SCHOOLS TO TEACH SHEARING OF SHEEP

Three sheep-shearing schools are to be held in Kentucky this spring by county agents, the College of Agriculture and Home Economics, University of Kentucky, and cooperating farmers. They will be at Hartford in Ohio county, April 18 and 19; at the Experiment Station at Lexington, April 20 and 21, and at the Frank Marquette farm in Pendleton county, April 22.

Instructors at all three schools will include E. A. Warner, livestock specialist of the Sunbeam Corporation, and Richard C. Miller of the college. Others to help at the Lexington school are Dr. W. P. Garngus and Harold Barber of the college and Guy Hilton of the Sheepman magazine.

The schools are being held for the benefit of farmers who shear their own sheep, and also for professional shearers. All persons interested in learning how to shear or how to do a better job of shearing are urged to attend, Miller said.

Heaven Is Real

Easter Lesson for April 17, 1949

HEAVEN IS just as real as Chicago. More so, because Chicago will in time cease to be, while heaven lasts forever. A few atomic bombs, a whiff of some new plague, can make Chicago vanish; but no atomic bomb can touch heaven. The pity is, so few Christians really believe this. We can get mail from Chicago, but who ever heard of mail from heaven?

Wait, though . . . there is mail from heaven, and you have it there in your Bible. If you accept it for what it is, the Word of God, then it is the Word from heaven. To be sure, it does not tell us much about heaven. If you were actually traveling to Chicago, you would not begin by studying a street-map of that city. What you would need is a map of the roads between here and there.

So the Bible is not a guide-book to the "City Four-Square." It is more of a road-map to help us find the way between here and there. Nevertheless, the Bible does assure us that heaven is real.

Christians have many reasons for believing in the reality of the future life, and some of these may not be in the Bible; but the best reasons are there.

Jesus Believed It

WINIFRED KIRKLAND has truly said that Jesus did not simply believe in immortality; he lived it. Jesus would never have called this world or this life trifling or unimportant. But all around, under and over and through this visible world, Jesus was aware of another. He lived and acted as a citizen of both worlds. He talked of life after death—or for that matter, of his own life before his birth—at calmly and naturally as you would speak of next week or next summer.

Christ Is Risen

MANY PEOPLE feel it would be easier to believe in the future life if someone who had been across the line of death would return across that line to bring a message from the beyond. So they attend seances and they listen to table-tappings and go through all manner of weird performances in order to get a word or two from someone who has passed on.

But all the time we do have a record of a Return. Indeed it is The Return. We call it the Resurrection. The message of Easter is not summed up in songs about some "Beautiful Isle of Somewhere;" it is in these three words: "Christ is risen!"

He did not return in darkness, he was not under the control of any "medium;" he did not make himself known by ghostly hauntings. He was seen at supper-tables, he spoke to his friends on a mountainside, he came to fishermen on a spring morning by a lake shore. The earliness Christians doubted some things; but few doubted that the Lord was risen indeed.

Heaven Begins With God

THE CURE for the troubled heart, Jesus said, is faith in God. One of the strongest reasons for belief-

ing that the future life is real, is the nature and character of God himself. Jesus said as much once, in an argument with men who did not believe in immortality: "God is not the God of the dead, but of the living." If we were God's paper dolls or toy soldiers, he might weary of us as a child wearies of its toys, and sweep us all into destruction without a moment's thought. But if we are truly his children, then when life's evening comes, he will call his tired children home.

Eternal Life has two sides, the heaven-side and the earth-side. The church has never believed that simple immortality is the same thing as the heavenly life.

A Judas, when he dies, goes (as Peter sadly said) "to his own place." A Judas carries out his own hell with him. But a man like Paul, or any Christian who has been at home with God here on this earth, when at last death comes, will, as Whittier said:

"Find himself by hands familiar beckoned
Unto his fitting place."

THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither survive. There are four sound reasons why every person should join the Church. They are: (1) For his own sake. (2) For the sake of his community and nation. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Yes, I'm talking about myself . . .

Since 1931, my average wage per hour has come down almost one-half. During the same period, my hours of work in the average home have doubled. So the average user of my services is getting about twice as much for his money now as in 1931.

Perhaps you haven't realized that my wages have come down that much. That's because you've been adding more and better lights and more appliances all along. Your monthly bill may have stayed about the same or even gone up some, but you're getting about twice as much for your money now, if yours is the average family.

And that's a real bargain any way you look at it.

Mr. and Mrs. Melvin Barth (nee Jane Cahill) of Park Avenue, are being congratulated upon the arrival of a baby daughter at St. Elizabeth Hospital, Saturday morning.

Deepest sympathy is extended to the family of Mrs. Lucy Aylor, whose passing was a shock to the whole community. She will be greatly missed by all her friends.

Mrs. Fanny L. Scott returned to her home Friday from St. Elizabeth Hospital, where she was confined for three weeks for treatment.

We're counting on everyone in the community being present for the Florence Firemen Follies given at the Florence High School auditorium on Friday evening, April 29, 1949 at 8:00 p. m. If you can't come, give a donation anyway, as a sign of appreciation for the efforts of those responsible for the Florence Fire Hall and Community Center, which in time will benefit each and every individual in the community and the surrounding territory.

W. H. Easton Announces For Sheriff

Wendell H. Easton

Wendell H. Easton, Burlington, tossed his hat into the political ring this week, announcing his candidacy for Sheriff of Boone County, subject to action of the Democratic primary, Saturday, August 6, 1949.

Mr. Easton has spent his entire life in Boone County. He is a member of the Burlington Baptist Church and was educated in the schools of Hebron and Burlington.

He is well known throughout the county, having served five years as Deputy Sheriff of Boone County, one year as deputy of Glenrose Williams and four years as deputy for Sheriff R. I. Rouse.

Prior to receiving the appointment as Deputy Sheriff, Mr. Easton was a well known painting contractor and worked in this and adjoining counties.

In making his formal announcement to the voters of Boone County, he makes the following statement: "I have served five years as Deputy Sheriff and feel that I am qualified for the office, and if elected, I will serve this county to the best of my ability."

Mr. Easton solicits the patronage of all voters in Boone County, and stated that he will make an effort to see each voter personally.

Attends Farm Bureau Workshop In Louisville

Mrs. Mildred King Taylor attended the Work Shop held at the Seelbach Hotel, Louisville, April 7-8. Due to illness of Mrs. Walter King, Chairman of the Associated Women in Boone County, was unable to attend.

Mrs. Taylor met quite a few distinguished guests and speakers who attended. Among the outstanding speakers were Mrs. Charles Sewell, Director of American Farm Bureau; Mrs. Wilma B. Sledge of Jackson, Miss.; Mrs. Albert Hatcher, Alexandria; Mrs. Allen Hines, Paducah; Mrs. Pearl McLeod, Madisonville; Mrs. Scoggin Jones, Louisville; Mrs. Tom Dulin, Lexington; J. E. Stanford, Joe Betts, Bob Cross and Rube Proctor, from the Kentucky Farm Bureau Federation, and Mr. McConnell, who spoke on Blue Cross Hospitalization.

A panel discussion was held, which proved very interesting. Mrs. Sewell and Mrs. Sledge are wonderful speakers and anyone hearing these women realize what wonderful persons we have in our administrative department of our Farm Bureau Associated Women.

Plans for this year's work were made. Among the future dates you will find September 13 is designated as Farmers' Day at the State Fair, sponsored by Kentucky Farm Bureau and is expected to exceed last year's attendance, and the largest crowd ever to attend the State Fair in any one day. Another date is in July, the Training School to be held in Augusta, Ga. Mrs. Taylor reports a fine work shop and that she learned a great deal from these outstanding Farm Bureau folks.—Pub. Chm.

Y-Teens Hold Conference at Brooksville

"Foreign Problems" was the topic of Rev. Morris Coers of the Covington Immanuel Baptist Church, the principal speaker at the Northern Kentucky Y-Teen Spring Conference held at the Bracken County High School, Brooksville, on Saturday, April 9th. Rev. Coers spent a great deal of time in the Far East, Europe and Asia during the war, and his experiences, his ability and his personality make him an outstanding speaker.

After giving a description of several of the countries which are occupying the headlines today, Rev. Coers discussed some of the problems of each country. After his talk, Y-Teens were invited to ask questions on world news.

Miss Jean Ryke of Hebron High School, Y-Teens, opened the conference by leading the group singing. The Holmes High School Club presented an unusual worship program, using white, yellow and black candles to illustrate three colors of the human race and to show, after being lighted, that they are alike.

Lunch was served in the school cafeteria, where the place cards, programs, decorations and the lunch, carried out the Easter motif. The Simon Kenton Clubs gave a brief program for grace based on the Beatitudes. After lunch and in true Y-Teen spirit, every girl joined in singing favorite songs.

At the afternoon session, Mrs. Charles Pearce, Governor of the Fifth District of Women's Clubs, spoke.

New officers elected to serve at the Fall Conference, October 22nd at Carrollton High School, were: Barbara Beals, Carrollton High School, president; Mary Louise McGibben, Bracken County High School, vice president; Betty Sue Stephenson, Simon Kenton High School, secretary, and Audrey Holloway, Holmes High School, treasurer.

Twelve girls from Simon Kenton who attended were Betty Stephenson, Myra Stephens, Betty Bamber, Bonetta Elliott, Marilyn Russell, Joelle Gray, Rich, Marjorie Damon, Betty LeMaster, Molly Ann England, Sue Gabriel, Norma Jo Cross, and Jean Ardy Oliver. Two of the girls' mothers, Mrs. Lillian Elliott, and Mrs. Bertha Gabriel, and two sponsors, Miss Elma Taylor and Miss Lillian Davis, accompanied the girls.

Gillaspie-Lutes Nuptials Solemnized In Lexington, Saturday Afternoon

The home of Mr. and Mrs. James Lattimer McConnell, Lexington, with its southern colonial charm, was a perfect setting for a beautiful wedding ceremony. At the appointed hour on Saturday, April 16, Miss Mary Hood Gillaspie, daughter of Mr. and Mrs. James C. Gillaspie of Lexington, and Mr. Roy C. Lutes of Florence, were united in marriage, with the Rev. E. E. Goheman, Lexington, officiating. The house was well appointed and beautifully decorated with lighted tapers and white flowers throughout. The mantel was banked with ferns and white stock and gladioli. On either side of the center piece of white gladioli were tall lighted tapers, lending grace and dignity to the occasion.

The minister and the groom, followed by his best man, Dr. Thomas Lutes of Florence, assembled at the improvised chancel in front of the mantel. Mrs. James S. Roser, the bride's only attendant, entered from the foyer at the right of the living room.

At the sound of the wedding march the bride entered on the arm of her father. She looked lovely in her costume of a navy blue faille redingote with a silk print dress. Her navy straw, trimmed with white feathers on either side of the large brim, was picturesque. She chose navy accessories and wore a corsage of white gardenias. The bride's mother was clad in a print dress of delicate pink and wore a gardenia corsage.

A reception followed immediately after the ceremony and the guests gathered around the beautifully decorated table. The tiered wedding cake was the center of the table and seated at either end of the table, presiding over the punch bowls, were Mrs. John Ready of Lexington, and Miss Wanda Hue of Florence. Mrs. Ready chose a navy blue dress with a white hat, and Miss Hue was attractive in her navy suit with a white hat trimmed in navy.

The bride, a graduate of the University of Kentucky, is a member of Phi Upsilon Omicron, honorary Home Economics Society. She completed her Dietetics Internship at Barnes Hospital, St. Louis, Mo., and is now president of the Kentucky Dietetics Assn. She has served as Home Demonstration Agent in Boone County for the past twelve years.

In addition to farming, the groom has served as rural mail carrier at Florence.

Following a three week trip to the Grand Canyon in Arizona and other points of interest in the west, the couple will be in single room at 225 Dixie Highway, Florence, to their many friends.

Wa-Na Club Holds Guest Nite at School

The program consisted of popular songs and musical selections. Along with the music, the orchestra conducted a Musical Quiz in which the following men participated: Rickman Powers, Matthew Flynn, Clayton Jones, William Scroggin, Gayle McElroy and Powers Conrad. Mr. Scroggin won the prize for answering the most questions correctly.

Following the program, refreshments of fruit punch and cake were served the sixty guests present.

Y.

Mr. and Mrs. Harley Hanna and
son Jimmie of Latonia, were guests

SCRIPTURE: Luke 11:16-21; 14:27
DEVOTIONAL READING: Mark 9:42

Rules of Temperance

Lesson for April 24, 1949

THERE IS REALLY something funny about it. Consider a First Church congregation singing: "Jesus, I my cross have taken, All to leave and follow thee; Destitute, despised, forsaken, Thou from hence my All shalt be." Oh, come, come, ladies and gentlemen! Your cross? Where is it? "All to leave"—? You are going right back to your homes for an extra-good Sunday dinner. "Destitute"—? (Some congregations, believe it or not, actually sing "naked, poor," instead of "destitute.") Not a one of you ever has been Dr. Foreman on relief; you probably have more money in the bank than most of the people who didn't come to church.

Some People Cannot be Christians
IT MAY BE FUNNY to compare what the congregation is singing about themselves with what they really are. But it is sad, too, because that hymn illustrates how foggy-minded some Christians are about their own "cross."

They can sing blithely about it, and even complain (in song) about their own condition as something for the Salvation Army to look into, when they don't mean a word of it. The fact is, Jesus did demand just the thing the hymn describes. He said, in so many words, "Whosoever doth not bear his cross and come after me cannot be my disciple."

What Did Jesus Mean?
THERE ARE TWO ways of misunderstanding Jesus here. One wrong line is taken by those who think Jesus did not mean a word he said. The other wrong line is taken by a very few people, a very few indeed, who take Jesus absolutely literally. They believe that no one can be a true, 100 per cent Christian, unless and until he gives up all his property, all his family, and lives alone and wild, a hermit in the wilderness. The facts show that both these interpretations are false. The world has never been really made better, either by selfish, comfort-loving, worldly Christians, or by the wild and woolly hermits who are clean "out of this world."

"Love Thyself Last"
THE WISEST, the most devoted Christians have known better what Jesus meant. Jesus' own parable of the "rich fool" gives us the hint. He tells of a man who had everything he wanted . . . but when he came to die, discovered he had nothing. In that little story Jesus shows us a man who put himself before all other persons; who put himself before God; and who put things before character. He lived for his body, he lived for his comforts, he lived for himself.

The neighbors, maybe, called him smart because he was rich; but God called him a fool, and what God calls a man, that he is.

Taking the cross means living as Jesus lived, not as that fool lived.

Christians and Liquor Don't Mix
CONSIDER JUST ONE illustration of what Jesus means. Should a Christian drink alcoholic liquors? If you are not a Christian, you can try to answer this from non-Christian reasons; but that is not the question. Shall a Christian drink? Just think about this in the light of what Jesus said. The disciple of Christ will deny himself; does the drinker deny himself? The disciple of Christ will put Christ first always; but what does the drinker put first? Jesus called a man a fool who lived for his bodily pleasure, lived for himself, what would he call the man who thinks he can "take it or leave it" but who is actually tied to his bottles?

It is true, a selfish man may perhaps (for selfish reasons, such as saving money) deny himself liquor, tobacco, or even tea and coffee, and still be no Christian.

But a man who really denies himself, who loves himself last, will find that other self-denials follow as a matter of course. A man who lets his appetite dictate to him, especially his appetite for alcohol, is a man who is letting real self starve.

BOY PROBLEMS

The problems of boyhood often seem trivial and inconsequential to their elders. Adults are apt to reason that these childish problems will eventually solve themselves.

But the problems of childhood are tremendously important, even when they seem trivial in themselves. For in seeking their solution the child forms habits of thought and action which later may influence more important decisions.

If a boy's early training is such that he seeks his solutions within the framework of truth, justice, and right, he will probably stick to this pattern later when larger problems arise. If he resorts to deceit and unfairness, these may become a fixed tendency.

That is why parents should teach their children that God and religion and right are the only safe guides in meeting the problems and perplexities of life. A boy and girl so reared can usually be trusted to do right things and make right decisions.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Calling All Women of The Farm Bureau

Perhaps you are wondering who are the Associated Women of Farm Bureau. Every wife, mother or daughter of Farm Bureau members is an Associated Woman and this message is intended for each of you.

The women are fixing and serving the refreshments at our annual meeting on April 22 at 8 o'clock in the Court House at Burlington, and I, as your chairman, am asking you to help make this a success. We are having an officer from the State office as guest speaker, also the

president of the Associated Women, Mrs. Albert Hatcher. Ladies this is the first real job the men have given us, so let's show them that we too know how to work, and help them have a successful meeting. Please come!—Mrs. Walter W. King, Chairman, Associated Women.

Also any old phonograph records you have grown tired of would be gratefully accepted.

The main Army and Air Force Recruiting Station in Northern Kentucky will continue to be located in Room 8, Post Office Building, 7th and Scott St., Covington.

The closing of one office was an economy move and does not indicate a relaxing of recruiting efforts. Actually recruiting is being stepped up in order to meet the higher standards and qualifications now in effect. High school graduates particularly are encouraged to investigate opportunities open in the New Regular Army and Air Force.

Outstanding Boxer At Simon Kenton

Jack Ross

Jack Ross is the only boxer in our school and we are proud of him, even though he does look like he has been put through a sausage grinder once in a while. He is an amateur boxer and is a very good one.

Jack started fighting in 1940 when he was 12 years old. He has had approximately 300 fights since then and has won most of them. He is now a light-heavyweight, weighing 165 pounds. He is a member of the Fenwick Boxing Club, Cincinnati, with Joe Seta as his manager.

Jack has won eleven trophies in his career. Some of them are the Jimmie Shevlin Trophy, won in '46; the Julius Thiemann Trophy, won in '49, and the Herman Leiser Trophy, won in 1948 for the Best Boxer Award.

He was welterweight champion of Kentucky in 1945 and middleweight champion of Cincinnati in 1948. He also went to the semi-finals of the Golden Gloves in 1949.

He has boxed in Lexington, Louisville, Cincinnati, Indianapolis, Dayton, Columbus, and South Bend, Ind.

He has met many great fighters, some of which are Jack Dempsey, Joe Louis, Tony Zale, Joe Anderson, Freddie Miller, Joe Maxim, Walter Hafer and Joe Weihen.

Jack says he will continue fighting when out of school, and we are hoping that he will be heavyweight champion of the world some day.

Speech Festivals

Nine students from Simon Kenton, selected from over thirty contestants in the tryouts here went to Ludlow, on March 21st to represent Simon Kenton in the Region speech events. Miss Hiteman coached the Junior High contestants, and Miss Skinner was in charge of the Senior High contest.

The nine finalists at Simon Kenton were:

Betty Robertson—Jr. High Poetry Carol Ingie—Junior High Prose Joanne Taylor—Dramatic Reading Ellen Dumbacher—Sr. High Prose Flora Crawford—Sr. High Poetry Anne McGraw—Seril's Monologue Abe Hopkins—Humor's Monologue Donald Maus—Discussion John Houston—Radio Speaking All of these students ably represented Simon Kenton in the Regional speech events, three of them, Betty Robertson, Joanne Taylor and Abe Hopkins, who received ratings of Superior, were eligible to represent Simon Kenton in the State finals in Lexington. Ellen Dumbacher received the rating of Excellent.

Miss Chloe Clifford of the Extension Department at U. K., was in charge of state speech events, which were held April 11-13. Judges were all professors of Kentucky colleges and universities, who had at least two degrees in speech. Betty, Joanne and Abe went to Lexington on April 12 to compete with over 300 students, who had received ratings of superior in regional contests all over Kentucky. Competition in the state contest was quite hard, for all contestants were two-time winners.

Betty Robertson received one of two Superior ratings in the Junior High Poetry Reading contest. She received a gold pin. Joanne Taylor and Abe Hopkins both received ratings of Good in their events.

All the students who entered and won speech events did much for Simon Kenton in the region and the state, and we are very proud of them. Special credit is due Miss Hiteman for her work with Betty Robertson.

Let's look forward to next year's speech events with more and better ratings and more students participating.

The Beta members were glad to receive these new members and hope that at the end of the year many more students will be eligible for membership.

Jesus Is King

Lesson for May 1, 1949

IT IS A SIN to tell the truth out of season. So declares a famous Protestant creed. It is not always good nor wise to tell everybody everything you know. Keeping your mouth shut may be one of the best things you ever do. Jesus himself knew how to keep a secret till time to tell it. He never uttered an untruth about himself, but for a long time he did not openly declare his conviction, in spite of being pestered to say Yes or No about it.

The question was: Are you the Messiah? This was the same as asking, Are you the King? Jesus would not say Yes, because the mere word would be taken to mean "revolutionist" or "traitor." But he would not say No, because he was a king; indeed of all men he had the best right to the title.

Royal Entrance

BUT WHEN the time came, Jesus did declare himself king in a spectacular way. We know the story as the "Triumphal Entry into Jerusalem," the story of Palm Sunday, now so fresh in our minds. Jesus lived in a nation of people who were familiar with the meaning of symbols, both in word and action.

When Jesus rode into the ancient capital where his forefathers reigned, astride a mule colt, the people knew, and he knew they would know, that this was not just somebody riding a mule on a Sunday morning. In the history of the Hebrews, mules were the steeds of kings.

King Solomon was crowned riding on a mule. There was a famous prophecy (Zech. 9:9) that when Jerusalem's great king should come, he would be riding on just such a royal steed. So when Jesus rode into Jerusalem, the people threw their palm branches and shouted their welcome, not to the teacher and prophet, but to the King.

Tears in Triumph

IT WAS NOT altogether a victorious occasion. Jesus knew too well how cheap and easy "demonstrations" can be. In his mind's eye he could see a cross standing outside Jerusalem, and in his inner ear he could hear this same dusty-throated mob now shouting "Hosanna!" yelling instead "Crucify him!" Tears stood in Jesus' eyes. But they were not tears for himself; he never wasted energy in self-pity. They were tears for that blind city, tears for its coming destruction—the city that did not know the way to peace.

Master of the Temple

BOLDER THAN JESUS' triumphal entry was what he did inside the city. It was one thing to claim royal rights over the nation; but at the temple Jesus' claims reached far higher. It should be remembered that in the eyes of all Jews at that time the Temple was absolutely sacred. It represented the dwelling-place of the invisible God. Now the priests at the time were more profane and politicians than priests. They carried on what to

day we call a "racket" in the sale of animals for sacrifice and in changing the ordinary money of all countries into the local Jewish shekel (in which coin alone could temple offerings be paid).

The racket was notorious; every decent Jew hated the priestly profiteers, but no one had ever done anything about it, for that would mean assuming on authority over the temple that no man dared to assume. But Jesus took it on himself. His direct and even violent action in smashing the racketeering ring was a mark of something more than ordinary self-confidence. He laid claim to being no less than the Master of God's Temple. He was acting in the name of God and with the authority of God.

Master of Man

WHEN THE CHRISTIAN church calls Jesus "Lord" and "King" today, we are making no claim for him which he did not make for himself. What we mean by these titles is that Jesus Christ, for us and for all men, is the authority above all others.

WORKIN'
FOR THE
FAMILY

Here is a team that is hard to beat—a family whose members work together and play together and are bound by a common tie of love and mutual interests. Such families are the hope of the world.

People do not have to be clannish or unsocial to enjoy such home life. They may have interests, associations, and pleasures outside, but their dominant interest will be in the home and the family circle.

Fortunate indeed are the children whose lots are cast in such a home. For parents who are motivated to build such homes are not apt to neglect the moral and spiritual values which make life strong and beautiful.

They turn naturally to the Church and the inspiration of the Holy Scriptures for guidance, knowing that these will endure though everything else may fail.

Children reared in such homes become good citizens and useful members of society.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) Which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

STITH - PICKETT WEDDING

The marriage of Miss Dinah Stith, daughter of Mr. and Mrs. Robert Stith of Erlanger, to Mr. Eldon T. Pickett, son of Mr. and Mrs. C. T. Pickett of Covington, was solemnized Friday evening at the Latonia Baptist Church. Pails and Spring bouquets decorated the altar for the pretty candlelight service. The Rev. John Huss officiated at the double ring ceremony.

Miss Shirley Crawford was the bride's only attendant. Mr. Dale Myers, cousin of the groom, was best man. Miss Crawford wore a navy gabardine suit and a white straw hat, trimmed with navy feathers. Her flowers were pink roses.

The bride chose for her wedding a two-tone brown suit with fitted jacket and straight skirt. Her rose beige hat was decorated with delicate pink roses and soft matching veil that tied under her chin. Her flowers were white rose buds.

A reception was held at the Erlanger home of the bride's parents. The bride's mother wore a smart grey silk dress fashioned with long sleeves and straight skirt that tapered from bias folds at the waist. Her hat was a picturesque halo of deep crimson roses and veiling which matched her corsage of crimson carnations.

The groom's mother wore a navy slip frock with plunging neckline and a tunic of plain cut out embroidery. Her hat was an off the face straw bonnet in navy. She wore a corsage of white carnations. Assisting in the hospitalities of the occasion was the bride's paternal grandmother, Mrs. L. Gross of Wyoming, Ohio, who wore a beige two-piece crepe dress and matching broad brimmed straw hat. Her costume was accentuated by a pink and white carnation corsage.

Following the reception, Mr. Pickett and his bride left on their honeymoon to Fontanna Village, N. C. On their return they will reside in their apartment at 1220 Wilson Road, Bonnie Leslie.

Out-of-state guests for the festivities were from New York City, Detroit, Mich., Lafayette and Richmond, Ind., and Cincinnati, Ohio. Mr. Pickett is the grandson of Mr. and Mrs. J. T. Stone, Walton, and of Mrs. C. W. Pickett, Erlanger. He graduated from Holmes High School and then spent eight months in the Merchant Marines, after which he was in the Airborne Division of the Army for 18 months, during which time he was stationed in Japan. He attended Xavier University, and is now employed by the Bell Telephone Co. Mrs. Pickett graduated from Dixie Heights High School.

\$4 AN ACRE COMMON CHARGE FOR PLOWING

The common charge for hiring land plowed in Kentucky is \$4 an acre, and for disking, \$1.50 an acre, according to a survey of 500 farmers made by the Department of Farm Economics of the Agricultural Experiment Station, Lexington.

Where the land was reasonably level in the western part of the state the custom plowing rate was \$3.50 an acre, while in eastern counties a rate of \$5 an acre was not uncommon. To hire plowing done around cities costs more than in most sections of the state.

Farmers in eight counties reported an hourly rate of \$2.50 to \$3.85 for plowing, rather than an acre rate, with an average of about \$3.20 an hour.

For disking one time over, the common rate was \$1.50 an acre, with slightly higher rates in hill sections and around cities. Farmers in Garrard, Grant, Bracken, Campbell, Carroll, Pendleton and Scott counties reported disking rates of \$1.60 to \$2 an acre.

Nine counties had a disking rate of \$2 to \$4.30 an hour, with an average of \$3 an hour as the usual custom rate.

COYOTE RAIDS PREVENT GRAZING SMALL GRAINS

The seriousness of the coyote problem to Woodford county's \$750,000 sheep industry may be calculated from four raids on the C. M. Perkins flock on the Judge E. C. O'Rear farm, relates County Agent H. F. Forkner. Seventy-four sheep valued at \$2,500 were killed, despite close

watch. The greatest loss as a whole to flock-owners in the county is their inability to pasture sheep on small grain fields located at long distances from farm dwellings, said the farm agent.

Mrs. M. G. Taylor of Daviess county converted a stairway closet into a storage closet for cleaning equipment.

VERONA

The seniors of Walton-Verona High School took their senior trip last weekend. They went on the "Cherry Blossom Special" from Northern Kentucky. The seniors from Verona this year are Mildred Porter, Iona Patton, Ralph Adams, Jimmy Code, Jessie Lunsford, Thomas Leathers and Marion Arch Waller. They were accompanied on their trip by their class sponsor, Mrs. John Meador.

The W. M. S. of New Bethel Baptist Church met at the church last Wednesday, April 20th to study the book, "To Whom Much is Given," by Thomas. The book was taught by six members. There were sixteen members present and all realized from the study how very much we owe our Lord and how we fall to give what we owe Him. Those in attendance were Mesdames Rose Hamilton, Alice Chapman, Urs Roberts, Lizzie Noel, Pearl Lamm, Grace Renaker, Blanche Ransom, Susie Clore, Arnsella Hayden, Mattie Orr, America Sturdivant, Lillian Stephenson, Geraldine Harris, Gertrude Brewster, Allie Chandler and Pattie Waller.

Ronnie and Jimmie Kannady spent a few days last week with their grandparents, Mr. and Mrs. J. C. Kannady and Ben.

Uncle Earnest Porter went back to St. Elizabeth Hospital, Monday, to prepare for his second operation this week.

The Doggett house on 16, South of Verona, is going up rapidly. Marion Wells and family have moved back to their farm South of Verona on 16.

Mrs. Louella Watson still remains in a critical condition at her home just off 16.

Chandler & Hayden are having their store painted.

Mrs. Lizzie Noel spent from Sunday of last week until Tuesday in the W. E. Waller home.

KENTON

We are happy to report an attendance of 111 at Kenton Baptist Sunday school Sunday, April 23rd. This makes our average for the month of April, 93. Our average for March was 76. We must continue to bring people into God's house on the Lord's day. Our goal for Sunday, May 1st, is 115. If each of us will strive to be in our place and each family bring one new one, we can go far beyond this number. If you are not attending Sunday school any place, won't you come and worship with us? A cordial invitation is extended to you to attend our Sunday school and church services.

Remember Sunday school each Sunday at 10 a. m.; preaching services at 11 a. m. and 8 p. m. Rev. Frank Lipscomb, pastor; prayer meeting each Wednesday evening at 8 o'clock; cottage prayer meeting each Friday evening at 8 o'clock. We meet Friday evening, April 29 at the home of Rev. and Mrs. Frank Lipscomb and family. Be sure to come and bring someone with you.

Our Church Fellowship revival closed Sunday evening. We have been greatly inspired by these services and are ready to work harder in the cause of the Master. We must keep before us the work song: "Work for the night is coming, work thro' the morning hours; work while the dew is sparkling, work mid springing dews; work when the day grows brighter, work in the glowing sun; work for the night is coming when man's work is done."

There is something for each of us to do for the Lord. No matter how young or how old, we can find something to do for our Lord. If you can't do anything else, you can come and listen to His word as it is proclaimed by your pastor at each service.

Several of our regular members have been absent because of sickness in their families. We are glad to report that Mrs. Alberta Elston is able to be at home with her family again after spending several days in the hospital. Her parents, Mr. and Mrs. Arthur Steely have been with her constantly. They are

greatly missed from our services. Mrs. Kate Edwards is in St. Elizabeth Hospital. She is to undergo an operation Tuesday of this week.

Rev. Franklin Lipscomb, Jr. has been ill for the past week. He is very much better at this time.

(Miss Ruth Schmidt, Miss Georgia Lee Gilbert and Mrs. Franklin Lipscomb, Jr. were welcome visitors to the Golden Circle class at Kenton Baptist Church, Sunday, April 23rd. Other visitors to the adult classes were Mr. and Mrs. Johnny Riggs, Mrs. Hightower and Mr. Robbins. Several new pupils were enrolled in these classes.

Remember our goal of 115 for this coming Sunday. Be sure to be in your place in the Lord's house and bring someone with you.

Graves county homemakers report improving color combinations in 181 rooms, making 173 pairs of curtains and resetting fixtures on 210 windows.

Arrington Bros. of Lawrence county are brooding 2,000 New Hampshire in a 30x40 ft. brooder house.

INDEPENDENCE R. 1

The farmers are very glad to see the beautiful sunshine the past two days, as they are far behind with their Spring work.

This entire community was shocked to learn of the death of Orville Halderman, which occurred at St. Elizabeth Hospital last week. Mr. Halderman had lived in the neighborhood of Vanilla Hill most of his life until the past few years when he resided with his daughter, Mrs. Will Miller on the Dixie Highway. His funeral was held at the Swindler funeral parlor, Latonia, Saturday afternoon.

Chester Ballinger of Arizona is spending a few weeks with his parents, Mr. and Mrs. Dawson Ballinger.

Mrs. Rev. Roy Martin returned home Monday after spending the past week with her parents, Mr. and Mrs. J. J. Barnett.

Misses Wavilyn Riley and Evelyn Payne enjoyed the trip very much

with the pupils of Simon Kenton, who toured Washington, D. C. over the weekend.

Mr. and Mrs. J. A. Keeney spent Sunday with her sisters, Misses Alma and Mary Stephens of Independence.

Several of the Homemakers met one day last week at the Oak Island Community house to work on their baskets the club is making.

Mr. and Mrs. L. M. Deuser entertained Saturday evening in honor of her brother, Will Brooks, and family of North Carolina. Among the guests were their parents, Mr. and Mrs. Ben Fisher, Mr. and Mrs. Billy Joe Brooks and little daughter, Mr. and Mrs. Charles Deuser, all of Covington, Mr. and Mrs. Bill Tieman and children of Staffordsburg.

We were glad to see a goodly number at Sunday school Sunday.

Try to come back next Sunday and bring your neighbor with you. Also we will have services Sunday at Staffordsburg, at 11 a. m. and 7:45 p. m. Come and give our pastor a good audience. All are welcome.

FLORENCE

Evening Circle Meets

The "Evening Circle" of the Woman's Society of Christian Service of the Florence Methodist Church met at the church recently. The president, Mrs. Margaret West, presided over the business session during which officers' reports were given. The devotion was given by Mrs. Mary Carpenter, her topic being "Gethsemane." The program was presented by Mrs. John W. Dolwick, Jr., the title being "The Light in Latin America." Following this refreshments were served in the dining room. Members attending were Misses Hope Conner, Sophia Jacobs, and Charlotte Marshall, Mesdames Viola Idol, Christine Politt, Margaret West, Elsie Slinger, Mary Carpenter, Marie Shearn, Jane Stephens and Betty Haun. Guests were Mesdames Marie Thompson, Maude Graham and Helen Dolwick.

W. S. C. S. Meets

The Woman's Society of Christian Service of the Florence Methodist Church met recently with Mrs. Sam Denham, Jr., as hostess, at her home on Dixie Highway. The opening prayer was by Mrs. H. R. Daugherty. The president, Mrs. Paul Chaney, presided over the business session and was chosen as delegate to the State W. S. C. S. conference, which convenes in Lexington in May. The devotion was conducted by Mrs. Helen Bethel, her topic being "God's Light," and concluded with a solo by Mrs. Marie Thompson, accom-

panied on the violin by Mrs. Viola Idol.

Mrs. John W. Dolwick, Jr., a guest, was chairman of the program entitled "The Light in Latin America," followed by a duet, "Walled to the Cross" by Mrs. Thompson and Mrs. Allen. The meeting was dismissed with prayer by Mrs. W. R. Miller. Delicious refreshments were served the following: Mesdames W. L. Oliver, Geo. B. Miller, H. R. Daugherty, W. R. Miller, Helen Bethel, May Bristow, Marie Thompson, O. W. Robinson, Sam Dunham, Jr., Paul Chaney, Nannie Mitchell, and Lella Allen, members, and Mrs. Viola Idol, Mrs. John W. Dolwick, Jr., and Miss Sherry L. Denham, guests.

Miss Stella Carpenter motored out from Covington, Saturday and visited with her sister, Mabel, and her brothers.

Mr. and Mrs. James Rogers had as guests recently Mr. and Mrs. James Hall and son, relatives from Addyston, Ohio.

Kenneth Scott of Scott Manor, Johnny Martin of Erlanger and a friend of the former at the University of Cincinnati, have concluded a pleasant vacation of two weeks in Florida.

Prof. and Mrs. W. R. Davis of the Dixie Highway, paused for a visit with his mother at LaGrange en route home from the K. E. A. convention in Louisville.

The teachers in this vicinity attended the 77th annual Ky. Education Association convention at Memorial Auditorium, Louisville, on Thursday and Friday. A very enjoyable feature of the session was a concert on Thursday evening by the All-State Orchestra, with Orien Daley as conductor. The convention came to a close Friday evening with an address by Vice President Alben W. Barkley, in which he predicted that the Congress would soon pass legislation for Federal aid to education to equalize opportunities for youth in all states.

Mrs. Eldridge Carpenter and daughter, Mrs. R. G. Keyer, were calling on relatives Saturday, including Mr. and Mrs. Wm. Ruth, Mrs. Francis Dixon, Mrs. Earl and Mrs. Theo. Carpenter.

E. G. Stephenson was transacting business in Irvine, Monday. Earl Carpenter and family are now occupying the property they recently purchased of Mr. Bradley, formerly the Dickey farm, just off the Dixie Highway at Kensington.

EXCITING CROCHET CONTEST TO BE HELD AT BOONE 4-H & UTOPIA FAIR

Opportunity is knocking at the doors of all crocheters. Opportunity for personal fame and fortune and the distinction of bringing the National Crochet Champion crown to our community. We know we have the talent—what we want to do is to

discover and reward that talent. You can cooperate by crocheting an entry that conforms with the rules listed below and entering it in the Nationwide Crochet Contest through the Boone County 4-H and Utopia Fair.

Whether you like to crochet dollies or tablecloths, hats or aprons; whether you're male or female,

adult or teen-ager, there's a special niche for you in this exciting Contest. National prize money amounts to \$2500, and there are free trips to Chicago for two of the winners—incentives enough for anybody to get busy with crochet hook and cotton. This is the second year since the war that the Nationwide Crochet Contest has been held. It is conducted through participating state, county and local fairs throughout the country. Each of these fairs will award Special Nationwide Crochet ribbons (one in each of the 16 classifications). These 16 ribbon winners from each fair are then eligible for final judging and the National Grand Prize of \$500, plus an all-expense-paid trip for 3 days to Chicago.

The sixteen classifications are: 1) Tablecloths, 2) Bedspreads, 3) Luncheon Cloths or Luncheon Sets, 4) Centerpieces, 14 inches and over, 5) Buffet and Vanity Sets, 6) Chair Sets, 7) Dollies, under 14 inches, 8) Scarves and Wall Panels, 9) Household Accessories, 10) Edgings and Insertions, 11) Fashion Accessories, such as blouses, hats, handbags, gloves, dresses, aprons, slippers, 12) Pot Holders and Hot Plate Mats. In addition to these 12 general categories there are 4 special classifications, 13) Men Only, 14) Teen-Age Girls, 15) 4-H Club Girls, 16) Ladies over 65.

To be eligible for judging in any

of the above classifications, each piece submitted must be made of mercerized crochet cotton. Another stipulation is that it be completed since January 1, 1949. In the four special classifications, the articles submitted may be any crocheted piece made of mercerized crochet cotton.

Entries will be judged on general appearance, beauty of design and workmanship, suitability and taste. Your designs may be selected from books, leaflets, or any other source or they may be original. You have a wide choice of designs from which to choose so why not select one right away and get started. It's fun to crochet as you know. What you don't know is that your nimble fingers, crochet hook and cotton may combine to make you America's next Crochet Champion.

Observe Home Demonstration Week May 1-7

Homemakers who have benefited from home demonstration work of the Extension Service, there are more than 3 million Homemakers in this country, are celebrating this week, May 1-7, as National Home Demonstration Week.

They seek, by acquainting their women with its advantages, to express their gratitude for the great national educational project which brings to women the latest home-making information, without a charge.

Originally designed for rural women only, the service now has been expanded in some areas to include city women as well. Problems of food, clothing, shelter and family life are shared by all homemakers. Many interesting projects have been completed in the home-maker clubs, such as Leather Craft, Glass Etching, Chair Caning, Slip Cover Making, Rug Hooking, Tailoring, and many others.

Homemakers in the city and county alike will agree that the home demonstration service accomplishes its purpose of helping women have "a more abundant home and community life."

Home Demonstration Week will be closed with the annual meeting of the Northern Kentucky District of homemakers on Saturday, May 7th in the Newport High School, from 10 a. m. to 3 p. m.

A. Scroggin Announces For Jailer

Austin Scroggin, Burlington, officially announces his candidacy for Jailer of Boone County in this issue of the Advertiser, subject to action of the Democratic primary, Saturday, August 6, 1949.

Mr. Scroggin, a native of Grant County, moved to this county 12 years ago and was actively engaged in farming until four years ago, when he accepted the position of deputy jailer under Joe Huey, which position he filled until Mr. Huey's death in November, 1947. Austin Scroggin

In making this formal bow to the voters of Boone County, Mr. Scroggin issues the following statement: "During the past four years I have gained considerable knowledge in the office as a seeking, and it elected, believe that I will be better qualified to serve the people of Boone County, due to this experience."

"It will be impossible to see all the voters of the county, due to my position as jailer, having no deputy. However, I will make an honest effort to see all the voters, and should I fail to see anyone, I wish to state that it will be unintentional and that I sincerely solicit your support in my campaign for Jailer of Boone County."

To Play at Warsaw, Sunday, May 8th

Hudepohl, one of the best teams in the K. A. C. baseball league, was the attraction at Verona, Sunday, but after nine innings of good ball, the visitors were on the short end of a 4-2 score. Bill Munro stood on the mound for Verona and pitched good ball for seven innings. He was relieved by Dutch Reibling at the start of the eighth frame, and Dutch also did a fine job. The most potent offensive blow was struck by Guiley, who doubled in the fifth, to score two runs. Bill Hayes stood out defensively, coming up with a pair of excellent plays. The losers bunched three of their hits in the seventh to score their two runs.

Jesus and Critics

Lesson for May 8, 1949

DURING JESUS' last week, his enemies were firing at point-blank range. They were dead set to kill him; but they did not want to do that if they could ruin him some other way. What they tried to do was to make him out either a rascal or a fool, or both. Mark's story shows how Jesus took it.

The first question they asked him sounded perfectly fair. "Where did you get your authority?" As we saw last week, Jesus had assumed simply tremendous authority. Wasn't it fair to ask him where he got it?

The trouble was that the men who asked the questions didn't want to know. They only wanted to heckle Jesus.

The world is full of just such license-hounding snoopers as these. They do not like it when a man succeeds. They particularly do not like it when a man succeeds without their help.

"Who is this fellow anyway? Where did he get his start? What family does he have, where is his diploma?" Jesus never answered this question, because he knew why they asked it. (Mark 11:27-33.)

Taxes

IN JESUS TIME you could not vote either for more taxes, or less. You paid what the Roman soldier at your door said to pay, and you were thankful not to be poked in the ribs with his sword while you were fishing up the money. But no one dared to complain. The Romans had some deep dank dungeons for people who complained about high taxes. So the next question Jesus' enemies asked him was about taxes, or tribute, which means the same thing. They thought they had Jesus on a spot where whatever he said would put him in the wrong. Suppose he said: "Yes, pay taxes by all means." Then they would snarl: "Boot-licker of the Romans! Traitor to your country!" But if Jesus said, "No, don't pay taxes," then they would howl: "Treason! Police! Arrest this man who defies the Emperor!" Jesus' answer was a masterpiece, because he not only did not dodge the hot question, he did not leave the questioners a leg to stand on. (Mark 12:17).

Hairsplitters by Trade

THE CRITICS of Jesus were hair-splitters by trade. Yet none of them had ever been able to answer another tricky question with which they now expected to floor Jesus.

"Which is the greatest commandment of all?" The question had been going the rounds for generations. The greatest minds in Jewery had wrestled with it. But it was a foolish question after all.

Which is the most important brick in wall? What position on a valley-ball team is the most important? What is the most important link in a chain? An answer to these questions would seem about as easy as answering that one about the greatest commandment. Jesus knew they were trying to show him up as a bungler, as a very poor and amateurish hair-splitter indeed. But instead, he did what no one ex-

pected him to do: he answered their question, and answered it so well that it is one of the cornerstones of our religion today.

How to Take Criticism

THE READER should consult Mark for the whole story. It bristles with practical thoughts, one of the most practical being how to take criticism. All of us can take it from our friends and families; we know they mean it for our own good. But criticism that is unfair from people who want only to show us up for fools or to get us into hot water—that is hard to take. Jesus should be our example.

He did not let other people's criticisms interfere with his work. He never avoided criticism. He did not "twist the lion's tail," he did not deliberately provoke criticism. But he would not claim exemption from what every one has to stand, being looked over and rated by the people who knew him.

He never broke his heart over what people said of him. He did not go around crying to himself.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

FLORENCE

Sympathy of the community goes out to the family of Pvt. Joe Taylor, 20, who was killed in action Sept. 18, 1944 on Angur Island in the Pala group in the Pacific. Services were held from the Florence Baptist Church, Thursday, with Rev. Harold Waincoat of Corbin officiating. The W. Ralph Stith funeral home was in charge of arrangements and burial was in Florence cemetery. Pvt. Tay-

lor was attached to the Medical Corps of the 51st Infantry Regiment. Before entering service he attended Florence High School.

Wilbur Drake is spending part of his vacation time with his mother of Sweetwater, Tenn.

Mrs. Richard Bowman of Manchester, Ohio is visiting her sister, Mrs. Floyd Slinger, while Mr. Bowman is confined to Jewish Hospital, Cincinnati.

Mr. and Mrs. James Bristow were in charge of the eEldridge Carpenters on Sunday.

The Mother and Daughter banquet held at the Florence school Thursday evening was largely attended. Mrs. Mary Humphrey presented a most interesting talk, her topic being "The Homemaker of Tomorrow."

Mrs. Viola Idol and son were called to Ramsey, Ind., by the passing of her nephew.

Mrs. Cecil Shields of Aurora, Ind. is the house guest of her sister, Mrs. O. W. Robinson, and Dr. Robinson.

Invitations were received here to the marriage of Miss Rita Bolte, daughter of Mr. and Mrs. George Bolte of Erlanger, to Mr. James Tanner, son of Mrs. Belle Tanner, also of Erlanger. The ceremony was solemnized Saturday, April 23rd at 9:30 a. m. at St. Henry church. A reception was held in the evening from 8-11:30 at St. Henry's auditorium. The groom formerly lived on Price Road, and attended Florence school. May health, happiness and prosperity attend them as they go down the pathway of life together.

The F. F. F. revue at the Florence school auditorium Friday evening was attended by a large audience. The acts were all interesting and well done. Larry Aylor, producer and director of the show, and Mrs. Louella Houston, president of the Ladies' Auxillary of the Fire Hall and Community Center, deserve a vote of thanks for their time and ef-

fort in making the show a success. Robert Woodward of the Bi-Co-unity Farm Bureau, recently delivered new field harvesters to Harold Cigler of Hebron and Geo. Boh of Price Road.

Mrs. J. P. Tanner has returned Mt. Auburn, Ohio, where she was attending her daughter, Mrs. Lena Bentham, who is not so well.

Mr. and Mrs. Albert Requaard of Latonia were visiting with Mr. and Mrs. Price Conner, Saturday.

The P. J. Allens were calling on Mrs. Oma Riley, Thursday. We regret that Mrs. Melissa Hankins is suffering from the effects of a fall suffered about ten days ago.

Mr. and Mrs. John T. Stephenson passed another milestone along the pathway of their wedded life, when they celebrated the 62nd anniversary of their marriage April 26. A daughter and other relatives of Colfax, Ill., wired congratulations. Mr. and Mrs. Stephenson are parents of a family of fine children who are very attentive to their parents. The Stephensons are fine neighbors and we all join in wishing them many more years together.

GLENCOE

A Mother and Daughter banquet will be held at the Church of Christ on Friday night at 7:30. A large crowd is expected.

Mrs. Margaret Ellis is getting along nicely at Booth Hospital. She will be home soon.

The pictures of Camp Northward Christian camp were fine. They were shown here last Wednesday night.

The Glee Club from Warsaw High School and their leader, Mrs. Ruth Brock, went in a bus to the Masonic Home at Shelbyville, recently.

STATE'S WOOL CROP MAY BE UNDER 1948

Kentucky's wool production may be less than the 2,100,000 pounds produced in 1948, thinks C. D. Phillips, economist at the Agricultural Experiment Station, at Lexington. More sheep may be sheared, but mild winters usually reduce the weight of fleeces.

Last year Kentucky farmers sheared 739,000 sheep, taking off fleeces that weighed an average of 6.2 pounds. The average price was 49 cents a pound, and cash receipts totaled about \$2,500,000.

The 1949 wool program provides a national average price to growers of slightly more than 42 cents a pound, grease basis, or the same as last year.

CARD OF THANKS—

I wish to express my thanks to my friends and neighbors for the nice cards and gifts and sick visits received while I was in the hospital and recuperating at home. Your kindness will never be forgotten.

Judgment Day

Lesson for May 13, 1949

FORTY DIFFERENT Christian denominations sponsor this column, although it goes without saying that not all of the millions of Christians in these denominations would agree point for point with everything that is said here. Now if the reader could interview one leading Bible expert from each of these 40 denominations, and ask each one the same question: "In your personal opinion, exactly what is the meaning of Mark 13?" you might not get 40 different answers, but you certainly would get more than one.

There is no chapter in the Bible that has been the subject of more arguments than this one, and no arguments have ever been more useless than these.

Leaving extreme views aside, let us try to discover some meanings which all 40 denominations would find in this chapter, some truths on which all reasonable Christians can agree.

A Certain Fact

IN JESUS' view one thing is certain: God's judgment on this world and on all persons in it. Christian churches have different ideas about what happens after death. We have different ideas about how the judgment is to be carried out, or where it will be held, or when. But that every man will have to give account of himself before God is something Christians believe.

Your true unbeliever is not the person who goes around saying there is no God. A more subtle and dangerous form of unbelief is in the person who takes the Christian creed upon his lips but lives as if the creed were a lie.

He repeats the Apostles' Creed: "From thence he shall come to judge the quick and the dead." If those words are sincerely spoken, the believer will honestly try to please God above all others. But the unbeliever, whatever his words may say, shows that he does not believe by the fact that he tries to please, first of all, either himself or his family or his neighbors, and not God above all.

An Uncertain Time

IT IS ONLY children who think that if something doesn't happen now, it will never happen. Now and never are not the only times on God's clock. When will the judgment be? The disciples wanted to know, but Jesus did not tell them. He did not claim to know, himself, when it would be (Mark 13:32). What he did say was, Watch! There is a sense in which God's judgments are going on all the time. The end of your world will come in your own lifetime, whoever you are; for there is not much difference whether the world folds up and leaves you or whether you fold up and leave the world.

Death is the end of the world for every one who dies. Further, whenever a person suffers by and because of his own wrong-doing, here in this life and on this earth, God is judging him by the eternal moral

laws which are the very warp and filling of the fabric of life.

There is also a sense in which God judges societies and nations. We have recently seen how terrible a judgment Germany drew down on its head. The nation that takes the sword shall perish by the sword. The nation that sets out to enslave others by force will come under the same death-sentence that cut down Assyria and Rome and Japan and Germany. But not all God's judgments are on this earth. "God does not settle all his accounts in October." There is a final accounting, and no man, in this life or any other, can escape that solemn meeting with God.

The Only Judge

TWO THINGS are sure. One is that the only true judge of a man is God. The man himself is partial, his friends are partial, his enemies are prejudiced against him. Further, no one knows all the facts but God. Only God knows what a man's motives are; only God can trace to their final end all the consequences that flow from a man's act.

IT'S FOR YOU

When someone says, "It's for you," our minds begin to buzz with questions. Who is it? What do they want? Good news? Bad news? Work? Pleasure?

It's for you! Commanding words that summon our immediate attention. And those words apply as well to the Church as they do to a telephone call.

The Church is for you! Its services of worship, its program of religious education, its comforting ministrations in time of spiritual crisis... all for you!

And the Church has a vital message—good news for a discouraged world. It has a glorious work before it—a happy fellowship for men, women, and children of noble purpose.

The Church deserves your support. **It's for you!**

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of a character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

INDEPENDENCE R. 1

The Staffordsburg Sunday School had an unusually good attendance Sunday, and we were also more than pleased to have with us Rev. J. I. Barnett who gave us a splendid talk on Mothers Day. I know if all the pupils that were there that was fortunate enough to still have their mothers, if they took home with them the good points that Rev. Bar-

nett gave them it would sure give their mothers much pleasure as well as themselves. Bro. Barnett spoke of Mother being neglected which is very true, the best friend of all earthly friends is Mother.

We were very glad to see Mrs. Thomas Barker out to Sunday School. Mrs. Barkers has been confined to her room most of the time since October. She has always been one of the faithful members in the Church and Sunday School, and has certainly been missed very much. We hope she will be able to be with

us each Sunday in the future.

Miss Emma Damon had as her guests over the week-end her girlfriend, Miss Helen Wilson of Bank Lick Station.

Mr. and Mrs. Charles Pruett called on the latter's mother, Mrs. L. N. Hoffman and also her aunt, Mrs. Sophronia Mills Sunday evening.

Misses Bessie and Stella Gosey, Mr. Leslie Damon and Billy Cummins spent Saturday evening at Coney Island.

Mr. and Mrs. Morris Wharton spent the day Sunday with her parents, Mr. & Mrs. J. A. Keeney and son, Don. Also other guests were Mrs. Keeney's sisters, Misses Alma and Mary Stephens.

Mr. and Mrs. Leslie Riley and family had Mother's day dinner with their son, Winford Riley and family.

Mr. and Mrs. Earl Hanna had as guests Sunday, Mrs. G. W. Crispy, Mr. and Mrs. Harley Hanna and son.

Mr. and Mrs. Bill Tieman and children were Sunday guests of his mother, Mrs. L. M. Deuser, and husband.

Remember regular church services at Staffordsburg Sunday morning and evening 11 a.m., 7:45 p.m. Sunday School every Sunday 10 a.m. We hope to see every member of our Sunday School, and as many as possible can come of our church members present. All are always welcome.

TIPS TOBACCO PLANT BED MANAGEMENT

Angular leafspot, or rust, is a common disease of tobacco plant beds and severe outbreaks will delay setting at a time when plants are needed. Wild fire, another common disease of plant beds, is much more serious. Severe outbreaks of this disease will kill large areas of plants. Both of these diseases are easily controlled by two applications of a 3-4-50 liquid bluestone-lime mixture, according to Bill Davis Boone County Agent. The mixture should be applied when the first true leaf of the plant appears and again ten days later.

The mixture can be made as follows:

- 1—Fill a 50-gallon barrel three-fourths full of water;
- 2—Mix 4 pounds of fresh hydrated lime in 3-4 gallons water. Do not use ground lime;
- 3—Dissolve 3 pounds of bluestone either powdered or lump in about 4 gallons of water. If possible use a wooden bucket or crock for a container. Lump bluestone is somewhat harder than powdered to dissolve. If lump bluestone is used, the following will make dissolving easier: Put the 3 pounds of lump bluestone in a small cotton sack beat to a powder, and suspend it just below the surface of the water and it will readily dissolve;
- 4—Pour the lime paste in the barrel and stir vigorously while pouring. Add the bluestone solution slowly.

Apply the mixture to the bed with a sprinkling can without removing the canvas. Stir the mixture each

time the sprinkling can is filled. Fifty gallons will treat 200 feet of a 9-foot bed or 150 feet of a 12-foot bed.

The mixture will not injure the young plants so do not attempt to wash off after applying. Do not mix nitrate of soda with bluestone-lime.

The protection of the plants in the bed, resulting in healthy, vigorous, disease-free plants for setting will repay many times the cost of treating.

Dealers are well supplied with bluestone and hydrated lime. Get them now and treat your bed. These diseases may hit your plant bed and the treatment is cheap insurance.

THE PHENOHAZINE TREATMENT FOR SHEEP

Stomach worms and modular worms are the direct and indirect cause of more loss to sheepmen in Boone County than all other sheep diseases put together, according to Bill Davis, County Agent. Losses can not be measured merely by the number of sheep that die. Death losses from worms are of minor importance compared with the loss of flesh unthriftness, anemia, poor wool growth and other effects on the breeding animal and the greater amount of feed required and the longer time needed to get the lambs ready for market. Weakening of the sheep by internal parasites also makes them more susceptible to all other diseases.

Phenothiazine properly used can save sheepmen many dollars by keeping down internal parasite infestation. All adult sheep in the flock should be given an individual dose of phenothiazine twice each year; once in the spring after lambing and again in late fall or early winter. The entire flock adults and lambs should be fed a phenothiazine and salt mixture during the summer months.

The individual dosage for adult

sheep is: DRENCH—Give 1 pound phenothiazine in 1 1/2 pints water. Give each adult sheep two ounces of the mixture.

BOLETS—Give each adult sheep two 12 1/2-gram bolets.

Lambs should not be given individual treatment unless severe worm signs appear. If it does become necessary to treat the lambs, give them one-half of the dose for adult sheep.

A starving period is unnecessary in treating with phenothiazine.

The phenothiazine-salt mixture to be fed during the summer months is made by mixing part of phenothiazine in 9 parts of stock salt. The mixture must be kept dry. Plans for phenothiazine-salt feeders can be obtained from the County Agent.

Dealers throughout the county are well stocked with phenothiazine and Now Is the Time To Use It!

TRY NEW SWEET SPUD

Five thousand of the new bunch-type Porto Rican sweet potato plants will be given to five 4-H club boys in McCracken county for the production of seed stock. In the fall, each 4-H'er will return a peak of the potatoes to the Yopp Seed Company, donors of the plants, the remainder of the potatoes to belong to the club members.

Work of homemakers clubs in Rowan county will be exhibited in window displays during Home Demonstration Week, May 1-7.

4-H'ers Win Awards

Billy Maddox and Charles Utz of the Florence 4-H Club won prizes given by Pollitt's Hatchery, Florence in a scholastic contest for 4-H members, according to Bill Davis, County Agent.

Billy and Charles were judged to have the highest scholastic standing among the 25 boys and girls entered in poultry and garden projects. Both boys had an "A" average in all subjects.

Young Maddox was given 100 blood-tested, pullover clean white rock chickens as a winner in the poultry division, and Utz received a supply of vegetable seeds and plants and 50 lbs. fertilizer for his 4-H garden. Both boys will enter produce from their projects in the Boone County 4-H and Utopia Fair, Aug. 12-13. Mr. Pollitt, owner of the Hatchery, made the presentations.

Homemakers in Carroll county have started the construction of 90 pairs of hand-made gloves.

Garden Tips

Insects will be a major problem to the home gardener with the coming of warm weather. DDT, while not a cure-all for garden insects, is excellent for the control of some of these pests, according to Bill Davis, County Agent.

DDT dusting or spraying of potatoes should begin immediately and continue at ten-day intervals to control fleabeetles and Colorado beetles. New set tomatoes and sweet potato slips should also be dusted or sprayed with DDT to keep fleabeetles in check.

The striped cucumber beetle is certain death to cucumbers, squash, cantalopes and watermelons. A 3% DDT dust is the best control measure. Five dustings are needed as follows: (1) When the seedlings crack the ground; (2) Three days later; (3), (4) and (5) at five-day

intervals. It is important to get the dust down in the soil cracks.

The Mexican bean beetle can be controlled with rotenone, either ¼% or 1% strength.

Some good varieties of vegetables for home gardens are: Tendergreen, Tenderpod and Logan beans; Golden Bantam corn; US No. 5, Hales Best, Tip-Top and Benders Surprise cantalopes.

Straight-8 slicer cucumbers, Chicago Pickling pickles, Golden Summer Straightneck, Scallop Bush and Acorn Squash; Cos Trianon summer lettuce, and New Zealand summer spinach.

Steffen, the starting hurler, really got his ears pinned back. Mumm came along in the fourth and did a fair job from there on out.

Heilman had a single and home run in the first inning. He had 4 for 6 for the day and drive in 6 runs. Groeschen pitched better than fair, ending the game with a 4-0 record. Verona was guilty of 4 errors.

Williamson, Guiley and Hayes had two hits each for the losers, while Guiley and Williamson each collected three baggers. The fray lasted for 2 hours and 33 minutes. Gallatin County Merchants Next.

On Sunday, May 22nd, the Gallatin County Merchants will be the attraction at Verona, with game time being at 2:30. Verona should return to the win column in this encounter, so come out.

Receives Chrysler Award

The Walton Garage received official recognition today for advancing the automotive maintenance knowledge of its service personnel under the Chrysler Corporation Master Technicians' Service plan.

The plan uses modern instructional methods to teach mechanics in dealerships the fundamentals of engineering principles. Under it, each dealership operates a factory-designed school for mechanics, using slide films and other visual aids to demonstrate proper service methods.

The Walton Garage was awarded a plaque from Chrysler-Plymouth home offices certifying that four members of its service department have completed a year of participation in the school conducted here as part of the plan.

Each course, prepared by factory experts, is designed along the lines of the "tell, show, and do" presentation of a basic service problem. Instructional materials supplied by Chrysler Corporation include sound slide films, large blow-up charts, handbooks and lesson plans.

The Lord's Supper

Lesson for May 22, 1949

LET US CLEAR UP some very common misunderstandings of what the Christian religion is. Some (both enemies and friends) think it consists in turning one's back on the world, living in a sort of happy wonderland where the evil of the world is altogether shut out and forgotten. Another notion is that Christianity presents an angry God (for one who can very easily be made angry) laying down the law to mankind. Another is that Christianity is a purely individual affair. And still another is that Christian religion consists of the teachings of Jesus and that is all it is. Every one of these misunderstandings vanishes in the light that shines around the Lord's Supper.

Dr. Foreman

Betrayal
PEOPLE SOMETIMES think that religion shuts men's eyes to the ugly realities of life. Some religions try to do so, but not the religion of Christ. He knew the kind of world this is; he never let his disciples forget it.

On that last night, dark forces were abroad. Jesus' enemies were closing in on him. One of his own circle would betray him. Yet it was in that sort of atmosphere, heavy with betrayal and hatred, that Jesus began this sacrament of faith, hope and love.

The true Christian does not live in a fool's paradise, he does not imagine that everything is lovely in the nicest possible words. The sacrament which is the heart of his worship is itself a reminder of the ugliness of the world which man's sin creates.

Blessing
"AND HE BLESSED the bread . . ." If Christianity consisted mainly of condemning wickedness and denouncing sinners, then at the center of our worship we would have some symbol of dread and awe, like fire and brimstone, a consuming flame.

But no—at the heart of our worship is a thing as simple, plain and friendly as a loaf of bread, bread on which the blessing of God has been asked. Blessing, not cursing; invitation, not threatening, is at the heart of our religion.

Whenever you see some one whose chief idea of being a "good Christian" is going around proclaiming the meanness of the world, cawing at everybody and everything.

Breaking
"AND BROKE IT, and gave . . ." Artists have tried in a single picture to express the meaning of Christianity. Some of the pictures are beautiful, but many of them miss an important truth. What shall it be? A picture of a shipwrecked woman clinging to a rock? Of a saint praying in a long solitary vigil? These leave out something vital. For Christianity is a fellowship. No Christian is complete by himself.

At the heart of our religion is a Communion. Few if any Protestant churches allow any

one even a minister, to give the Holy Communion to himself, by himself.

The true Christian never finds himself, his true self, alone; only in fellowship. A Christian belongs with other Christians as much as one coal in a bed of coals belongs with all the rest.

....

Blood
JESUS TEACHINGS are so important, so full of wisdom and of living power, that often some one will say that Jesus was a teacher and only a teacher, and that following his teachings is all that Christianity is. Jesus did not think of it in this way.

True, his teaching is of the utmost importance; but that was not and is not all. As Middleton Murry said years ago Jesus was the only teacher who has died for his teaching. But he did more than that: he died for those he taught.

The cup at the Holy Communion reminds every one who partakes of it that Christ was not only a teacher, he was a sacrifice.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

New Griffin Rendering Plant Now in Operation

John L. Griffin, Jr., owner of the Griffin Fertilizer Company, which has operated in this county for the past several years, removing dead stock from the various farms, announces the completion of a new rendering plant near Butler, in Pendleton county. This new plant will process the material brought in by the seven trucks which the company has in operation every day, keeping the countryside clean of dead animals.

This new plant is modern in every respect and kept clean and sanitary at all times. The public is invited

to inspect the new plant at any time, and see for themselves just what happens to that dead horse or cow removed from their farm by the Griffin Fertilizer Co. truck.

The finished product of this new plant is tankage, a feed for hogs and chickens. Mr. Griffin will sell this tankage to farmers at wholesale prices.

As a souvenir of the opening of this new plant, the Griffin Fertilizer Company is offering absolutely free a fine outside weather thermometer to any customer who calls them to remove a dead or disabled animal.

Mr. Griffin is a local man, and appreciates any support his fellow Kentuckians can give him.

Oil Men Elect County Committee Officers

At a meeting of the Boone County Petroleum Industries Committee, in the Chamber of Commerce, Covington, May 10th, Elmo Baker of the Aetna Oil Company, Glencoe, was elected Chairman of the group, and other Boone County officers elected were W. L. McBee, Gulf Oil dealer, Burlington, Vice Chairman, and Clayton Renaker, Standard Oil dealer, Verona, Secretary.

Prices Are Reduced

Hamilton & Jones, local dealers, have announced price reductions on thirteen household refrigerators on the Frigidaire Division of General Motors, ranging up to \$23.00, with \$10.00 on most models. This reduction comes at the peak of the refrigerator selling season, at a time when the retail movement of Frigidaire products is ahead of the best previous years. The new low prices were brought about by greater production efficiency and actual and anticipated material cost reductions.

Boone Growers Reach High Tobacco Average

Tobacco growers in Boone County, doing an excellent job of tobacco production, produced 3,342,136 lbs. of tobacco on 2,104.1 acres, according to Bill Davis, County Agent. The average yield per acre was 1,588 pounds and the average price \$47.09 per hundred. The average price for the state was \$46.04 per hundred. Figures were computed from marketing slips by the County A.A. Office.

enthusiasm evident in the meeting and the workers were optimistic and confident of obtaining the goal of the campaign, which is \$34,000.

During the next two weeks some 700 workers will go afield soliciting funds for the hospital. The goal of the campaign is determined largely by the amount of free service and hospital care extended to patients during the previous year, who are financially unable to meet their hospitalization needs.

Booth Hospital has a great host of warm friends throughout the six counties and a generous response is anticipated for their worthy cause.

On Thursday evening, May 12th, Cropper and Roberts conducted a meeting for Boone county workers at the Burlington Grille. A large number of their District leaders and workers were present at this time, when they received working instructions. R. D. Martin, who was present at this meeting, along with Mr. Major Aivena Wood, Superintendent of Booth Hospital, expressed great satisfaction at the interest and enthusiasm of these present.

Following are leaders and workers for the county, with additional workers probably being added during the next few days:

Kirtley Cropper, Dan Roberts, Mrs. A. E. Stephens, Mrs. Clayton Brown, Mrs. Harry Ashcraft, Mr. and Mrs. Raymond Witham, Mrs. Mark Holliday, Mrs. Everett Jones, Mrs. Cam White, Mrs. Albert Stevens, Mrs. Lucinda Abernathy, Mrs. Bruce Wallace, Mrs. Charles Ransler, Mrs. Sdth Stephenson, Mrs. Marie Kendall, Mrs. Blanche Roberts, Mrs. Anna Louise Penn, Mrs. Adam Matheny, Peggy May Vest, Mrs. Mary Stephenson, William Hill, Bruce Campbell, Rev. The coming of hot weather means your electric refrigerator will soon be working longer and harder to protect your perishables and supply you with ice cubes. Follow these suggestions to keep your refrigerator operating at maximum efficiency during the hot months ahead:

1. Check door gasket to see that it makes a tight seal.
2. Defrost whenever frost reaches thickness of one-quarter of an inch.
3. Place refrigerator so air can circulate freely around motor.
4. Keep condenser and motor unit clear of lint and other obstructions.
5. If a non-sealed unit, oil according to manufacturer's directions.
6. If unit is noisy or runs excessively, have it checked by a competent serviceman.

And here's another tip! If your present refrigerator is too small or needs replacing for other reasons, see the new, roomier, more efficient 1949 models on display at your dealer's or our office. Ask about the new, easier terms now in effect.

Public Health Meeting Held At Florence

A meeting to try to work out the best plan for control of communicable diseases in schools was held at the Florence High School, May 18.

All doctors and school principals were invited to attend and participate. Both the medical group and the schools were well represented.

At the last moment Dr. Bruce Underwood, State Commissioner of Health, found he could not attend, and Dr. W. M. White, Kenton County Health Officer, was called and he graciously responded. Dr. White gave invaluable information as to the latest principles and workings of Public Health. School people and doctors took active part in discussions and came to some practical, concrete conclusions.

The doctors suggested and put through a motion that doctors practicing in Boone county, report a communicable disease to the school principal as soon as he diagnoses the case. All workers, as well as parents, must realize how much good just this can do. Other constructive procedures were also acted upon.

Dr. Gordie Young, Assistant State Superintendent of Schools, came to the meeting with Supt. H. N. Ockerman. Dr. Young remarked that it was a very fine idea and meeting, and he wished more counties would do the same thing.

Blue Mold Treatment For Tobacco Beds

Blue Mold has appeared in plant beds in Boone county and treatment to prevent the disease should be started immediately, according to Bill Davis, County Agent. The use of Fomate Z-78 has given

excellent control in past years. Fomate has also been effective in control.

Beds should be sprayed or dusted twice a week and after every rain until setting is completed. For a bed 100 feet long and 9 feet wide, 1 1/2 to 2 pounds of the material should be enough for the season if used as a spray. About 20 pounds of diluted dust of Fomate or Dithane Z-78 should be sufficient if dusting is used.

To make a spray use 3 level tablespoons of Fomate in 1 gallon of water or 1/2 pound Fomate in 25 gallons of water. If Dithane Z-78 or parate is used follow directions on the package.

Do not use material diluted for dusting in a sprayer and do not use a sprayer that has been used to spray 2-4-D.

Apply 4 to 6 gallons of spray on a bed 100 feet long and 9 feet wide. Remove the canvas and apply in such a manner as to cover the entire plant, paying particular attention to the undersides of the leaves.

If dusting is preferred, use a ready mixed dust of Fomate of Dithane Z-78 or prepare your own dust by mixing 1 pound of Fomate or 1/2 pound of Dithane Z-78 in 5 1/2 pounds of talc. Do not dilute with lime.

Apply 2 to 3 pounds of dust to a bed 100 feet long and 9 feet wide. Apply with a good rotary duster.

Avoid breathing spray drift or dust, as it is irritating. Fomate is

inflammable and explosive; do not mix or handle it near flame or sparks.

CARD OF THANKS—

We wish to express our deep appreciation to our neighbors and friends for the many kindnesses shown us during the illness and death of our loved one, Mrs. Luella Watson. Especially do we desire to thank Rev. Fred S. Nichols, and Rev. Koon; the choir, and the funeral directors. 14-21*

INDEPENDENCE R. 1

We are very glad to report Mrs. Will Binder and little son improving after a prolonged illness. We wish them both a speedy recovery.

This entire community was very sorry to learn of Mrs. Stella Richardson falling in her barnyard Saturday afternoon and breaking her ankle.

We were very thankful to have the nice rains which fell here so gently Saturday and Sunday.

Board members of the Visalia Charge met Saturday evening at the Visalia church with Rev. Patton, District Superintendent, and our pastor, Rev. Whearty, to discuss the building of a new parsonage. A committee from the four churches was elected to meet together soon to discuss the matter.

Chester Ballinger left Saturday morning for his home in Arizona, after spending several weeks with his parents, Mr. and Mrs. Dawson Ballinger.

Miss Rose Mary Binder spent the day Sunday with Miss Wavilyn Riley. Mr. and Mrs. William Summey entertained for dinner Sunday in honor of her sister, Mrs. Will House, and husband, who arrived from Nevada after spending several months there. Among their guests were Mrs. Jim Stone and Lloyd Armstrong of Walton, Mr. and Mrs. Charles Losey and sons, Mr. and Mrs. Leo Flynn and family of near Walton, Mrs. Hazel Pickett of Covington. Afternoon guests were Dr. Gibson and wife of Covington.

Mr. and Mrs. J. A. Keeney visited the latter's uncle and family at Cold Springs, Sunday.

Mr. and Mrs. Lou Deuser just learned of Mr. Deuser's sister Elsie of Indiana passing away while on the train enroute to visit her mother, who is quite ill in Louisville. We had a goody number out to

Staffordburg Sunday school Sunday, but a few were absent from last Sunday's number. Let's try to be back next Sunday.

Remember services by the regular pastor, Rev. Whearty, at 11 a. m. and 7:45 p. m. Our pastor has extended a special invitation to all of our young people of the entire community to try to be present for church services. Let's try to be present and stand by our pastor and don't expect him to carry all the burden alone. All are welcome.

Spring Dairy Pasture

A successful dairy enterprise is built around an adequate, efficient and well balanced forage program. Pasture is the cheapest and best roughage; it can supply over half of the annual feed for dairy cattle and costs only about one-third as much as other feeds, according to Bill Davis, County Agent.

By spring, many cows and heifers in Kentucky are thin and run down from lack of feed and deficiency of vitamin A. Some of these cows may have failed to conceive or may have gone long periods without coming in heat. With the coming of spring grass, these conditions may be corrected.

Close grazing of bluegrass in the cool periods of early spring weakens the grass and inhibits later growth. It is best to keep cows off permanent pasture in the spring until the grass is at least four inches high.

Early lush pasture may contain 80-85% water and for this reason a high-producing cow cannot eat enough of it to provide all the nutrients needed for heavy production. Hay and grain feeding should be continued for 2-3 weeks after the cows are turned on spring pasture. This practice will also help prevent bloat and grass tetany. Grass tetany is a highly fatal disease of cows occurring principally in the spring during the first two weeks after ani-

mals are turned to luxuriant pasture, especially that which has been fertilized. The initial symptoms are nervousness, lack of appetite, unsteady gait, rolling of the eyes, twitching of the muscles and frothing at the mouth. Within 24 hours there may be inability to rise, general spasms and convulsions, and later coma followed by death. The prompt treatment by a veterinarian is usually successful.

Grain feeding, of course, should be continued for cows producing more than three gallons of milk a day.

It is a good practice to place a box of free salt and steamed bone meal where the cows may have ready access to it.

Calves should not be turned out to pasture until they are at least 4 months old. Calves and heifers on pasture will usually do better if they are given some hay and grain until they are one year old.

The 4-H clubs of the 4th, 5th and 6th grades of the Greenburg school in Taylor county planted 2,000 loblolly pine trees in April.

DEVOTIONAL READING: Matthew 6:2

Prayer in Pain

Lesson for May 29, 1949

THE SHADOW over Gethsemane is deep. We can scarcely see the tortured figure under the moonlit olive trees. If Jesus' closest friends, in that hour, were strangers to his soul, we cannot dare to penetrate all the secrets of that fateful hour. Yet while we cannot know all, we can know enough; enough to support us in our own time of darkness and pain.

Mark uses very strong language to describe the state of Jesus' mind in Gethsemane. The two Greek words he uses, translated in the King James version "sore amazed" and "very heavy," are translated by the Revised Standard Version "greatly distressed and troubled;" by Goodspeed, "distress and dread;" by Moffatt, "appalled and agitated." As our hymn says,

"We know not how, we cannot tell
What pains He had to bear."

Still, we do know of some of the burdens which weighed so terribly on Jesus' mind and heart that night.

Power of Darkness

ONE THING that must have troubled our Lord was lack of sympathy. Peter, James and John were comfortably asleep, evidently without the slightest notion of what he was suffering. But there was worse than lack of sympathy, somewhere in the dark city one of Jesus' supposed friends, the man called Judas, was even then slinking through the alleys with murder in his heart.

Jesus well knew what was in store for him. He knew the Sanhedrin would call him a blasphemer, he knew what the Romans would do with him, once they got their hands on him. Worst of all, this must have been the tragic sense of failure.

"I would, but ye would not," he had said in tears to this very city; a city full of enemies who should have been his friends, of unbelievers who should have believed, a city he loved, but which had nothing for him but thorns and a cross. All this was on Jesus' heart that night—and as many Christians believe, far more. One of the most profound Christian thinkers has suggested that the heaviest, most painful shadow on Jesus' white soul was the sense of guilt, not his own but for the sins of the world.

Blood and the Angel

SO JESUS PRAYED. Even in the cool spring night his forehead was covered with sweat, falling to the rocky ground like dripping blood. Never rose prayer from a more tortured heart. And what came of it? In one sense, the prayer was not answered. The cup did not pass from him, he must drink it to the last bitter dregs. The prayer did not remove the pain. Yet in a deeper sense, the prayer of Christ was fully answered. "Not as I will, but as Thou wilt," he breathed. The prayer that sets one's own will in line with the will of God, whatever His will may be, is the prayer that always finds answer. At the end, there was not release, but power. "An angel came and strengthened him."

What Prayer Can Do
JESUS "LEARNED obedience by

the things which he suffered." (Heb. 5:8.) We can share his lesson. The hour of pain is not the hour to begin praying; those who have not learned prayer before, will scarcely know how to pray in a time of agony. Yet the time of pain is not the time to give up praying. When the dark hour comes, Jesus did not throw aside his faith, he prayed more intensely than ever before. Prayer does not explain pain, much less explain it away.

Prayer does not always get rid of pain, even though in many cases the prayer of faith works cures where doctors fail. What true prayer does always is to set the one who prays in tune with the will of God even when that will is not as our own.

Prayer does not bring us all the answers to the riddles of existence. It does bring power to bear what God sends us. For God's answer to those he loves is not always escape, but it is always endurance.

THE SILENT FIELD

Since the noise of battle died away there is hardly a sound to break the silence.

The men who come here to lay their wreaths on the graves never speak. Only the birds seem oblivious to the spell; and their song is a hymn of peace.

But sometimes, when your heart is full, you'd swear you heard voices, the voices of men you fought with . . . and left behind.

There's no use breaking the stillness of this silent field to answer those voices.

The way to answer them is to make this the kind of world they wanted it to be. And to bring this about, we must strengthen Christianity as the chief requirement of a successful democratic way of life. For this reason, we must all support our churches and take an active part in their development and growth.

The world "they" prayed for, lived for, died for, can be won. Sunday is another D-Day.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Plant Corn Thicker to Increase Per Acre Yields and Reduce Crop Production Costs

CHICAGO—If you want to get top possible corn yields this year, suit your rate of corn planting to the fertility potential of your soil, says the Middle West Soil Improvement Committee.

Where the land is fertile and has a good moisture-holding capacity, you can average 14,000 stalks to the acre. The ears will be smaller with such a planting rate, but the overall yield will be much higher.

The higher yield from more stalks per acre means a greater turnover of your soil's fertility. Higher yields will lower your production costs and increase your profits.

University of Minnesota agronomists found that 4-pound ears give the most corn per acre. They averaged ears of this size when they planted corn at the rate of 4 stalks to the hill in rows 40 by 40 inches.

When corn was planted 2 stalks to the hill in 40 by 40-inch rows, ears were much larger, but overall yield much smaller. Corn planted too thin does not give enough ears to make full use of the soil's supply of plant food and moisture.

Illinois and Indiana research men found, too, that the highest yields came from corn ears that didn't go over a half pound apiece.

The committee suggests these steps for maintaining the soil's crop producing ability:

- 1—Return all crop residues and manure to the soil.
- 2—Supplement with commercial plant food the fertility sold off the farm via marketed grain, livestock and dairy products.
- 3—Use tillage measures that keep topsoil and moisture at home. That includes contour cultivation.

NEW DRUGS USED TO SAVE FOALS

Veterinarians in the Animal Husbandry Department of the Kentucky Agricultural Experiment Station, working cooperatively with practicing veterinarians of Central Kentucky, have found penicillin and streptomycin effective in the treatment of septicemic infections of new-born foals.

Penicillin was effective in saving foals infected with streptococci, while streptomycin was efficient in arresting and preventing infections due to shigella equuli, the "sleeper foal."

The "sleeper foal" disease kills a large number of foals every season. In fact, it accounts for about 40 percent of the deaths among foals.

Some sick foals recovered promptly when treated with streptomycin; others required both streptomycin and penicillin.

The dose of streptomycin given was a half gram intramuscularly at three-hour intervals. The penicillin dosage ranged from 300,000 to 600,000 units, given every 12 hours.

To be successful, the veterinarians said that treatment with streptomycin should be started early in the course of the disease and continued 24 to 48 hours after the temperature of the animal had become normal.

LADINO CALLED SUPERIOR

The Kentucky Agricultural Experiment Station considers Ladino clover superior to white for most purposes. Only certified Ladino seed should be used, as uncertified seed often contains white clover. Of the seed of common white clover available, tests at the station found Kentucky or southern grown gave better results than seed from other sources.

SOIL BUILDER . . . Deep-probing sweet clover tap-roots (left) pry down below plow sole of tight soils and open them to air and water. Roots and tops add organic matter and make a thicker, richer layer of topsoil for bigger crop yields. Red clover (right) always stays "upstairs." With thicker topsoil, more plant nutrients and water are available to crops. To do top job, tap-rooted legumes need plenty of phosphate and potash fertilizer.

BUSHEL-BOOSTING TOPSOIL . . . Missouri University agronomists proved crop-boosting worth of thick topsoil. Corn yield was only 30 bushels per acre on field with no topsoil (left), 50 bushels on one layer of topsoil (center) and 70 bushels when grown on double layer (right). Topsoil can be thickened on any farm by growing deep-rooted legumes in rotation and feeding them well with phosphate and potash fertilizers.

No subsidy crutch for us!

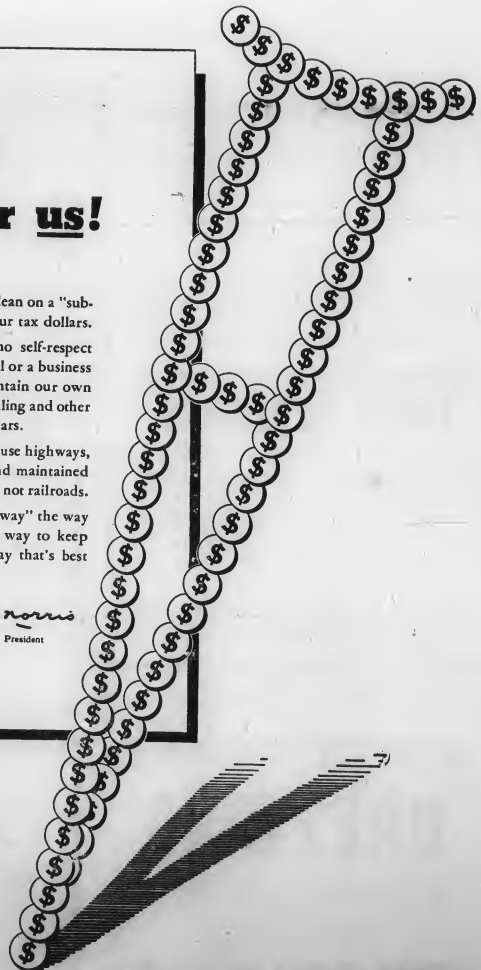

The Southern Railway doesn't lean on a "subsidy crutch" fashioned from your tax dollars.

Because we know there is no self-respect in a handout... for an individual or a business... we prefer to build and maintain our own steel "highways," stations, signalling and other facilities... with our own dollars.

Other forms of transportation use highways, airports and waterways built and maintained by your tax dollars and ours. But not railroads.

Isn't the "self-reliant-railroad-way" the way that built America? Isn't it the way to keep America strong? Isn't it the way that's best for you and your children?

Newport Catholic Trims Bearcats 12-1 In Regional Finals

Locals Defeat Vanceburg 4-0 Behind 1-hit Hurling Of Mike Ryan, Thurs.

For the third time in the past four seasons, Newport Catholic will represent northern Kentucky in the State High School Baseball Tournament, being played today and tomorrow at Parkway Field, Louisville.

The Newporters banged out a convincing 12-1 victory over Walton-Verona last Friday afternoon in the regional finals at Newport, after taking an 11-2 verdict over Dixie Heights, Thursday. To reach the Heights, Thursday, Walton-Verona had defeated Vanceburg 4-0, behind the one-hit pitching of Mike Ryan.

Jack Macke, Larry Bergfeld, Jim Hartman and Bob Monroe each saw action on the mound for Newport, holding the locals to one run on two hits. Macke, who started, was touched for one hit and the lone run. He hurled four innings, fanning seven batters.

Walton-Verona was held hitless by Bergfeld and Hartman from the fourth to the seventh inning when Monroe was touched for a hit.

Mike Ryan started on the hill for the Bearcats and was nipped for 6 runs on five hits in the third inning. The final four frames were tossed by Layne Chessman, who gave up six runs on six hits.

Kennedy and Vest got the only Walton hits, while Bankemper, Tipenhauer and Riedinger paced the Newport attack with two hits each.

MEMORIAL SERVICES

The Memorial Day parade and the services at the Walton Cemetery, held by the American Legion, the Legion Auxiliary and the Walton Volunteers Fire Department were quite impressive. The Honorable C. L. Flags were placed on the grave of each veteran of both World Wars by the Auxiliary President, Mrs. Emma Cluster. The Fire Department placed a wreath of the grave of Jimmy Isbell, a fireman, killed while on duty.

St. Clair-Holder Nuptials Solemnized Last Saturday Evening at Verona

On last Saturday evening at eight o'clock the Verona Baptist Church was the scene of a lovely wedding when Miss Malda St. Clair became the bride of Mr. Charles W. Holder, both popular young people of Walton.

The impressive double ring ceremony was read by the Reverend Doctor Rivette DeMoisey, before an altar banked with white gladiolus and snapdragons, interspersed with varieties of evergreens. Seven branched candelabra holding white tapers flanked the altar and cast a soft glow over the assemblage. The ceremony was performed on the traditional buffet by which has long been used by the officiating clergyman in the countless marriages he has performed. White satin bows at the pew heads designated seating facilities for the families. The custom of open church was observed.

Preceding the service a recital of appropriate wedding music was played by Mr. James Spencer at the piano. Mrs. Olive Johnson sang "I Love You Truly" and "Because."

The bride, who was a picture of radiant happiness, approached the altar on the arm of her father, Mr. Guy St. Clair, who gave her in marriage. She was attired in a street length frock of white, fashioned in an off-shoulder manner that accentuated her loveliness. A white head band and other white accessories completed her ensemble. She carried white orchids. Her only attendant was Mrs. Charles Hayes, who wore a becoming two-piece dress of pink waffle-weave with a matching head band. Her flowers were orchids complemented by blue streamers.

By June 10 Work Will Have Been Started In Seventy-five Counties

When highway building awards for the scheduled June 10 letting have been placed in the hands of contractors, work will have started in 75 Kentucky counties covering 512 miles of county rural roads, Emerson "Doc" Beauchamp, Commissioner of Rural Highways, said today.

"This extensive rural road work is being done under the new rural program set up by the 1948 General Assembly and is financed from the revenue accruing from the increased gasoline tax," Mr. Beauchamp said.

"Fully 75 percent of the field work is finished and substantial mileage of preliminary surveys completed in every county. Right-of-way work is well advanced and the design tabulations are moving rapidly toward the date on which the contractor will take over."

"Contracts have either been awarded or are ready for award covering almost one-half of the mileage we hope to complete in 1949. With continued cooperation on the part of the property owners and county officials, we can expect to see at least 1,000 miles of brand new county highways ready for traffic this year."

The Rural Road Commissioner said the projects include several bridges and many major drainage structures, one of the most important phases of permanent road construction. He explained proper drainage will lengthen the life of a road materially.

"Here is where we are spending a lot of money," Mr. Beauchamp stated. "We cannot stress too heavily the importance of proper drainage for these roads. The cost of culverts, bridges, ditches and relocations for the sake of a dry, hard road is sometimes high. But we are anxious to give Kentucky county roads a fair start and we must build them to last."

"Our work would be much more simple if we could drop a little rock here and there and call it finished. Kentucky has had some of that sort of road building in the past. But we cannot dodge the plain fact that carefully built and planned roads now will maintain high maintenance and repair costs in the future."

Bids are to be opened June 10 on projects calling for over 90 miles of reconstruction and surfacing on rural roads in 16 counties.

Behold The Man!

Lesson for June 5, 1949

LAST JANUARY a man in Holland wrote to the high court of the new nation of Israel, petitioning for a review, now nearly 2,000 years afterwards, of the trial of Jesus by the court at Jerusalem in the year 30 A. D. That court may never review the case, and perhaps has no legal right to do so. But history has reviewed it, and reversed it. Jesus Dr. Foreman was tried by at least four tribunals on the early morning of the first Good Friday. But the verdict of history is that the courts were guilty, one and all, while the prisoner was innocent.

Sentence first, Verdict afterwards. BESIDES the informal hearing before the ex-high priest Annas, there was the formal trial before the High Priest Caiaphas. He presided over the Sanhedrin, the supreme court of the Jews at that time. It was a learned tribunal, venerated all over the Jewish world. As the lawyers might say, its writ ran everywhere; its decisions were quoted as precedent in Alexandria, Babylon, Spain. You might have expected it to be dignified, honorable. But not on that night, with that victim.

You might as well expect a pack of wolves, starved in mid-winter, to be dignified and honorable with a sheep in their circle. These men, and their intimate friends, had been described by the Prisoner, not long before, in words that stuck in their brains like arrowheads. "Whited sepulchres . . . full of all uncleanliness . . . ye say, and do not . . . yet devour widows' houses . . . blind guides . . . offspring of vipers. . ."

If there had been any hope that they might change, Jesus would not have used such words. So they had made up their minds: He must die. Now was their hour, while the city slept. Leader of the pack was this Caiaphas. As the farce of a trial went on and the high priest by grace of Rome faced Jesus, High Priest by the grace of God, what did he see in Jesus' eyes?

That Fox. IF CAIPHAS was a wolf, Herod was a fox. It was Jesus' nickname for him. On that April morning this fox had the surprise of his lifetime. Before he could collect his wits, he was facing the very man whom his private police force had been vainly trying to arrest—Jesus of Nazareth. Two kings faced each other in Herod's hall that morning. The one wearing a robe and crown, seated on some kind of throne, was one of the most unkingly men who ever bore the royal title. The other, in plainest citizens' clothes, and no crown, no throne to be seen, was the one real king who has lived among men.

"Suffered Under Pontius Pilate" PONTIUS PILATE, procurator of Judea, deputy plenipotentiary of his Imperial Majesty, sat on his judgment seat and looked at Jesus. Six times he had looked at him; six times he had made certain that this young prisoner was an innocent man, and six times he had said so, even in the face of the mob.

The noises in the street confused him. He could not hear, down through the centuries, the voices of millions of men, women and children, rising up week after week and repeating the words, almost like a curse: "—and in Jesus Christ, His only Son, our Lord, who . . . suffered under Pontius Pilate." The voices in the street drowned the voices of the centuries.

But if, as Pontius Pilate turned Jesus over to the will of those who hated him, he had dared to look into Jesus' eyes, and what would he have seen?

To this very day, and to the end of time, in all places and among all men, this Christ whom the world holds in chains is yet the Judge of every man. Men may say of Jesus what they wish, and he will be silent still. But in his eyes in the verdict. A man is judged by his own judgement of Jesus Christ. And you, too. Facing you, he looks straight through you. What do you see in Jesus' eyes?

Graduation Gift

A gift for the graduate! What shall it be? A pen, a watch, clothes, money? Yes, any of these gifts will bring joy to the young graduate.

And so it's just a matter of choice. We make our purchase, and see that the package is delivered with our congratulations.

It is natural and right that we should yield to these generous impulses. But at a time when young people begin their own careers, with their own decisions to make, we should see that they are fortified with gifts that make for character and good living. At this turning point in life, we should do all in our power to help them establish their careers upon the strong foundations of godliness, love, honesty, charity, and friendship.

Let us give our graduates gifts of lasting quality. By example and advice let us teach them the merits of Christian living. Let us bring them with us to our churches, where they will find the greatest gift of all—the gift of God's love.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and send your Bible daily.

SHORT STORY

Nancy, Don't Fret

By
ELLIS K. BALDWIN

I HAD just put little Caroline to bed, hoping she'd sleep through until morning when shuffling down the sidewalk came Gus Olsen. I saw him before my young doctor-husband did. Gus was the first half of a patent medicine testimonial before the great transformation. His face resembled a cathedral gargyle. His stomach ailment was known all over town, still he swore he would never go to a doctor. "Not one of them would be able to help me," he boasted.

When Gus retired from the railroad he took up his post on his porch, hailing every passerby to discuss his symptoms.

Panicky, I realized if Charlie should prescribe something that didn't cure, Gus with his porch lectures would spoil the doctor's chances for building a practice.

"Charlie," I said breathlessly, "I'll tell him you have an emergency. Go out and hitch up Dinah." I'd stopped counting the times Charlie harnessed the horse to roll out of the yard like he was headed for a fire. "It's exciting for the neighborhood kids," Charlie would chuckle. It didn't mean a thing. The doctor was just putting on an act. Half an hour later you'd hear the crunch of the wheels on the driveway.

Charlie was saying, "I'm fed up with white-wind buggy rides. Besides, the neighbors are starting to wonder where I go."

GUS was walking slowly, hunched over, hand on his stomach. I found myself clinging to Charlie's hand like a drowning woman.

"Let go of me, darling," the doctor said almost angrily. "I must greet our new patient."

I whispered desperately, "Darling, you just can't face this old gossip."

Suddenly the doctor was calling out, "Good evening, Mr. Olsen. Won't you come in?"

It took Gus a long time to tell his story. I heard the doctor clear his throat a number of times while he let Gus recite his history. Then Charlie began using those long technical terms he'd been boning up on these nights when he held office hours and no one came in. "All of a sudden, I heard Gus shout angrily, 'Listen here, Doc, you can't tell me that.' Goose pimples popped out on my arms. Charlie couldn't afford to get Gus down on him.

Then Charlie's voice droned on seemingly unperturbed by Gus' shouting. From where I sat I couldn't make out what he was saying. It seemed hours before the office door swung open.

"You're kind of young," Gus was

"You've got me flabbergasted," Gus said.

teasing the doctor. "Nothing seems to have helped me. Figured you couldn't put me through any more agony but what you've just said has got me flabbergasted."

Gus moved off into the night. The doctor didn't say anything. I stood it as long as I could. "Charlie, what did you give him?"

"It's a tough case," the doctor grunted, emptying the deep bass notes he was learning to use.

"Absolutely nothing. If you must know, I told him he was a hypochondriac. Told him there was absolutely nothing wrong with him but if he didn't stop glutting himself with all these patent medicines he shortly would turn into a medicine bottle."

BUT all that was years ago. Now the impatient honking of a motor horn brought me tobogganing back down the years. Out at the curb was Caroline, a grown woman now, ready to drive her father down to his office in the medical building. The office would be jammed because Gus Olsen, rocking steadily on his porch during the years, repeated proudly again and again to his passing friends, "I'm a hypochondriac, yes sir, a hypochondriac."

Invariably he'd add, "If you got any bad symptoms and you want to know quickly what they are, there's a young doctor down the street..."

MORE CORN . . . As much as 25 more bushels of corn per acre have resulted from alternate planting of rows of corn and soybeans, says Prof. A. L. Lang, University of Illinois agronomist. Corn stood better and gave better quality ears. Although not fully tested, this method seems to offer crops greater access to sunlight, moisture and plant food.

Ronnie Connelly of Frankfort was the Sunday evening guest of his brother, A. O. Connelly, and Mrs. Connelly.

The Circle was very happy to welcome Mrs. Dora Pennington as a new member.

Those present were Mrs. Stanley Allen, Mrs. Lawrence Wilson, Mrs. Clifford Chance, Mrs. Dan Roberts, Mrs. Leon Pennington, Mrs. Louise Stephenson, Mrs. June Neumeister, Mrs. Lucrilia Neumeister, Mrs. Ethel Breeden, Mrs. Maude Smith, Mrs. Charles Praither, Mrs. Katie Hankinson, Mrs. Hodge.

Visiting committee for the next month will be Mrs. Lebus Stephenson and Mrs. Clifford Chance.

FERTILIZER PAYS . . . It pays to add plant food to new legume-grass seedings. Note difference between fertilized area (left) and unfertilized area (right). Fertilized area has a thicker stand and better growth. Roots of alfalfa or sweet clover, fed plenty of phosphate and potash, anchor themselves more firmly in the ground and resist winter heaving. You get more hay and pasture. Legumes add organic matter and condition the soil for other crops in the rotation.

Members of the Bankers Association of Northern Kentucky are to be commended for the fine program and dinner held at the Summit Hills Country Club, Tuesday afternoon and evening, May 17th. Trends of times were discussed and the relation of sound farming and sound banking. Representatives of different agricultural agencies were the guests of the association.

The Bankers Association is indeed fortunate to have John F. "Red" Graham and Ralph Fontaine to carry on this fine piece of work.

The talk by W. C. Johnston with pictures of actual accomplishments shown on the screen was one of the highlights of the meeting. Mr. Johnston brought to our attention that Kentucky was rapidly becoming a grass state with overcrop acreage on the decrease, but with about the same total harvest. He stressed the fact that good land use is essential, using each acre of land as it should be used. To build and improve a farm man must first be sold and have a wish or desire to accomplish this end.

Mr. Jake Litwin, one of the owners of Ellis farm, near Walton, says he can't say too much praise for his terraces, even on pasture land. He stated that the grass was much better on the terraced fields than on the unterraced fields. He is having the rest of his farm terraced this summer.

The terracing equipment of the Boone County Soil Conservation District was busy during the month of May. Several thousand feet of terraces were constructed on 12 different farms. The tractor will be available for the moving of pastures during the summer. Eddie Smith of Union is operator of this equipment.

Russell Lawrence is having a

spring developed on his farm on the Verona road. There is no better stock water than to have a spring walled so animals can't get into it and having the water gravitate to a large tank below. The Soil Conservation District has portable forms that can be used many times for the construction or building of these tanks. Forty of these tanks have already been built in Boone county.

On May 28th the Northern Kentucky chapter of the Soil Conservation Society of America visited Malabar Farm, owned and operated by Louis Bromfield. The trip was enjoyable as well as profitable, especially to those interested in grass farming.

TO IMPROVE HIGHWAY MAINTENANCE OPERATIONS

Plans for improving maintenance operations on Kentucky highways, in line with proposals issued recently by Highway Commissioner John A. Keck, were discussed May 11th at Carrollton with supervisory personnel of District Five.

Maintenance Director M. F. Johnson, Equipment Director W. A. Tinker and District Engineer R. L. Campbell outlined methods of cutting maintenance costs in the field and providing a more efficient maintenance program. Both these aims were strongly called for in a recent speech delivered by Commissioner Keck in Frankfort. A recording of the entire speech was played at the meeting. District Engineer Campbell ex-

pressed appreciation for the opportunity afforded the district personnel for a discussion with Central Office representatives of the vital maintenance program, and assured every cooperation on the part of the district to provide improved maintenance operations.

Speaking to district engineers and maintenance superintendents at Frankfort, April 28th, Commissioner Keck expressed dissatisfaction with the current maintenance program.

The Commissioner said weaknesses in the maintenance program spring mainly from lack of equipment and weak supervision in the field.

**URGES GREEN ACRE
FOR EACH FARM COW**

An acre of alfalfa-grass for each cow is what County Agent Troil Young wants in Washington county. To see how his program was moving ahead, he made a survey of 146 farms. These farms had an average of 12 cows and five acre of alfalfa. Of the 146 farms, 111 had alfalfa. Of the 35 which had none, the operators were planning to sow alfalfa on 22 farms. On an average, there will be nearly 8½ acres of alfalfa a farm by the end of this season, Mr. Young said. And before long he hopes to see a green acre for each animal on the farm.

**MANY FEATURES IN
4-H WEEK PROGRAM**

Instruction in judging and home-making, demonstrations in farm and home practices, judging of foods, canned products and clothing, and inspirational and recreational events will make up the program of the 26th annual 4-H Week at the University of Kentucky, June 7-11.

Each day will begin with assembly in the Memorial Building and close with xerper services in the Open Air theatre. Folk games and other recreational programs will be held each evening.

In addition to judging home products and giving demonstrations in various home-making practices, girls will have a style revue and attend many other events. A special feature will be demonstrations and information on opportunities for women trained in home economics.

Phi Epsilon Omicron, honorary home economics fraternity, will have charge of this part of the program. Boys will see the experimental crops, livestock and equipment at the Agricultural Experiment Station. Included will be a flock of sheep that has furnished many champions at the International Live Stock Exposition, and an outstanding dairy herd. The boys also will see the big new dairy center, which is one of the best of its kind in the United States.

Every one of the 120 counties in the state will be represented at 4-H Week this year. The attendance is expected to be between 1,300 and 1,500 boys and girls, local club lead-
